Report on
Corporate Governance
and Ownership Structures
26 February 2019

Introduction

This Report, available in the “Governance” section of the Company’s website, as well as in the authorised storage mechanism eMarket Storage, has been prepared in accordance with Article 123-bis of the Consolidated Law on Finance, which requires issuers to provide the market yearly with detailed information on their ownership structures, their compliance to a corporate governance code, their corporate bodies structure and operation as well as their corporate governance practices.

The Report also seeks to fulfil disclosure obligations on organisational structures and corporate governance laid down for banks by the Supervisory Provisions on corporate governance.

The Report also represents, on one hand, an opportunity for Intesa Sanpaolo to carry out a periodic overall self-analysis, on the other hand a major tool to communicate with its shareholders, investors and the market, aimed at guiding them through the Bank’s governance mechanisms.

Within this framework, the Report describes the levels of compliance with the Corporate Governance Code, and identifies the rare cases of discordance with the latter and the reasons supporting them, also considering the peculiarities of the one-tier corporate governance model and taking account of the Code Guidelines as to “comply or explain” in the event of any deviation from the recommendations contained in the related principles and application criteria.

The Report contains a chapter (“Overview”) with the most relevant and pertinent information and data which – including through charts and tables - provide a summary overview of the main features of Intesa Sanpaolo’s corporate governance model and the management characteristics of the Bank and the Group, set out in the text of the Report, and also supplement some of the information contained in the Report on Remuneration.

The introductory section of the Report is followed by three parts:

- Part I discloses information on the ownership structures, except for certain information that has been included in Part II for the purposes of greater clarity;
- Part II contains more precise information on the corporate governance, Corporate Bodies, the corporate structure and the internal control and risk management system;
- Part III, finally, includes summary tables on the Bodies' structure.

Information on the provisions of the Code concerning remuneration items is mainly contained in the Report on Remuneration.

For more immediate interpretation, specific margin notes have been included alongside the text citing the relevant Principles and Criteria of the Code, along with the requirements of paragraph 1 (ownership structures) and paragraph 2 (corporate governance) of Article 123-bis of the Consolidated Law on Finance.

The Appendix to this document contains two check lists that indicate, on one side, the Principles and Criteria of the Code applied and the provisions of Article 123-bis of the Consolidated Law on Finance and, on the other side, their implementation (with any amendments) or non-application, with reference to the page in which the matter is discussed.

However, these check lists should be read together with the clarifying notes and details provided in the Report as regards application of the individual provisions.

Information contained in this Report, unless otherwise stated, refers to the position as at 26 February 2019, the date on which the Report was approved by the Board of Directors.

The Report was audited for consistency by the independent auditors KPMG, in accordance with the aforementioned Article 123-bis. Their findings are published in the Independent Auditors’ Reports, prepared in accordance with Article 14 of Italian Legislative Decree No. 39/2010, and annexed to the Parent Company’s and consolidated financial statements for 2018.

Adoption of the Corporate Governance Code

Intesa Sanpaolo has adopted the Corporate Governance Code, as updated in July 2018, available on the Corporate Governance Committee website (www.borsaitaliana.it/comitato-corporate-governance/homepage/homepage.htm). Consequently, the Bank's governance is also inspired by the aims and guidelines enshrined therein, with a view to ensuring the effective and transparent separation of the roles and responsibilities of its Corporate Bodies, and, in particular, also in accordance with supervisory provisions, a proper balance of strategic supervision, management and control functions.

Art. 123-bis (2),
(a) CLF

The Bank adapts the principles and criteria of the Code to its own one-tier governance system, this option being offered by the Code for alternatives to the traditional governance and control models, in a manner consistent with the objectives of good corporate governance, transparent reporting and protection of investors and the market, as well as of the interests of all the stakeholders that the Bank liaises with. Consequently, the articles of the Code that make reference to the board of directors and the board of statutory auditors, or their members, are applied, in principle, to the Board of Directors and the Management Control Committee or their members, respectively.

10.P.1
10.P.3.

Furthermore, the Company, aware that efficient corporate governance is essential for the pursuit of its objectives, constantly updates its corporate governance operation on the basis of past experience and changing regulations, national and international best practices as well as corporate governance principles and recommendations promoted by the main Bodies and Authorities (i.e. the Financial Stability Board, the Basel Committee on Banking Supervision and the European Banking Authority).

All the above, with no prejudice to strict compliance with the reference regulatory framework and, in particular, the provisions laid down in EU sector regulations, in the Consolidated Law on Banking, as well as the provisions issued by the Bank of Italy in the performance of its supervisory functions, pursuant to which, Intesa Sanpaolo, as a Bank, must however adapt its organisational structure; in this regard, it is noted that Intesa Sanpaolo – as a "significant supervised entity" – is subject to the direct supervision of the European Central Bank, which is responsible for the fulfilment of specific duties regarding the prudential supervision of credit institutions within the Single Supervisory Mechanism, including specific controls on the presence of sound corporate governance principles.

The Corporate Governance Committee, by a letter dated 21 December 2018 addressed to the listed companies, has identified certain areas where it is necessary to encourage Corporate Bodies to improve and strengthen adoption of the best practices recommended by the Corporate Governance Code; in particular, the Committee focused on the pre-meeting information, on the application of the independence criteria set forth by the Code, on transparency as regards the methods of conducting the board review as well as on some aspects concerning the remuneration of executive directors.

The Committee's recommendations were brought to the attention of the Board of Directors and the Management Control Committee, and are adequately adhered to by Intesa Sanpaolo; the guidelines regarding the governance aspects are duly reflected in this Report while, with specific reference to the evidence regarding remuneration, reference is made to the Report on Remuneration.

Overview

Intesa Sanpaolo is a Bank quoted on the MTA market (Mercato Telematico Azionario) organised and managed by Borsa Italiana. The purpose of the Company is the deposit-taking and the carrying out of all forms of lending activities, both directly and through its subsidiaries, together with any other transactions instrumental or related to the achievement of its corporate purpose.

Corporate Governance model

Intesa Sanpaolo adopts the "one-tier" management and control model, pursuant to Articles 2409-sexiesdecies et seq. of the Italian Civil Code and Articles 147-ter et seq. of the Consolidated Law on Finance, based on the existence of a Board of Directors and a Management Control Committee set up within it, both appointed by the Shareholders' Meeting. In particular, also in compliance with the provisions of the applicable regulations concerning listed companies and in light of the adoption of the Corporate Governance Code, Intesa Sanpaolo's corporate governance system is characterised as follows:

Shareholders' Meeting	<p>Body deemed to represent all shareholders and its resolutions, passed in accordance with the law and the Articles of Association, are binding on all shareholders, irrespective of their attendance or dissent. In ordinary or extraordinary session, it resolves, among other things, on (i) the approval of the financial statements and net income allocation, (ii) the appointment and removal of Board Directors and members of the Management Control Committee and their Chairmen, as well as the remuneration thereof, (iii) the responsibility of Board Members, (iv) the appointment of the independent auditors, (v) the remuneration policies, (vi) some extraordinary transactions, capital increases and amendments to the Articles of Association.</p>
Board of Directors	<p>The Board – consisting, pursuant to the Articles of Association, of a minimum of 15 to a maximum of 19 members and currently made up of 19 members appointed by the Shareholders' Meeting on the basis of slates submitted by the shareholders for a period of three years – is responsible for the management of the company and is tasked with performing strategic guidance and supervision functions and resolving on all the most important corporate deeds. It appoints, among its members, the Managing Director, the only Executive Director, who oversees the management of the company within the scope of the powers granted to him/her by the Board, also taking care of implementing the related resolutions.</p>
Management Control Committee	<p>The Management Control Committee – appointed by the Shareholders' Meeting within the Board, for a period of three years – is made up of 5 Directors, all of whom are independent; it performs the powers and functions conferred by the applicable regulations upon the body with the control function and upon the internal control and audit committee, pursuant to Italian Legislative Decree No. 39/2010.</p>
Board Committees	<p>The Board Committees – Nomination Committee, Remuneration Committee, Risks Committee and Committee for Transactions with Related Parties and Associated Entities – support, with propositional, advisory and assessment tasks, each within its own remit, the Board of Directors in carrying out its functions, in order to facilitate the adoption of fully informed decisions and increase the efficiency and effectiveness of the Board's discussions.</p>

The one-tier governance model: its application within Intesa Sanpaolo

Main advantages

The main advantages of the one-tier governance model, compared to other corporate governance systems, are:

- centralisation of the strategic supervision and management roles in a single body, with the following benefits:
 - more direct relationship between the Board, which determines the strategic guidelines, and the Managing Director and CEO, who proposes and implements them;
 - immediacy in the flow of information, thus saving time and costs;
 - greater interaction and dialogue between those in charge of monitoring the consistency of management with strategic guidelines (the Board as a whole, but especially the non-executive Directors) and the Managing Director;
- integration of the strategic supervision function with the performance of an ex-ante control activity;
- enhancement of the effectiveness of the control function, centralised in a Committee (the Management Control Committee) established within the Board.

Main characteristics

The adopted model focuses on the following main guidelines:

- clear division of roles and responsibilities among the various Bodies;
- predominant presence of non-executive Board Directors and, among them, of the independent Board Directors capable of ensuring a fair and balanced debate within the Board, an effective counterweight to the Managing Director and CEO and the Bank's Management, and adequate monitoring activities on the choices made by them;
- high representation of minorities within the Board;
- important role of the Chairman of the Board of Directors, aimed at encouraging the effective debate within the Board, ensuring its effective functioning and actual contribution of all Board Directors;
- system of adequate and timely information flows, within the Bodies and between the Bodies and the corporate functions.

Objectives achieved

At the end of the first mandate, the actual implementation of the one-tier governance system is overall in line with the plan as regards several profiles:

- clear definition of the roles, duties and powers of the Board of Directors, Board Committees, Chairmen and of the Managing Director and CEO;
- challenge role of the Board of Directors vis-à-vis the Managing Director and CEO and the Key Managers;
- proactive role of the Management Control Committee.

Social and environmental responsibility

In setting long-term growth and value creation objectives, Intesa Sanpaolo is aware of the social and environmental developments that accompany the business activities of the Bank and the Group. It therefore promotes a style of growth that concentrates on long-term sustainability of results, in support of the economies and communities in the areas in which it operates, placing special focus on environmental protection and enhancement.

In order to promote, monitor and coordinate the various issues related to social responsibility, there is a dedicated Intesa Sanpaolo Structure – Corporate Social Responsibility, belonging to the Chief Financial Officer Governance Area – which supports the top management in the definition of sustainability strategies and policies, aimed at generating value for stakeholders, including through the CSR delegates appointed in the Group's main Structures and companies.

In order to support and preserve the various issues related to social responsibility, Intesa Sanpaolo adopts and draws up specific documents, including the Code of Ethics and the Consolidated Non-financial Statement pursuant to Italian Legislative Decree No. 254/2016, as well as various policies regarding specific areas of the Bank's activities (human rights, the environment, loans to specific sectors).

1.C.1. c) and e)

The Board periodically assesses the general development of operations, also on presentation of the financial data of the Bank and the Group, taking into account, in particular, the information received from the Managing Director, and periodically comparing results achieved with those previously forecast. The Board also assesses the adequacy of the organisational, management and accounting structure of the Company.

Composition of the Board of Directors

Composition, diversity and appointment

Art. 123-bis (2), (d) CLF

The Board of Directors is composed of a minimum of 15 up to a maximum of 19 members, shareholders or otherwise, appointed by the Shareholders' Meeting on the basis of slates submitted by Shareholders.

1.C.1. i)

In this context, the Management Control Committee consists of five Board Members, also appointed directly by the Shareholders' Meeting, in accordance with the requirements laid down by the banking supervision regulations.

2.P.1
2.P.2
2.P.3.

The presence within the Board of a large majority of independent directors and the appointment by the Board of a single Managing Director and chief executive officer, excluding that other Directors may

hold executive offices and that the Board may delegate its duties to an executive committee, were considered a priority.

The less-represented gender must be reserved a share of at least one third of the total members, as established by applicable regulations on equal access to the management and control bodies of listed companies and by the recommendations of the Corporate Governance Code, as updated in July 2018.

2.P.4.
2.C.3.

In accordance with the Articles of Association, at least four members shall be enrolled with the Register of Statutory Auditors and shall have practised as auditors or acted as members of a limited company control body for at least three years.

The detailed composition of the Board is shown in Part III, Table No. 1, of this Report.

More comprehensive information on the personal and professional background of each Director is available in the documentation published on the Bank's website at the time of their appointment, and is attached to the slate filed by shareholders from which each elected Director was drawn. The Bank website ("Governance" section) provides brief biographical and professional notes on the Directors in office.

In line with the Supervisory Provisions, for the purposes of appointing or co-opting the Directors, the Board of Directors identifies its optimal qualitative and quantitative composition, including, among other things, an adequate level of diversification of the members also in terms of age, gender, geographical origin and skills.

Art. 123-bis (2), (d)-bis, CLF

In this regard, Intesa Sanpaolo's Articles of Association specify that the Board adopts the necessary measures to ensure that each Director and the Board as a whole are constantly adequate by degree of diversification, including in terms of experience, gender and international orientation, as well as competence, fairness, reputation, independence of mind and time commitment.

2.P.4.

The Board of Directors currently in office was appointed in compliance with the optimal qualitative and quantitative guidelines established in 2016, upon the appointment of the Board itself, by Intesa Sanpaolo's outgoing Supervisory Board as part of a specific document published on the Bank's website.

1.C.1. h)

The document expressly required shareholders to ensure the widest possible gender diversity within the Board, the presence of adequate professional skills and diversification among the directors' age groups, as well as a wide range of knowledge and experience.

2.C.3. With particular reference to gender diversity, Intesa Sanpaolo guarantees full compliance with the gender quotas provided for by the regulations, as indicated above. Furthermore, in the current structure of the Board, the female gender is represented within all the Board Committees, reaches the majority of the members of the Committee for Transactions with Related Parties and has the chairmanship of the Risks Committee.

In more general terms, with regards to gender diversity, Intesa Sanpaolo has been confirmed both in the Equileap – Gender Equality Global Ranking for 2018, a ranking that includes the 200 companies in the world that stand out for their commitment to gender equality (33rd place), and in the Bloomberg Gender Equality Index (GEI) for 2019 published in January. The index, which cuts across all business sectors, is composed of 230 companies and measures in particular gender equality within the company, employee policies, community support and engagement, and gender-sensitive product offerings.

The self-assessment, including on an annual basis, showed that the guidelines set in terms of diversification have been followed.

1.C.1. h) In relation to the renewal of the Board, on the agenda of the Shareholders' Meeting called to approve the 2018 financial statements, indications were provided on the subject of the Board's composition and diversity, in line with the criteria adopted by the same Board and by the applicable regulations.

Art. 123-bis
(1), (l) CLF

In accordance with the provisions of the Articles of Association, the appointment procedure of Directors shall take place on the basis of slates of candidates prepared by Shareholders, in line with the regulations for listed companies.

The election system defined in the Articles of Association is based on a majority principle, moderated through the provision of a share of Directors and members of the Management Control Committee assigned on a proportional basis.

The mechanism put in place thus makes it possible to ensure adequate representation of minority shareholders within the Corporate Bodies, by submitting slates of candidates to the Shareholders' Meeting at the time of the renewal of the Board and, subsequently, also during the replacement of any outgoing Directors.

The minority shareholders are thus given the option to appoint, within both the Board and the Management Control Committee, a number of Members well above that established by the law.

Such a solution creates a governance structure in line with international standards and enhances the election system by slates, provided for by Italian law, allowing the minorities to appoint Directors as well as members of the Management Control Committee.

In any event, the minority slate not connected with the majority shareholders that obtained the highest number of votes in the Shareholders' Meeting is assured the option to appoint, in addition to the Chairman of the Management Control Committee, also a second Member of the same Committee, in order to further strengthen the level of protection of the minorities within the control body.

The slates, containing a minimum of 2 to a maximum of 19 names, must be divided into two sections: the first section shall indicate the names of the candidates for the post of Director and the second the names of the candidates for the post of Director and member of the Management Control Committee.

For the purposes of the appointment, Board Members are drawn from the majority slate, except for 5 or 4 Directors based on the total number thereof. In particular, three Directors are drawn from the majority slate to also take up the position of Management Control Committee members. Among the Board Members expressed by the minority slates, two are in any case reserved to the minority slate that obtained the second highest number of votes (first minority slate) and that has no connection with the majority, as laid down by the regulations. The first of said Directors is appointed Chairman of the Management Control Committee. The other Directors are drawn proportionately from slates other than the one that obtained the highest number of votes, it being understood to be included among these also the first minority slate, provided that such slates, taken as a whole, obtained votes at least equal to 10% of the ordinary share capital represented at the Shareholders' Meeting.

Where it is necessary to complete the composition of the Board upon the outcome of the proportional division, all the other additional Directors are drawn from the slate that obtained the most votes, until the exhaustion of the candidates present therein.

The appointment procedure ensures a Board composition in line with the requirements of professionalism, independence and gender balance.

The Articles of Association contemplate a supplementary mechanism whereby a candidate not meeting the requirements is replaced by the candidate who meets the requirements and is drawn from the same slate as the excluded candidate. In the event whereby the candidates on the slates are not sufficient for that purpose or in any other case in which the established criteria do not make it possible to appoint all Directors in accordance with the necessary requirements, the completion of the structure is ensured by the Shareholders' Meeting with replacement procedures that enable to meet all necessary requirements.

If only one slate of candidates is submitted, the Board Members are chosen from that single slate, up to the number of candidates on that slate, drawing from the second section of the slate all the members of the Management Control Committee. In this case, the office of Chairman of the Committee is assigned to the candidate placed in first position in the ranking of the second section of the slate.

In the absence of slates, the Shareholders' Meeting elects the directors and the Management Control Committee members by relative majority of the capital represented at the Shareholders' Meeting, subject to compliance with the requirements established by the applicable regulations and the Articles of Association. In this case, the Shareholders' Meeting shall appoint the Chairman of the Committee concurrently with the appointment of the Committee members.

The Shareholders' Meeting elects the Chairman of the Board of Directors and one or more Deputy Chairpersons by relative majority.

For additional information on the appointment of Directors, see the relative provisions of the Articles of Association.

Term of office, replacement and removal

Directors remain in office for three financial years until the date of the next Shareholders' Meeting called to approve the financial statements and the proposal for allocation of net income in accordance with Article 2364 of the Italian Civil Code and may be re-elected.

The term of office for the current Directors covers the years 2016/2017/2018. All Directors will end their tenure simultaneously on the date of the Shareholders' Meeting called pursuant to the aforementioned Article 2364 of the Italian Civil Code, in relation to the approval of the financial statements and the proposal for allocation of net income for 2018.

In the event of a Director's termination of office, the Board of Directors, with the support of the Nomination Committee, may proceed with the replacement of the outgoing Director by co-option, in compliance with the requirements of the Articles of Association, provided that the majority continues to consist of Directors appointed by the Shareholders' Meeting.

If, on the contrary, a member of the Management Control Committee should leave his/her office, the co-option power shall not apply and the first unelected member from the second section of the slate to which the previous member belonged – in possession of the prescribed requirements – shall take up the position or, failing that, the convened Shareholders' Meeting will see to it immediately. If the substitute thus identified fails to meet the requirements applicable by law, regulations or pursuant to the Articles of Association to the outgoing member, the latter shall be replaced by the subsequent unelected candidate to satisfy those requirements in the second section of the same slate.

If the Chairman of the Committee leaves office, the second ranked member on the same slate as the outgoing Chairman becomes the new Chairman of the Committee.

The new members of the Management Control Committee and the members appointed by the Board by co-option shall hold office until the next Shareholders' Meeting.

The Shareholders' Meeting called for the appointment of a new Director to replace those who ceased to hold office shall proceed with the appointment in accordance with the principle of necessary representation of minorities, gender balance and the other requirements provided for by the applicable regulations and the Articles of Association.

All Directors and members of the Management Control Committee may be removed by the Shareholders' Meeting at all times, notwithstanding the Director's right to be indemnified if the removal occurs without just cause. However, considering the guarantee and control functions carried out by the Management Control Committee and pursuant to the Articles of Association, the proposal to remove one or more Committee members submitted to the Shareholders' Meeting by the Board or the same Committee must be duly substantiated and adopted with a more thorough decision-making procedure.

Art. 123-bis
(1),
(l) CLF

The removal of a member of the Management Control Committee also entails that same member's removal from the Board.

Chairman and Deputy Chairperson

1.C.1. i) The Shareholders' Meeting held on 27 April 2016 elected by a relative majority the Chairman of the Board of Directors, Gian Maria Gros-Pietro, and a Deputy Chairperson, Paolo Andrea Colombo.

2.P.5.
2.P.6. The Chairman has a non-executive role and does not carry out, not even de facto, management functions.

3.C.2. Under the governance model currently adopted and considering the duties assigned by the Articles of Association, as disciplined more extensively in the Regulations of the Board of Directors, the Chairman plays a leading role in the Bank, enhanced by distinguished authority and competence as well as time commitment.

The Chairman oversees the work of the Board, organises and directs the activity and performs all the tasks set by the supervisory regulations.

In this context, the Chairman, among his various duties: i) promotes and supervises the actual operation of the corporate governance system, including with regards to internal and external communications, while also acting as liaison to the internal Board Committees provided for by the Articles of Association on which he does not sit, and ensures the balance of power with particular reference to the delegated day-to-day management powers; ii) entertains the necessary and appropriate relations with the Managing Director; iii) requests and receives information also on specific aspects of the Company and the Group management and on business performance in general, also in terms of business outlook, in any event having access to all corporate functions to this end; iv) supervises relations with Shareholders, verifying that such relations are managed correctly, in agreement with the Managing Director; v) manages relations with the Supervisory Authorities.

In urgent cases, the Chairman or, in the case of his absence or impediment, the Deputy Chairperson or the eldest Director, following a binding proposal of the Managing Director, may take resolutions on any matters within the powers of the Board of Directors, with the exception of the strategic matters or those which may not be delegated and are solely within the powers of the Board itself.

With the adoption of the one-tier governance model, the outgoing Chairman of the Supervisory Board, Giovanni Bazoli, has taken the unpaid position of Chairman Emeritus. In that capacity, he may issue opinions and participate in meetings, with advisory function, at the request of the Chairman of the Board of Directors and/or the Managing Director, in relation to the Bank's one-tier corporate governance system; he also cooperates with the Chairman in relation to the Group's cultural initiatives. The Chairman Emeritus shall not be a member of the Board of Directors.

Said office lasts for this mandate and therefore up to the Shareholders' Meeting that will be called for the approval of the financial statements and the net income allocation for 2018.

2.C.1.
3.C.2.

The Board of Directors shall elect, with a qualified majority, from among its members, except for the Chairman of the same Board, the members of the Management Control Committee and the minimum number of Independent Directors, a Managing Director vested with the powers related to the Company's day-to-day management.

The Board of Directors' meeting held on 28 April 2016 appointed Carlo Messina as Managing Director, who is granted the necessary and appropriate powers to ensure consistency with day-to-day management, in implementation of the guidelines decided by the Board.

2.C.6. The Managing Director is the Chief Executive Officer and General Manager and supervises the company's management to the extent of his assigned powers, in compliance with the general planning and strategic guidelines set forth by the Board of Directors. He/she is responsible for personnel management and determines operational directives. Within the scope of the duties assigned, he/she shall be vested with powers of proposal for the resolutions of the Board, notwithstanding in any case the right to propose of any other Director and the powers typically within the remit of the Board Committees, as defined by the applicable regulations and the Articles of Association.

The Managing Director shall implement the resolutions of the Board of Directors, with particular reference to the implementation of the strategic guidelines, the risk appetite framework and the risk governance policies defined by the Board.

He/she shall also ensure that the organisational, management and accounting structure as well as the internal control system are appropriate to the nature and size of the company and suited to furnishing a proper representation of operations.

In performing his/her functions, the Managing Director relies first and foremost on support from the Steering Committee and then the Managerial Committees, reference to which is made in a specific paragraph below.

In urgent cases, the Managing Director and CEO may propose the Chairman to take resolutions on all matters pertaining to the Board (except for strategic matters or those that cannot be delegated); still in urgent cases and on an exclusive basis, he/she shall take resolutions on lending matters.

In the event of absence or impediment of the Managing Director, the powers belonging to the same as General Manager are exercised with the joint signatures of the Chief Financial Officer and the Chief Governance Officer.

In 2016 the Board of Directors established the general guidelines of the Group, the "Strategic Succession Planning", drawn up with the support of a leading consultancy firm. 5.C.2.

The aim of the aforesaid plan is the definition of processes and methodologies related to the succession of key management positions within the Group. Furthermore, more detailed process rules were set out in July 2017.

With reference to the succession plans for the Managing Director and the General Manager, the Company has brought the Internal Regulations into line with the one-tier governance system, specifically the Nomination Committee Regulations, assigning to this Committee the task of supporting the Board, in coordination with the Chairman of the Board of Directors, in the definition of the process relating to the succession plan for his/her replacement.

Suitability requirements

In order to ensure the sound and prudent management of the Company and the proper functioning of the Board of Directors as a whole, the Directors must meet the suitability requirements for the office as established by the applicable regulations and the Articles of Association.

Specifically, Directors must meet the professionalism and integrity requirements and comply with the criteria of competence, reputation and fairness, and time commitment and the specific limitation of directorships laid down by the applicable regulations and in any event those provided for by the so-called CRD IV Directive, for the performance of the office of director of a bank issuing shares listed in regulated markets, and the prohibition of interlocking directorates established by Article 36 of Italian Law Decree No. 201/2011, converted by Law No. 214/2011. 2.P.1.

Moreover, taking into account the chosen corporate governance model and the specific characteristics of the Bank in terms of size and operations, the Articles of Association of Intesa Sanpaolo set out specific additional requirements for Board Members and particularly for members of the Management Control Committee (reference is made to the next chapter dedicated to this Body).

The suitability requirements for the exercise of the office laid down by the applicable regulations and the Articles of Association for the Board Members must be verified within 30 days of the appointment and must be subject to specific continuous monitoring.

Specifically, the Board assesses the suitability requirements for the office of all Directors, except for the members of the Management Control Committee, who are assessed by the same Committee.

Where appropriate, the Board proposes the revocation or declares the disqualification or suspension of any Directors who are unable to prove that they meet the established requirements, in the cases provided for in applicable regulations. For the members of the Management Control Committee, any declaration of disqualification is pronounced by the same Committee.

The assessment of suitability carried out by the Board is subject to a specific supervisory power by the Banking Supervisory Authority.

It is recalled that the regulations on the suitability requirements for the office of Director were reviewed by Italian Legislative Decree No. 72/2015, issued in implementation of the so-called CRD IV Directive,

which mandated the definition of the enforcement provisions to new ministerial regulations not yet enacted.

In this regard, the EBA, the ESMA and the European Central Bank have provided precise details about the requirements that must be met by Directors in terms of integrity, competence, independence and time commitment (Guidelines on the assessment of the suitability of members of the management body and key function holders of banks and financial intermediaries, issued in 2017 and the ECB's Guide to fit and proper assessments, most recently updated in May 2018).

Additional conditions for undertaking the office and for assessing the suitability of the members of the Corporate Bodies were also defined by the Supervisory Provisions on corporate governance. Taking into account the guidelines of the Regulatory and Supervisory Authorities, the Company's Board of Directors has adopted specific criteria and rules for investigating and assessing the suitability requirements for the office of Directors and the overall adequacy of the Board.

Each Director is required to submit to the Board of Directors the declarations and documentation proving that he/she meets the suitability requirements and the absence of grounds for incompatibility and to communicate any changes.

1.C.1. g)
1.C.1. h)

The Board, upon the outcome of the renewal of the Bodies in 2016, successfully conducted the process of assessment of all the suitability requirements for the office and also evaluated the overall compliance of the qualitative and quantitative composition of the Board itself with the recommendations provided by the outgoing Supervisory Board (see document published on the Bank's website at the time of the appointment of the Bodies currently in office).

The assessment of Directors' requirements was renewed on an annual basis, including at the time of this Report.

A similar positive assessment was conducted by the Management Control Committee for the requirements of its members.

Ahead of the upcoming renewal of the Corporate Bodies, the outgoing Board of Directors has formulated its guidelines on the qualitative and quantitative composition of the next Board of Directors, making available to the shareholders the summary of the main requirements for the office.

Below is a brief description of the details of the suitability requirements provided for the office of Directors.

Integrity requirements, and reputation and fairness criteria

The Board of Directors has confirmed that all Directors meet the integrity requirements set forth for board directors and general managers by the Regulation adopted by Italian Ministerial Decree No. 161/1998, as well as those set forth for members of the Board of Statutory Auditors of listed companies by the Regulation adopted by Italian Ministerial Decree No. 162/2000.

Loss of the requirements leads to disqualification from office.

The regulations also set forth specific causes of suspension from office. Both the disqualification and the suspension must be declared by the Board within thirty days of the appointment or the discovery of the shortcoming.

Some sanctions against Board Directors may also lead to the temporary loss of the integrity requirement (for example, ancillary sanctions due to breaches of regulations governing market abuse).

In addition to the integrity requirements, Board Directors are required to meet reputation and fairness criteria in personal and professional conduct, in order to ensure the sound and prudent management of the Bank and the Banking Group, in line with the applicable Supervisory Guidelines. The more general requirement of good reputation, honesty and integrity is relevant for this purpose.

Professionalism requirements and competence criteria

All Directors must meet the professionalism requirements set forth for members of the board of directors of banks by the Regulation adopted by Italian Ministerial Decree No. 161/1998, gained for at least three years.

Specific requirements are provided for the Chairman and for the Managing Director.

Loss of the professionalism requirements leads to disqualification from office.

Furthermore, pursuant to the Articles of Association, at least four members shall be enrolled with the Register of Statutory Auditors and have practised as auditors or acted as member of a limited company control body for a period of at least three years; the effects of the loss of the requirements are also governed in Articles of Association.

Additional requirements are set forth by the Articles of Association for members of the Management Control Committee, to which reference is made in the dedicated chapter.

In addition to the professionalism requirements, the Directors must meet the competence criteria aimed at proving their suitability to assume the office, taking into account the duties inherent to the role held and the Bank's characteristics, size and operations.

Board induction

The Board of Directors, with the support of the Nomination Committee, ensures the implementation of the induction plans aimed at its members. In this context, following the Chairman's indications and on the basis of the outcomes of the self-assessments, the Bank promotes Directors' participation in initiatives aimed at providing them with an increasing degree of knowledge of the sector of activity of the Bank and the Group, company dynamics and their development, the principles of sound risk management and the regulatory and self-regulatory environment of reference, and in formal and informal meetings aimed at a further review of strategic matters ("ongoing-induction").

2.C.2.

The induction plans are drawn up periodically following (i) the first assessment carried out after appointment and (ii) the self-assessment carried out annually by the Board of Directors.

In any event, Directors are assured the possibility to making individual requests for training in a specific area, whenever they consider it necessary.

During the annual self-assessment, the Board, with the support of the Nomination Committee, expresses its opinion on the implementation and quality of the past induction plan, also with a view to helping refine the process and strengthen the quality of training.

The induction sessions are organised and suitably structured: Directors are formally invited by the Chairman to take part, they are provided in advance with the relevant documentation and are given the option to connect via videoconference if they are unable to attend in person.

In 2018 and up to the approval of this Report, 11 specific induction sessions were held to allow Directors to examine and discuss the various aspects of the Bank's and Group's business, the regulatory framework of reference and the duties and responsibilities of their office.

The induction sessions covered the following issues, among others:

- issues relating to bank financial statements (IFRS 9);
- corporate social responsibility issues;
- new 2018-2021 Long-term Incentive Plans;
- US regulations;
- overview of the structural changes and key impacts of the regulations in European banking systems and in-depth analysis of NPLs, and Digital and Open Banking;
- MiFID 2-related issues;
- presentation of the Divisions' activities.

Finally, in order to promote better understanding of the reference corporate and regulatory environment and its evolution, a collection of governance documents, regulatory references, key correspondence with the Supervisory Authorities, financial reports and any additional documentation conducive to the performance of their duties is made available to Directors – and regularly updated – through a dedicated IT platform.

Independence requirements: Independent Directors

All the Directors act with independence of mind and awareness of the duties and rights inherent to the office, in the interest of the sound and prudent management of the Bank and in compliance with the law and any other applicable regulations.

Under the Articles of Association, at least two thirds of the Directors must meet the independence requirements established in the Articles of Association.

3.P.1.
3.C.3.

To this end, Intesa Sanpaolo has chosen to adopt, in the Articles of Association, a particularly strict independence requirement thereby providing that Independent Directors meet both the conditions

required by Article 3 of the Corporate Governance Code and the independence requirements provided for statutory auditors by Article 148, third paragraph, of the Consolidated Law on Finance, where they set out more restrictive conditions.

The choice enshrined in the Articles of Association to provide for such a large number of Independent Directors reflects the great value that the Bank recognises to the role played by such Directors and helps to ensure a composition of the Committees within the Board of Directors that is in line with the best international practices. In particular, both the Management Control Committee and the Committee for Transactions with Related Parties and Associated Entities are entirely composed of Independent Directors, whereas the majority of independent members is provided for the other Committees. In addition, according to the Articles of Association, the chairmanship of the Committees is always entrusted to Independent Directors.

3.P.2.
3.C.1.
3.C.4. Upon acceptance of the office, 14 Directors declared that they met the independence requirements laid down by the Articles of Association. The Board of Directors proceeded to verify the independence requirements following the appointment of the 14 Directors concerned, thereby announcing the outcome of the assessment in a press release. This assessment was renewed positively at the time of the approval of this Report (26 February 2019), based on the specific statements made by the parties concerned, the information available to the Bank, as well as the criteria adopted by the Board, and updated in December 2018, to evaluate the relevance of the financial, professional and commercial relations entertained by the directors with the Intesa Sanpaolo Group. These criteria take into account the size and relevance of any equity investment or credit relations and the credit rating associated with such relations, as well as the size of any professional and commercial relations with the Group and the impact thereof within the scope of the overall relations entertained by the Director or a subject linked to same.

In this regard it is noted that the following 14 Directors were found to be in possession of the independence requirements laid down by the Articles of Association: Gianfranco Carbonato, Paolo Andrea Colombo, Francesca Cornelli, Giorgina Gallo, Giovanni Gorno Tempini, Rossella Locatelli, Maria Mazzarella, Livia Pomodoro, Daniele Zamboni, Edoardo Gaffeo, Marco Mangiagalli, Milena Teresa Motta, Alberto Maria Pisani, Maria Cristina Zoppo.

3.C.5. The members of the Management Control Committee, also acting as members of the Board, positively assessed the correct implementation of the criteria and procedures adopted by the Board of Directors to evaluate the independence of the aforesaid 14 Directors.

The Articles of Association govern the effects of the loss of the independence requirements. In particular, the loss of the requirement in the case of a Director, who is not also a member of the Management Control Committee, does not result in his/her disqualification if the minimum number of Directors in possession of the necessary requirements does not change. However, this is without prejudice to the termination of those offices for which said requirement is mandatory under applicable regulations or the Articles of Association.

3.C.6. The Regulations of the Board envisage the option that at least once a year the Independent Directors should meet in the absence of the other members. In 2018 and until the date of approval of this Report, the Independent Directors met twice. The meetings are chaired by independent Director Livia Pomodoro, who shall call the meetings, take care of the minutes and report to the Board at its next meeting. The appointment of a lead independent director has not been envisaged.

2.C.3.
2.C.4.
2.C.5.

Grounds for incompatibility

The Directors are subject to the grounds for incompatibility provided for by the regulations on public employment (Article 53 of Italian Legislative Decree No. 165/2001) and other grounds for incompatibility provided for by law.

Management or control positions of Directors and time commitment

1.C.2. Each Director is responsible for examining and assessing the conditions which enable him/her to perform his/her duties diligently and dedicating the time necessary, also with regard to membership of Committees appointed by the Board.

The members of the Corporate Bodies are required to devote sufficient time to the performance of their office at the Bank and to confirm this availability in writing.

1.C.3. The Articles of Association of Intesa Sanpaolo already incorporate the guidelines provided for by the so-called CRD IV Directive concerning limitation of directorships, designed to ensure maximum time commitment to the office held.

The Directors may thus concurrently hold only one of the following combinations of directorship offices:
a) one executive directorship with two non-executive directorships;
b) four non-executive directorships.

To this end, the following shall be considered as one single directorship:

- a) executive or non-executive directorships held within the same group;
- b) executive and non-executive directorship held within: (i) institutions which are members of the same institutional protection scheme provided that the conditions set forth by Article 113, paragraph 7, of the so-called CRR Regulation are fulfilled or (ii) undertakings (including non-financial entities) in which the institution holds a qualifying investment.

Furthermore, by virtue of the antitrust regulations on interlocking directorates (Article 36 of Italian Law Decree No. 201/2011, converted into Law No. 214/2011), Directors cannot accept or exercise offices in the management, supervisory or control bodies of competing companies or groups of companies operating in the credit, insurance or financial markets.

1.C.2.

The Directors holding offices that are covered by the prohibition must inform the Board of the option exercised within 90 days of their appointment. If the option is not exercised by said deadline, the Director in question is required to confirm to the Board that the offices held do not give rise to situations of incompatibility pursuant to the abovementioned Article 36, stating the reasons in detail.

Directors are required to confirm each year that they do not hold offices in the management, supervisory or control bodies of competing companies or groups of companies, to allow the plenary meeting of the Board to perform its annual assessment. The assessment was concluded with a positive outcome also with reference to the 2018 financial year at the time of approval of this Report.

Directors are required to inform the Bank of any office accepted in other companies and entities. In Part III of this Report, in compliance with the Corporate Governance Code, Table No. 1 indicates the number of other management and control offices that Directors have reported as held in other companies listed on regulated markets (also abroad), in financial, banking, insurance or large companies, while Table No. 2 provides the list of such offices.

1.C.2.

For the sake of completeness, finally it is recalled that the Directors cannot act in the capacity of general partners in competing companies, or engage themselves in a competing business on their own account or that of third parties, or take the office of directors or general managers in competing companies, unless authorised by the Shareholders' Meeting (Article 2390 of the Italian Civil Code).

1.C.4.

Conflicts of interest

Introduction

The Intesa Sanpaolo Group has adopted special measures to manage possible conflicts of interest arising from the close connections that some parties and entities may have with company decision-makers.

The set of rules and measures taken is aimed at ensuring that the transactions entered into by the Group are carried out transparently and in line with the substantial and procedural fairness criteria and in compliance with the principle of sound and prudent management, in line with corporate law, banking supervisory regulations and Consob provisions.

2.P.2.

The management and control measures for potential conflicts of interest in place to safeguard the Bank's and the Group's capital are described below.

Interests of Directors

In line with the provisions of Article 2391 of the Italian Civil Code, each Director is required to promptly inform the other Directors and the Control Body of any personal interests held or interests held on behalf of third parties, with reference to a specific corporate transaction subject to the attention of the Board of Directors, specifying the nature, terms, origin and extent of the interests and, in accordance with the provision laid down by Article 53, paragraph 4, of the Consolidated Law on Banking, to refrain from voting on resolutions where he/she has a conflict of interest on his/her own behalf or on behalf of third parties.

8.C.5.

In such cases, the resolution of the Board in favour of the transaction shall adequately justify the reasons and convenience thereof for the Company.

The Board has always exclusive jurisdiction over decisions regarding transactions in which the Managing Director possesses an interest on his own account or through a third party and must therefore abstain from the decision, entrusting the Board as per Article 2391 of the Italian Civil Code.

In this regard, the Board has adopted a policy for the management of Directors' situations of interest.

In addition, in accordance with the provisions of the Group's Code of Conduct and the RPT Procedures (see paragraph below), all board members, employees and other staff in the performance of their respective duties are to abstain from taking decisions and engaging in activities contrary to, or in conflict with, the interests of the Company and/or the Group, or otherwise incompatible with their duties.

The above is in any event subject to the implementation of the special decision-making procedure set forth in Article 136 of the Consolidated Law on Banking and the regulations regarding transactions with related parties and associated entities, whenever the specific conditions exist.

Transactions with related parties and associated entities and obligations of Board Members and General Managers of the Bank

The RPT Procedures take into account both the regulations issued by Consob, pursuant to Article 2391-bis of the Italian Civil Code, and the Supervisory Provisions implementing Article 53, paragraph 4 et seq., of the Consolidated Law on Banking, and, in addition, the rules laid down by Article 136 of the Consolidated Law on Banking.

The Procedures, the full text of which is available on the Bank's website (Governance/Company documents Section), apply to the entire Intesa Sanpaolo Group and govern the dealings with related parties of Intesa Sanpaolo and associated entities of the Intesa Sanpaolo Group with respect to the following aspects:

- the criteria for identifying related parties and associated entities;
- the process of analysis, decision-making and information to the Corporate Bodies on transactions executed with related parties and associated entities with an important role of the Independent Directors' Committee within the Board of Directors;
- market disclosure for transactions with related parties;
- the prudential limits and obligations for periodic reporting to the Bank of Italy for assets at risk in relation to associated entities;
- the rules governing organisational controls and safeguards;
- the general rules for disclosure and abstention for the management of the personal interests of board members, employees and other staff, including other than associated persons.

As a form of self-regulation, the Bank has extended the regulations in terms of transactions with related parties, as well as those on risk assets and conflicts of interest with respect to associated entities within a wider scope than that required by the regulations.

A more detailed description of the Group procedures is provided in Part H of the Notes to the separate and consolidated financial statements, available on the Bank's website.

The Procedures also govern operations with Directors and parties associated to them pursuant to Article 136 of the Consolidated Law on Banking. This rule requires the adoption of a more thorough decision-making procedure (unanimous decision by the Board excluding the vote of the Director concerned, and the favourable vote of the Management Control Committee members) in order to allow the Directors to undertake obligations, directly or indirectly, with the Bank.

The Board of Directors' self-assessment

1.C.1.g)
and i)

In February 2019, the Board of Directors conducted the annual self-assessment of the composition, performance, conduct and dynamics characterising the Body and the Committees established within it. A similar self-assessment was carried out by the Management Control Committee, to which reference is made in the relevant paragraph.

The self-assessment process was performed in accordance with the provisions of the Regulations on the self-assessment process, adopted in implementation of the Supervisory Provisions on corporate governance, as well as in consideration of the recommendations of the Corporate Governance Code.

Self-assessment of the Board was performed with the professional assistance of Crisci & Partners, expert consulting firm which has supported the Bank in the board review process since 2015. This company was deemed to possess the requirements of neutrality, objectivity, competence and independence envisaged by the Regulations. With regard to the independence profile, it is specified that Crisci & Partners has not recently had economic dealings with the Bank and/or Group companies, except for the assignments granted to the firm for its assistance with the self-assessment process of the Corporate Bodies and for the drawing up of the Regulations on the self-assessment processes of the same.

Pursuant to the provisions of the Regulations, Crisci & Partners assisted the Board of Directors in the following phases of the self-assessment process:

- Information collection: information was collected on the qualitative-quantitative composition and functioning of the Body. According to the aspects considered, this stage involved the collection of information already available to the Bank, as well as through questionnaires and individual interviews.
- Data processing: the information collected during the previous stage was analysed and consolidated, taking care to ensure the anonymity of the Directors.
- Preparation of process results: Crisci & Partners, after discussion with the Nomination Committee on the results of the data processing, and having shared said results on a collective basis, formalised the self-assessment results in the document "Results of the Self-assessment of the Board of Directors and of the Board Committees – Financial Year 2018", which summarises the methods used and results achieved.

The self-assessments were carried out based on questionnaires and individual interviews conducted between 29 October and 21 November 2018. The documents used for the interviews with Directors were structured in such a way as to collect quantitative information, organised into an actual questionnaire, and qualitative information, consisting of an outline of topics, partly comprising those of the questionnaire and partly aimed at guiding the interview.

Before conducting the interviews, the consultants of Crisci & Partners in charge of carrying them out carefully read all the minutes of the Board of Directors' meetings, including the pre-meeting documentation, as well as all the agendas and a large sample of the minutes of the meetings for the same year relating to the Committees established within the Board, including the pre-committee documentation, in order to become acquainted with, and examine, the issues dealt with during the year, the comments expressing the diversified skills within the Board and the discussions held.

The questionnaire and interviews, in line with the approach adopted in the board review of the last few years, focused on various areas regarding the composition and operations of the Board and the Committees established within it.

The main aspects subject to assessment regarded the adequacy of the following:

- professional skills, in terms of knowledge, experience and competence, of the Board as a whole;
- composition and balancing of roles within the Body, notably, diversity in terms of age, gender and seniority of service;
- existence and adequacy of succession plans in top executive positions;
- frequency and quality of induction meetings;
- operation of the management body as a whole;
- organisation of meetings in terms of frequency, topics discussed, duration, Board attendance and participation methods;
- role of the Chairman of the Board and the Chief Executive Officer;
- composition, operation and quality of the discussion of the individual Board Committees.

At the end of the third year of the first mandate with the one-tier governance system, the results of the self-assessment process of the Intesa Sanpaolo Board and Board Committees highlighted the following main aspects:

- the Board has "grown" over the course of the mandate and all the operational processes have consolidated and become more effective and efficient;
- interaction between the Board and the Committees and the top functions is open, frequent and constructive. This result was achieved principally thanks to the process by which the CEO and management presented, discussed and shared the Bank's strategic plan and the updates on its progress submitted to the Board on a quarterly basis;
- interaction among the Board members has reached excellent levels of collaboration and dialogue both within the Committees and within the Board;
- the outgoing Board comprises different and specialised skills that are integrated in a productive way, both in the work of the Committees and in the Board's debates;
- the quality of the documentation made available to the Directors has constantly improved in the three-year period in terms of completeness, thanks to the use of the executive summary, the focus on the most important and critical elements and the timing with which it is provided;
- the time commitment dedicated by the Directors and hence their commitment in the role are significantly high.

1.C.1. h) Ahead of the renewal of the Bodies, the results of the 2018 self-assessment formed the basis for the preparation of recommendations on the qualitative and quantitative composition of the next Board of Directors.

Operation of the Board of Directors

Calling of meetings

1.P.1. The Board of Directors is called by the Chairman whenever deemed useful or necessary, or when a written request is made by the Managing Director or by at least two Directors, thereby specifying the agenda items to be dealt with; subject to prior notification to the Chairman, the Board may also be called by the Management Control Committee or by its members, including individually.

Art. 123-bis (2), (d) CLF The Board shall appoint a Secretary who provides support to the Chairman and the Board in exercising their respective duties, arranging all matters necessary to the overall operations of the Board. The Chairman, upon calling the Board meeting, sets the agenda, also taking into account any requests formulated by the Directors, including individually and ensuring prioritisation of matters of strategic importance.

The notice of call, containing the agenda of matters to be discussed, shall be sent to the Directors at least four days before the date set for the meeting, by any suitable means to provide proof of receipt thereof. In particularly urgent cases, the meeting may be called by giving a twenty-four hours' notice. In any event, a Board meeting shall be deemed to be validly constituted when, even in the absence of a formal call, it is attended by all Directors.

Agenda items are grouped by topic areas, in order to ensure their orderly discussion. An indication is also given of whether the item will be subject to resolution or examined merely for information purposes.

The Board meets alternatively at the Torino registered office and at the Milano secondary registered office or, exceptionally, at another venue in Italy. The Articles of Association also permit the holding of valid Board meetings through remote connection systems, provided that the identity of those attending can be verified and that all are able to follow discussions and intervene in real time with regard to the matters on the agenda as well as to view, receive and transmit documents. In such cases, at least the Chairman and the Secretary must be physically present at the venue officially designated as that in which the Board meeting is deemed to have taken place.

Reports to Directors

1.C.5. The Chairman, aided by the Secretary where necessary, ensures that documentation relating to items on the agenda is brought to the attention of all Directors in accordance with criteria of completeness and suitably in advance with respect to the meeting date.

1.P.2. 1.C.5. Normally, the documentation regarding the agenda is distributed four business days prior to the meeting in order to allow each Director to inform himself or herself of each agenda item appropriately, and thus to perform his or her duties with awareness, as well as to contribute to adopt informed resolutions on the agenda items; documentation for information purposes only can also be sent after this deadline.

The documentation made available to the Directors must include everything that is necessary, useful and adequate, in quantitative and qualitative terms, to the subject matter to be discussed.

Where the matters subject to the resolution of the Board must be submitted in advance to the Board Committees, the Chairman ensures that the documentation is made available to them in the manner and timing indicated in the specific Regulations; subsequently he ensures that the documentation in support of the Board's activities includes the opinions or any proposals put forward, on the basis of the records of the minutes of each Committee. The documentation made available to the members of a Committee appointed by the Board for the conduct of the related activities shall also be made available to the other Directors.

If the documentation for submission to the Board contains price-sensitive elements, on a special accompanying form the proposing Department indicates the assessments performed to guarantee correct processing of the sensitive data and prompt compliance with disclosure obligations envisaged by law.

1.C.1. j)

Proposals to the Board are first presented to the Chairman in order to enable the latter an appropriate assessment of the issues to be placed on the agenda and the adequacy of the information provided to the Directors.

In the event that the documentation provided is particularly lengthy or complex, an executive summary is provided, recapping the most significant points of relevance for resolutions, without prejudice to the fact that such document is in no way considered a replacement for the complete documentation sent to Directors.

Directors undertake to observe the Bank's internal procedures in order to ensure absolute confidentiality of the documentation that is made available to them for the purpose of their decisions.

Directors may normally consult the documentation made available to the same via a dedicated IT platform, which is managed by the Board of Directors' Secretariat. Directors who intend to access documentation made available to the Board by other methods must be authorised in advance by the Chairman, who may refuse authorisation if he believes that the requested access methods may jeopardise the confidentiality of the documentation to be provided, or for other reasons.

If, in entirely exceptional situations, the Chairman considers it appropriate given the confidential topic and related resolution, or if there are other justified reasons for which the documentation cannot be made available, it may be provided directly at the meeting and its nature as additional material indicated. In such cases the Chairman shall verify compliance with the principles of completeness and adequacy of the information on the agenda items for all Directors and ensure that all adequate and accurate in-depth analyses are conducted during the meeting; the Directors in any event have the right to request any clarification, further details or additional information considered necessary or appropriate for a correct assessment of the topics.

In any event, the Board documentation is kept – remaining available to the Directors – on the dedicated IT platform, as well as at the Secretariat of the Board of Directors.

Conduct of meetings and the decision-making process

The meeting of the Board of Directors is duly constituted if the majority of its members in office are in attendance.

The Chairman chairs Board meetings and coordinates discussions, ensuring adequate space is given to the discussion of each topic on the agenda, giving priority to key strategic issues and ensuring that the necessary amount of time is dedicated to them in order to guarantee a constructive debate.

The Chairman invites the Directors to provide their own contributions and endeavours in a neutral way so that the resolutions taken by the Board are the result of a proper debate, in particular between the Managing Director and the other Directors, and of the informed and reasoned contribution of all its members. In any case, the meeting must ensure the full and exhaustive discussion of each item and special attention to the content of the documents that could not be made available in advance.

The Chairman of each of the Committees appointed by the Board shall report on the activities carried out by the Committee on matters within its sphere of competence subject to discussion, thereby giving account of any opinion issued or proposal formulated by the Committee in relation to the decision to be taken.

2.P.2. Directors actively participate in board discussions, contribute to discussions based on their respective skills and knowledge, and analyse the various topics from different viewpoints, contributing to achieving a reasoned decision-making process and to reaching jointly considered board resolutions. Without prejudice to the prerogatives of the Managing Director and CEO or – where expressly so provided – the Committees, each member of the Board of Directors may formulate proposals or motions regarding the items on the agenda to the Board of Directors.

2.P.3. 1.C.6. According to the subject matter to be discussed, the Board of Directors may, for tasks within their purview and in view of the need for further information, admit to its meetings employees and/or board members and general managers of the Bank or Group, advisors or external experts of the same Bank or other internal or external parties whose presence is nonetheless deemed an aid to better performance of the Board's duties. The Chief Governance Officer is invited to and has the right to attend meetings of the Board of Directors. Within the scope of duties in support of the Board activities, the Head of the Corporate Bodies Secretariat shall also assist meetings, directly or through assistants.

Such management participation allows the Directors to obtain clarification and additional information on items on the agenda and proves to be particularly important in encouraging adequate contribution and involvement of Corporate Structures in the decision-making process, through direct involvement in the Board's activities. The Board meetings held during 2018 were regularly attended by Executives of the Bank and the Group companies, as well as by the Heads of the relevant corporate functions according to the items dealt with from time to time.

The Board normally resolves by absolute majority vote of those in attendance; in the event of a tie, the Board member in the Chair shall have the casting vote. Resolutions concerning the appointment, removal of the Managing Director, the assignment, modification or revocation of his powers and the determination of his remuneration, the replacement of outgoing Directors by co-option, the proposed revocation of the members of the Management Control Committee, the appointment and removal of the Manager responsible for preparing the Company's financial reports are adopted by the favourable vote of the majority of members in office.

The Chairman, with the assistance of the Secretary, oversees the preparation of the minutes of the meetings – except when the minutes are drawn up by a Notary pursuant to the law – ensuring the transcription in the appropriate mandatory corporate registers and their storage, including for consultation purposes, at the Secretariat of the Board of Directors.

The minutes illustrate in a complete and detailed manner the Board discussion and the decision-making process as well as the underlying reasons for such decisions.

Each Director has the right to ensure that the minutes include a note of any vote against or abstention and the related reasons.

Resolutions made by the Board on the agenda items are sent by the Secretariat to the Corporate Structures involved, to ensure timely information or subsequent implementation within the Bank or Group.

Within the Chief Governance Officer Area structures, the Corporate Affairs and Advisory Head Office Department also operates in support of the Board activities. This Department coordinates the definition of the rules and proposals of the main corporate governance documents within the remit of the Secretary of the Board, to be submitted to the approval of the Corporate Bodies or the Managing Director. Concurrently, the measures concerning the supervision and specialised control of the Group's main corporate governance processes are prepared, ensuring all appropriate legal advice for the proper functioning of the governance arrangements of the company and the Group, including those relating to the suitability requirements of board members, related-party transactions and the accuracy of the decision-making process, as well as the associated interactions with the Supervisory Authorities.

Frequency of meetings and Director attendance

Pursuant to the Articles of Association, meetings of the Board of Directors are held at least once a month. In actual facts, the Board meets on a regular basis, normally twice a month. This frequency has allowed a suitable number of items to be included in the meeting agenda, along with proper discussion and constructive debate.

In 2018 the Board held 26 meetings. As in the past, the attendance of Directors at meetings proved constant: equal to 100% for 16 Directors and approximately 96% for 3 Directors.

This attendance in the Board meetings ensured the systematic contribution of all members to the management of Group and Bank business, thereby allowing the Bank to make full use of the professional skills represented.

However, the overall commitment of Directors is not expressed merely in their attendance at Board meetings. For all Directors, the activities associated with the meetings (study of documentation on items on the agenda, meeting preparation, talks and requests for information, etc.) and the activities related to participation in Board Committees must be taken into consideration.

The Board meetings lasted an average of 4 hours and 15 minutes, a duration considered adequate to meet the need for thorough development and discussion of matters on the agenda, also in view of the appropriate meeting and pre-meeting information, and the number of meetings held.

In 2019, as at the date this Report was approved, the Board of Directors has held 4 meetings. The Company's 2019 financial calendar – announced to the market (and made available on the website) in December 2018 in compliance with the Borsa Italiana Regulations – indicates the following dates: 7 May for the approval of the Interim Statement as at 31 March 2019, 31 July for the approval of the Half-yearly Report as at 30 June 2019 and 5 November for the approval of the Interim Statement as at 30 September 2019.

Contestation of resolutions

Resolutions adopted by the Board of Directors in breach of law or the Articles of Association may be contested by the Directors who were absent or who voted against the resolution, by and no later than ninety days from the date on which the resolution was adopted.

Shareholders may also contest the resolutions of the Board where a resolution is prejudicial to their rights. In this case, the term and procedures for contesting resolutions are determined in application of the provisions governing the contestation of shareholder resolutions in the Italian Civil Code, where compatible, which are addressed in this Report in the chapter on Shareholders' Meetings.

The Management Control Committee

Duties and powers

8.P.1. The Committee has independent initiative and control powers and, with the support of the corporate control functions, may proceed at any time, even through a specially appointed member, to carry out inspections and controls, also with reference to the companies that are part of the Group. The Committee, for the purposes of performing its duties, shall have unrestricted access to all the Bank's corporate functions and may also make use of external consultants.

The Committee and each member thereof, including individually, may request the heads of the corporate control functions to report any relevant data and information to the Committee.

The Committee shall issue the opinions required from the Control Body by the regulations in force, in accordance with the provisions of the Articles of Association and its own Regulations. 7.C.2. b)

The Committee, in line with its control function, can perform the additional duties assigned to it by the Board, as well as the activities requested from it by the Chairman of the Board for the purposes and within the scope of the powers assigned to the same pursuant to the Articles of Association.

The Committee and/or its individual members, within the limits and in the manner permitted by Article 151-ter of the Consolidated Law on Finance, are vested with the following powers: i) to request news and information to the other Directors or to the management and control bodies of the subsidiaries, without prejudice to the fact that such information is provided to all Committee members; ii) to request the Chairman to convene the Committee itself, thereby indicating the agenda items to be discussed; iii) to convene the Board itself, subject to notice to the Chairman.

The Committee may, subject to notice to the Chairman of the Board of Directors, convene the Shareholders' Meeting whenever it deems it necessary for the performance of its duties or in the event that, in the performance of its office, it should detect reprehensible facts of significant severity and urgent measures need to be taken.

Composition and appointment

The Management Control Committee is composed of 5 Board Members, all independent pursuant to the Articles of Association. At least one third of the members of the Committee belongs to the less represented gender and may not be members of other Committees set up by the Board.

1.C.1. i)
8.P.2.
8.C.3.
10.C.2. b)

In adherence to the guidelines of the Supervisory Provisions on the corporate governance of banks that adopt the one-tier governance model, and as permitted by Article 2409-octiesdecies of the Italian Civil Code, the Articles of Association of Intesa Sanpaolo assign the power to appoint the Committee members to the Ordinary Shareholders' Meeting.

Art. 123-bis (2), (d) and (1), (l) CLF

The Committee in office at the time of publication of this Report is composed of the following Board Directors: Marco Mangiagalli, Maria Cristina Zoppo, Edoardo Gaffeo, Milena Teresa Motta and Alberto Maria Pisani, elected by the Shareholders' Meeting on 27 April 2016, which appointed Marco Mangiagalli as Chairman.

As for the appointment of the Committee members and its Chairman, reference is made to what is described above in the paragraph on the appointment of Board Directors, which recalls the provisions of the Articles of Association related to the appointment thereof on the basis of slates of candidates submitted by the shareholders.

The Chairman of the Committee convenes and chairs the meetings, directs, coordinates and moderates the discussion and, on behalf of the Committee, describes the results of the activities carried out.

The Chairman ensures the effectiveness of the discussions within the Committee and endeavours so that the resolutions are the result of a proper debate and of the informed and reasoned contribution of all its members. To this end, he/she shall ensure that all members of the Committee are sent – well in advance of the meeting – documentation in support of the Committee's activities or at least a first report on the items up for discussion and he/she shall ensure that the supporting documentation is adequate in terms of quantity and quality with respect to the items on the agenda.

In the event of the Chairman's absence or temporary impediment, his/her duties shall be undertaken by the Committee member placed in the highest ranking position of the second section of the slate from which the Chairman was elected. In the absence thereof, the Chairman's duties shall be undertaken by the longest-serving Committee member or, in the case of equal terms of service, by the eldest Committee member.

Term of office, replacement and removal

The members of the Management Control Committee shall remain in office for the entire term of office of the Board of Directors on which they were elected; the mandate of the Committee in office thus relates to the 2016/2017/2018 financial years, expiring at the next Shareholders' Meeting called to approve the financial statements for the last year of their office. They may be re-elected.

As regards the replacement and removal of the Committee members, reference is made to what is described in the paragraph on the replacement and removal of Board Members.

Suitability requirements

The members of the Management Control Committee must be in possession of all the requirements applicable to Board Members (for which reference is made to the paragraph on this Body).

Moreover, the Committee members shall ensure compliance with the limitation of directorships provided by the law and by the current regulations for the performance of the mandate as a member of the control bodies of a bank issuing shares listed on regulated markets.

8.C.1. All Committee members shall also meet the more stringent independence requirements defined by the Articles of Association, which set out additional requirements in terms of professionalism and the number of offices held.

With regards to the professionalism requirements, the Committee members shall have acquired proven professional experience of at least five years in the internal control, administration and finance sectors. This special requirement of professionalism shall have been acquired as Board Directors or as executives in banking, financial, insurance companies or other companies of qualified size (as defined in the Articles of Association), or at Public Administrations of at least regional importance or Authorities whose area of competence is connected with the banking-financial-insurance activities or in professional activities carried out to the benefit of the aforesaid companies, or for the performance of activities of university lecturing in legal and economic subjects.

In addition, at least three Committee members shall be enrolled with the register of statutory auditors and shall have practised as auditors or acted as members of a limited company control body for a period of at least three years.

8.C.2. Without prejudice to the limitation of directorships envisaged for all Board Members, the members of the Committee may not take:

- ✓ executive offices in other undertakings;

-
- ✓ more than two non-executive offices in corporate bodies (including those as members of control bodies) of other large companies.

To this end, the candidates for the office of Committee member shall expressly undertake the obligation to immediately step down from any incompatible offices, in the event of their appointment.

The above is in any event subject to the provisions laid down by the supervisory regulations, whereby the members of the Management Control Committee are prohibited from taking up offices in bodies other than those in charge of the control function in other Group companies or belonging to the financial conglomerate, as well as in companies in which the Bank holds a strategic stake. As members of the control body of a listed company, Committee members are also subject to the rules relating to the limitation of directorships, laid down by Article 148-bis of the Consolidated Law on Finance and the related implementing regulations: these rules set out the limits and parameters to take into account in order to determine the maximum limitation of directorships, as well as the manner and terms for the disclosure to be provided to Consob and to the public.

For each member of the Committee, the loss of the requirements of independence or professionalism or the failure to comply with the limitation of directorships pursuant to the Articles of Association, as set out above, shall result in the disqualification from office of Board Member.

It follows that the independent Member of the Committee, that ceases to be eligible as independent member, shall also be disqualified from being a member of the Committee and of the Board. The same applies if he/she ceases to be a statutory auditor, notwithstanding other three members of the Committee who are statutory auditors remain in office.

In accordance with the requirements laid down by the Supervisory Provisions and the internal regulations, on 21 February 2019 the Committee, based on the statements made by the parties concerned and the information available to the Bank, also conducted an annual check to ensure that the necessary requirements were still being satisfied by its members, including that of independence, giving notice thereof to the Board. The members declared their compliance with the professionalism and integrity requirements and with the criteria of competence, reputation and fairness, independence and time commitment, as well as the specific limitation of directorships and the incompatibilities provided for by the applicable regulations and the Articles of Association.

Operation of the Committee

The Committee normally meets on a weekly basis and the meeting is convened by a notice of call containing the agenda, typically sent by its Secretariat three days before the date set for the meeting. The Secretariat ensures compliance with the terms and expected timing and the procedures to ensure compliance with any instructions received from Authorities.

The calling of meetings is typically accompanied by the submission of the available documentation necessary for the performance of the Committee members' duties. In any case, the meeting shall ensure the full and exhaustive discussion of each item and special attention to the content of the documents that could not be made available in advance.

4.C.1. e)

The Committee may ask the structures of the Bank for access to any information considered necessary to perform the duties assigned to it and also rely on the support of external consultants. Upon invitation of the Committee, individuals who are not part of the Committee may attend the meetings in relation to specific items on the agenda.

4.C.1. f)

In the performance of its duties, the Committee relies on the corporate control functions and, in particular, on the internal audit department, reporting functionally also to the Committee which monitors its independence, adequacy, effectiveness and efficiency.

The Committee receives from the heads of the corporate control functions reports on specific situations, breaches or significant shortcomings – periodically or at the express request of the Committee itself – and examines the work plans.

7.C.2. c)
and e)

The Committee coordinates with the Risks Committee to the extent applicable, and certain information flows are discussed in joint meetings, it being understood that each Committee shall proceed independently for the respective assessments. One of the Committee members, appointed in rotation by the same Committee, shall attend the meetings of the Risks Committee without voting rights, subsequently reporting to the Control Body.

7.C.3.
8.C.7.
10.C.2. b)

The Committee also coordinates with the Surveillance Body, the Manager responsible for preparing the Company's financial reports, as well as the independent auditors, with which it convenes regular meetings aimed at the performance of the auditing activities related to the formulation of the opinion on

7.C.2. a)

the Financial Statements while monitoring its independence.

The Committee also meets with the Boards of Statutory Auditors of the Group's main subsidiaries, with which it works closely and exchanges information with respect to their governance systems and the general performance of their business.

In 2018 the Committee met 48 times in total, with the following attendance percentage for each member:

Members	Independent pursuant to the applicable regulations and the Articles of Association	Attendance percentage at meetings
Marco Mangiagalli – Chairman	X	100%
Edoardo Gaffeo	X	98%
Milena Teresa Motta	X	96%
Alberto Maria Pisani	X	100%
Maria Cristina Zoppo	X	100%

The meetings lasted an average of 5 hours, considered adequate in satisfying the need for thorough development and discussion of items on the agenda, also in view of the proper information, and the number of meetings held.

In 2019, the Committee has held 7 meetings at the date of approval of this Report.

The Committee, in line with the provisions of its own Regulations, supervised compliance with legal and regulatory provisions and the provisions of the Articles of Association, the principles of proper management, the adequacy of the organisational structure, the administration and accounting system, and the internal control system. Among the various issues, the Committee examined:

- proposals for adaptation of the internal regulations in the field of data protection, privacy, new products, anti-money laundering, inside information and personal transactions; the results of the inspections carried out by the ECB and the Bank of Italy for the pertinent profiles, with the related remediation plans to address the recommendations formulated by the Authorities;
- the disclosure regarding the ECB's Supervisory Plan for the Group;
- the updates on the ENIF (Enabling Integrated Financial Crime) Project, a multi-year program launched with a view to the overall review and strengthening of anti-money laundering safeguards and embargoes at Group level;
- the organisational structures and the control system of the main Governance Areas and Divisions.

Within the scope of the activities relating to the verification of the risk management process, the Committee monitored the completeness, adequacy, functionality and reliability of the Risk Appetite Framework and of the internal risk measurement systems for the determination of the capital requirements as well as compliance with ICAAP and ILAAP-related provisions. The Committee also monitored the adequacy, reliability and security of the information system and of the business continuity plan.

The account auditing mandate conferred by the Shareholders' Meeting of Intesa Sanpaolo to KPMG S.p.A. in 2011 will come to an end in the 2020 financial year. Furthermore, in the light of the new European regulations on the matter, the Committee – in its capacity as Internal Control and Audit Committee pursuant to Article 19 of Italian Legislative Decree No. 39/2010 and as body in charge of the procedure for selecting the independent auditors – deemed it appropriate to launch the selection procedure and submit a motivated proposal for the assignment of the audit mandate for the 2021-2029 period in advance, i.e. to the Shareholders' Meeting called to approve the 2018 Financial Statements.

7.C.2. a)
8.C.7.

Finally, the Committee was invited on 14 occasions to attend the meetings of the Risks Committee both during meetings with the Manager responsible for preparing the Company's financial reports and the Independent Auditors in relation to the preparation of the financial statements and the periodic financial reports, and on other occasions for the review of issues of mutual interest.

7.C.2. f)

On a quarterly basis, the Committee illustrated to the Board of Directors the supervisory, inspection and examination activities carried out and the results thereof, and periodically met with the Managing Director to further investigate specific topics of interest and examine the points of attention highlighted in its reports.

Self-assessment of the Committee

The Management Control Committee performs a separate self-assessment on its composition and its operation, inspired by the same purposes of proper and efficient performance of the specific corporate governance duties entrusted to it as the Company's control body and, therefore, in accordance with criteria and methods in line with the characteristics of the distinctive function performed within the one-tier governance model.

1.C.1.g)

The self-assessment process, which was performed in accordance with the provisions of the Regulations for the Board of Directors' self-assessment process, concerns the Committee as a whole and the contribution that the individual Board Members who sit on it provide to its work.

The Members of the Committee are specifically called upon to submit – separately from the Board's self-assessment process as a whole – also an assessment of the qualitative and quantitative composition, operation and effective performance of the Committee's duties.

Considering the Committee's prerogatives of autonomy and independence, such self-assessment process takes place separately from that of the Board of Directors.

Given the need for consistency and overall coherence of the results, the process is typically entrusted to the same individuals nominated by the Board, who in this case, however, report directly to the Chairman of the Management Control Committee, that remains responsible for the process as a whole. The Committee's self-assessment for the year 2018 was performed with the professional assistance of Crisci & Partners, expert independent consulting firm which simultaneously also supported the Board of Directors in its self-assessment process.

1.C.1.g)

The Committee's self-assessment process essentially follows similar process rules to those for the Board of Directors (for which reference is made to the paragraph on the self-assessment of this Body). With regard to the assessment of the qualitative and quantitative composition, the following elements acquire specific importance in the context of knowledge, experience and skills specifically relevant for the performance of the Committee's duties:

- in-depth knowledge of the methodologies for identifying, measuring, assessing and controlling risks;
- the ability to assess the overall internal control system.

As regards the independence of the Committee members, which, as mentioned, constitutes a specific requirement for the purposes of the suitability of the members pursuant to the Articles of Association and the loss of which results in disqualification from office, it is subject to a specific assessment in the context of the ongoing review process of the requirements of Board Members.

As regards the assessment of the operation and the effective performance of the Committee's duties, which relate to the fulfilment of the control functions, specific areas of evaluation by the Committee are represented by the management of relations with:

- the Independent Auditors;
- the Surveillance Body;
- the manager responsible for preparing the Company's financial reports;
- the control functions.

The Committee takes account of the results of the analysis on its operations, in addition to the assessment of the Report on corporate governance, including for the purposes of preparation of the report pursuant to Article 153 of the Consolidated Law on Finance on the supervisory activities carried out, so as to ensure the correct reporting due to shareholders.

The Committee concluded its self-assessment process on 31 January 2019. This assessment involved both the use of questionnaires and the conduct of individual interviews on the operation, efficiency and effectiveness of the Committee. The qualitative and quantitative results of the questionnaires and interviews confirmed the adequacy of the Committee and the high level of overall compliance with the provisions of the Corporate Governance Code, the guidelines of the EBA, the provisions of Bank of Italy Circular No. 285/2013 and the best practices of other listed companies, in so far as comparable with the Bank. The Committee therefore issued an assessment of adequacy in terms of size, composition and operations of the Control Body.

Committees appointed by the Board of Directors: composition and operations

4.P.1.
4.C.1. c)
4.C.2.

4.C.1. b)

The Committees constitute an organisational method through which the Board of Directors increases the effectiveness of its strategic supervision role. Without prejudice to the Board's corporate powers and responsibilities, the Committees have the proposal, advisory and inquiry duties (including the issue of opinions, where provided for by applicable rules) assigned to them by applicable regulations and, to the extent applicable, the Corporate Governance Code, the Articles of Association, as well as those duties which, in accordance with each Committee's function, may specifically be assigned by special Regulations – approved by the same Board – which also govern the organisation and operations thereof.

4.C.1. a)

Pursuant to the Articles of Association, the Committees are composed of a minimum of three and a maximum of five non-executive Board Members who are mainly independent Board Members. No Board Member may take up the office of Chairman of more than one Committee or be part of more than two Committees.

The following Committees are currently established within the Board of Directors:

- 5.P.1.
- 6.P.3.
- 7.P.3. a) ii)
7.P.4.
- Nomination Committee: 5 members – including the Chairman of the Board of Directors – 3 of whom are independent pursuant to the applicable regulations and the Articles of Association;
 - Remuneration Committee: 5 members – including the Deputy Chairman of the Board of Directors – 3 of whom are independent pursuant to the applicable regulations and the Articles of Association;
 - Risks Committee: 5 members, 3 of whom are independent pursuant to the applicable regulations and the Articles of Association; two members are also enrolled with the Register of Auditors and have practised as auditors for at least three years.

The Committee for Transactions with Related Parties of Intesa Sanpaolo S.p.A. and Associated Entities of the Group is also in place; it is composed of 5 members, all independent pursuant to the applicable regulations and the Articles of Association; one member is also enrolled with the Register of Auditors and has practised as an auditor for at least three years.

In establishing the Committees, the Board took into consideration the professional characteristics and experience of the Board Members, so that each Committee is composed of members whose skills and professionalism are appropriate in terms of the duties attributed and who are able to ensure the performance of tasks with adequate time commitment.

The activities of each Committee are coordinated and directed by a Chairman designated by the Board. The Board Member appointed as Chairman of a Committee must be independent and may not hold the office of Chairman of another Committee appointed by the Board.

The Chairman calls the meetings and describes the activities, proposals and opinions of the Committee during meetings of the Board. In the event of absence or impediment of the Chairman, the longest-serving independent member or, in the case of equal terms of service, the eldest member takes on the functions.

Meetings are generally held at the Torino registered office and at the Milano secondary registered office. Meetings may also be validly held through telecommunication methods; such meetings are considered to have been held at the location of the Chairman.

4.C.1. d)

The Regulations of each Committee require that minutes specific to each meeting are prepared by an appointed secretary, who may also be a non-Board Member, in which case the secretary should be selected from the Board of Directors' Secretariat.

4.C.1. e)

Each Committee may contact the corporate functions to access the information required to perform its tasks.

Committees can also make use of external consultants, as indicated in each set of Regulations.

4.C.1. f)

Individuals who are not part of a Committee may attend Committee meetings provided they are invited by the Chairman of the Committee concerned, and only in relation to specific items on the agenda.

The Chief Governance Officer and the Secretary of the Board of Directors are invited and may attend the Committees' meetings. The head of the Corporate Bodies Secretariat attends sessions, directly or through assistants.

Also in consideration of the time dedicated to each task, Committees' work is always performed in a constructive environment based on exchange and dialogue among the respective members,

encouraging personal contributions, open discussion and dialectic not only among Board Members but also with heads of the control functions, Divisions, Governance Areas and of the various Structures involved in meetings within their purview.

Detailed information regarding each Committee which the Board established on 19 May 2016 for the 2016/2017/2018 financial years, with reference to the composition, duties attributed and activities performed (in addition to details on meetings and the attendance of the related members) is given below.

1.C.1. i) 5.P.1.

In 2018 the Committee held six meetings. The average duration of meetings was approximately one hour and a half.

The Committee performs inquiry and advisory duties supporting the Board:

- in the definition of the policies on the suitability requirements for the members of the Parent Company's Bodies and the related guidance and coordination criteria for the Group companies;
- in the process of appointment or co-option of the Board Members to ensure that the Body's composition, in terms of size and professionalism, makes it possible to fulfil its duties efficiently. In this context, the Committee supports the Board in the activity aimed at the early identification by the same Board of the qualitative and quantitative composition of the Body considered optimal, including the theoretical profile of the candidates (identifying and motivating the professional characteristics and the suitability deemed adequate for these purposes) to be presented to the Shareholders' Meeting in time for the appointment of the Directors. To this end, the Committee also formulates guidelines aimed at safeguarding an adequate continuity of experience and knowledge, and overall balance in the composition and operations of the Board and its Committees, so as to prevent the risks associated with simultaneous replacements of an excessive number of members;
- in the verification, to be conducted as part of the assessment of the suitability of members pursuant to Article 26 of the Consolidated Law on Banking, of the match between the composition considered optimal and the one actually resulting from the Shareholders' Meeting appointment, including in the light of the choices formulated by the shareholders when presenting the slates;
- in the verification, also conducted pursuant to Article 26 of the Consolidated Law on Banking, of the fulfilment of the requirements laid down by the applicable regulations and the Articles of Association by Board Members – other than the members of the Management Control Committee – and in the verification of compliance with the limitation of directorships laid down by the applicable regulations and the Articles of Association, as well as the prohibition of interlocking directorates provided for by Article 36 of Italian Law Decree No. 201/2011, converted into Law No. 214/2011. The Committee, in particular, supports the Board for the purposes of assessment of the compliance with the independence requirement as provided for in the Articles of Association, including a review of all credit, professional and commercial arrangements between the Bank and directors considered independent;
- in the definition of the body's self-assessment process and in the actual fulfilment thereof, on an annual basis.

5.C.1. a) and b)

The Committee also supports the Board in the definition and approval of the induction plans targeted at the Directors and in the adoption of the criteria for appointing the members of the Corporate Bodies of the subsidiaries as well as in the evaluation of the proposals for appointing the members of the Corporate Bodies of the main subsidiaries, in order to verify consistency with the aforementioned criteria.

5.C.2.

The Committee is also specifically heard by the Board regarding the identification of the Managing Director, pursuant to the Articles of Association, and, in coordination with the Chairman, supports the Board itself in the definition of the process governing succession plans for senior executives, in order to

ensure their orderly succession in the respective positions in the event of termination or expiry of the mandate or for any cause, in order to ensure business continuity and avoid economic and reputational repercussions.

The Committee, finally, works with the Risks Committee for the purpose of identification by the latter of the proposals for appointment and removal of the heads of the Compliance, Risk Management, Internal Validation and Internal Auditing Departments.

In the meetings held in 2018, the Committee supported the Board of Directors:

- in the annual verification of the suitability requirements by each Board Member and the assessment of the adequate collective composition;
- in the self-assessment process of size, composition and operations for 2018;
- in the adoption of the new Policies on the suitability requirements for the office of Intesa Sanpaolo Board members, and on the appointment of Board members in the subsidiaries and the consistent updating of the Committee's Regulations.

In this context, full compliance with the binding regulatory provisions for banks is given, as well as with the application principles and criteria defined by the Corporate Governance Code.

In particular, the remuneration of Directors and Key Managers of Intesa Sanpaolo shall be established in a sufficient amount to attract, retain and motivate people with the professional skills necessary to successfully manage the Bank.

The remuneration of Non-executive Directors shall be proportionate to the commitment required from each of them, also taking into account their possible participation in one or more Committees and avoiding incentive schemes in line with banking supervisory provisions. The remuneration of the members of the Management Control Committee is defined by the Shareholders' Meeting at the time of their appointment and for the entire term of their office.

The remuneration of the Managing Director and CEO and of Key Managers is defined in such a way as to align their interests with the pursuit of the priority objective of creating value for shareholders in the medium-long term and – as required by the banking regulations – a significant part of the remuneration is linked to the achievement of specific performance objectives, also of a non-economic nature, identified in advance and determined consistently with the guidelines contained in the policy.

For the heads of the Corporate Control Functions, as defined by the Supervisory Provisions on the control system, the incentive schemes are consistent with the tasks assigned and independent of the results achieved by the areas subject to their control.

As already highlighted, the Board of Directors has established a Remuneration Committee within it, composed of Non-executive Directors, mostly independent. The Chairman of the Remuneration Committee is chosen among the Independent Directors.

When setting up the Committee, the Board also took into consideration the professionalism of its members in order to ensure adequate knowledge and experience in financial matters or remuneration policies.

On the proposal of the Remuneration Committee, the Board defines a Remuneration Policy for Directors and Key Managers which is fully aligned with the banking supervisory provisions and with the guidelines of the Corporate Governance Code, providing an accurate account thereof in the Report on Remuneration. In particular, compliance with banking regulations entails:

1. the correct balance between the fixed and variable component of remuneration and compliance with the limits imposed on the variable component by the Banking Supervisory Provisions
2. the payment of the variable remuneration only against predetermined and measurable objectives, linked to the creation of value for shareholders and adjusted for the risks undertaken
3. the deferral of significant components of the variable remuneration, the payment of which is subject to the satisfaction of objective conditions (so-called malus condition)
4. the payment of a portion of the variable remuneration in financial instruments subject to holding periods subsequent to the vesting period
5. the clawback of all variable components of remuneration.

Likewise, in accordance with the requirements of the Supervisory Provisions, share-based remuneration and incentive plans are subject to approval by the Shareholders' Meeting, in line with the policies defined.

Pursuant to the Articles of Association, the Bank's Ordinary Shareholders' Meeting approves the criteria for determining the severance payments to be granted in the event of termination of office and/or early termination of the employment contract, including the limits set in terms of the maximum number of monthly payments of the fixed remuneration payable in compliance with the provisions laid down by banking regulations. Following the conclusion of internal processes leading to the allocation or payment of indemnities and/or other benefits to Key Managers, the Bank discloses the required detailed information to the public.

Information flows from Corporate Bodies and to Corporate Bodies

Effective information flows among the Bodies and within the same are a key element in Intesa Sanpaolo's organisation and corporate governance. Indeed, they enable the proper fulfilment of the duties of the Board of Directors, the Board-appointed Committees and the Management Control Committee, as well as the fulfilment of the obligations imposed by the applicable regulations and proper interaction with the Corporate Structures and the achievement of management efficiency and control effectiveness objectives.

In this regard, the Articles of Association and the Regulations of the Board and the Committees contain provisions aimed at ensuring these objectives as well as more effective coordination and full liaison between the same Bodies. In particular, the Board Regulations contain a specific "Document on information flows between Corporate Bodies and to Corporate Bodies", which forms an integral part thereof and summarises the necessary exchanges of information between the Board of Directors, the Management Control Committee, other Committees, the Managing Director and the Bank's Structures.

The circulation of information may be carried out periodically at pre-established deadlines or as one-time occurrences, if limited to simple events where regulatory provisions call for reporting, and represents a fundamental condition for the effective achievement of management efficiency and control effectiveness objectives.

The designed framework aims to guarantee a system of information flows between the plenum of the Board, the body responsible for day-to-day management, the Management Control Committee and the other Committees, which may be suitable, in terms of frequency and content, to ensure a close and timely connection between the functions performed by the aforesaid Bodies, despite the clear separation of their respective tasks.

Operating structure

Divisions, Governance Areas and Head Office Departments reporting directly to the Managing Director and CEO

In order to enable the strongest organisational focus on the individual business areas, the specialisation of operating and business processes and to ensure that Group governance has the necessary overall coherence, the Parent Company is divided into six Divisions – comprising business line aggregations with similar characteristics in terms of products and services provided and in terms of regulatory framework – Head Office Departments and Staff Units, most of which are grouped together into Governance Areas reporting directly to the Managing Director and CEO.

The aforesaid functions are set out below:

- Divisions

 - Insurance.
- Governance Areas/Head Office Departments reporting directly to the Managing Director and CEO

In addition to the aforesaid structures, the Chief Audit Officer reports directly to the Board of Directors in order to ensure the necessary autonomy and independence.

The Heads in charge of the Organisational Structures of the Divisions, Governance Areas, Head Office Departments reporting directly to the Managing Director and CEO, and the Heads of Group companies, within the general policy and guidelines framework, are responsible for the achievement of objectives in their specific business areas, also through the optimum use of assigned human and technical resources.

For additional information on Intesa Sanpaolo's organisational structure, reference should be made to the Bank's website (Group/About us Section, Organisational structure and Top management pages).

Finally, it should be noted that all Bank Structures operate on the basis of specific Regulations that define the scope of their powers and responsibilities; these Regulations are available throughout the Bank, as are the operating procedures that determine how all the Bank's various processes are to be performed. All the main decision-making and implementing processes concerning Bank operations are encoded, and can be monitored and viewed by the entire Structure.

Group's Managerial Committees

As part of the mechanisms to guarantee effective management of operational matters relevant to the entire Group, to more effectively govern the risk profile within the Group, and to guarantee an adequate level of internal communication and discussion, special Managerial Committees are established by the Bank, composed of Bank Executives and Members of the Group companies' top management.

The Articles of Association assign to the Board of Directors the duty to pass resolutions regarding the establishment and the determination of the composition, the duties and powers of each of the Managerial Committees.

The following Committees operated in 2018:

- Steering Committee, chaired by the Managing Director and CEO and including the Bank's first management line, which ensures a Board sharing process by the CEO and his/her direct reports with regards to decisions/processes of particular relevance in the company's management.
In this context, the Steering Committee acts as a decision-making, consultative and reporting management body with the aim of:
 - ✓ supporting the Managing Director;
 - ✓ collaborating with the Managing Director in the preparation of the Business Plan and in the implementation of the main managerial initiatives;
 - ✓ strengthening the coordination and cooperation mechanisms between the various business, governance and control areas of the Bank and the Group, with a view to sharing the main business choices;
 - ✓ helping ensure the monitoring, coordination and integrated risk management and the safeguarding of the corporate value at Group level.To this end, the Steering Committee envisages, in addition to a Plenary Session (which represents the phase during which the CEO may deem it useful to involve the entire top management in highly relevant issues), also specific and separate thematic sessions (Business Plan, Shareholdings, Investments, Group Risk Analysis, Credit Strategies, Recovery & Resolution Plan, Supervisory Remediation Plans).
- Group Financial Risks Committee: a technical body with decision-making, consultative and reporting powers, focused both on the banking business (proprietary financial risks for banking and trading books, as well as Active Value Management) and the life insurance business (result exposure to the trend in market variables).
- Group Control Coordination, Operational and Reputational Risk Committee: a technical body which operates, within the scope of the guidelines set by the Board of Directors, with the aim of stepping up coordination and interdepartmental cooperation mechanisms:
 - o as part of the Group internal control system, facilitating the integration of the risk management process;
 - o by aiding the effective management of operational risks, including the IT risk (or ICT);
- Group Credit Committee: a technical body with a decision-making and consultative role that has the task of guaranteeing coordinated management of issues relating to credit risk, adoption of lending decisions to the extent of its assigned powers and issue of "compliance opinions" for the resolutions proposed by subsidiaries.
In 2018, the Regulations of the Group Credit Committee were updated with the introduction of a "Non-Performing Loans" session, focused on non-performing past due exposures, Unlikely-to-Pay Loans, Forborne Unlikely-to-Pay Loans, Bad Loans and non-performing loan portfolios, in compliance with the provisions laid down by the "Guidance to banks on non-performing loans (NPL)" of the European Central Bank.

By resolution of 6 November 2018, the Board – as part of the "Originate-to-Share trading" ("OtS") project – approved the general principles, roles and responsibilities of the Bodies and Structures aimed at enabling these transactions to be carried out correctly and set up the Sign-Off Hold-To-Collect and Sell Group Committee, with the task of approving the assumption of market risks put forward by the business structures of the Corporate and Investment Banking Division on the HTCS shares required for OtS transactions.

The Board, by resolution of 20 November 2018, also set up the Credit Risk and Pillar 2 Internal Model Committee, a technical body with a decision-making, reporting and consultative role, with the objective of assessing issues relating to the relevant models and supporting the Managing Director and CEO in the performance of the related duties; the scope of operation includes i) internal models for measuring and managing credit risk and ii) internal models relating to Pillar 2 risks (excluding Pillar 2 models for the measurement and quantification of Banking Book financial risks, already falling within the scope of the responsibilities of the Group Financial Risks Committee).

Each Committee adopts its own Regulations in terms of organisation and operation, as approved by the Board.

The internal control and risk management system

Main characteristics

In line with the provisions laid down by the Supervisory Provisions on the control system, the Bank has adopted the "Integrated Internal Control System Regulation", which defines the guidelines of Intesa Sanpaolo's internal control system, in its capacity as Bank and Parent Company of the Banking Group, through the adoption of the reference principles and the definition of the responsibilities of the Bodies and of the functions with control duties, which contribute, in various ways, to the proper operation of the internal control system, as well as the identification of coordination arrangements and information flows supporting system integration.

7.P.1.
7.P.2.

The document is the reference framework of the Intesa Sanpaolo Group's internal control system, which includes the principles and rules on the controls that must be reflected and incorporated in the regulatory documents issued within the Group with reference to specific areas of prudential supervision.

The Group companies adopted the Regulation and – where applicable – approved their own similar document which defines the guidelines of their own internal control system.

The internal control system consists of a set of rules, functions, structures, resources, processes and procedures aimed at ensuring, in compliance with sound and prudent management, the achievement of the following objectives:

- verification of the implementation of company strategies and policies;
- containment of risks within the limits indicated in the reference framework for determining the Bank's risk appetite (Risk Appetite Framework);
- safeguard of asset value and protection from losses;
- effectiveness and efficiency of the Bank processes;
- reliability and security of company information and IT procedures;
- prevention of the risk that the Bank may be involved, including involuntarily involved, in illegal activities (with special regard to those relating to money-laundering, usury and financing for terrorism);
- compliance of business operations with the law and supervisory regulations, as well as internal policies, procedures and regulations.

Art. 123-
bis (2),
(b) CLF

The internal control system plays a crucial role and involves the entire corporate organisation (Bodies, structures, hierarchical levels, all personnel).

In line with legal and Supervisory regulations, and consistent with the guidelines laid down in the Corporate Governance Code, the Bank has adopted an internal control system aimed at identifying, measuring and monitoring, on an ongoing basis, the typical risks of its business activity and that of the Group companies, involving the Corporate Bodies, special internal control functions, the Surveillance Body and the Manager responsible for preparing the Company's financial reports. The independent auditors also contribute to the control system.

7.P.3.

In compliance with the guidelines set forth by the Corporate Bodies, the internal control system of the Bank and the Group is designed to constantly identify, manage and monitor business-related risks. Under this system, the primary references are, inter alia, supervisory provisions on the prudential control of banks and banking groups, organisation and corporate governance of banks, financial conglomerates, investment service and businesses, taking into account developments in international best practices.

7.C.1. a)
7.P.1.

The internal control system is based on three levels, in line with the legal and regulatory provisions in force. Such a model provides for the following types of control:

- the first consists of line controls, which are aimed at ensuring the proper conduct of the operations and, where possible, are incorporated into IT procedures. They are conducted by the same operating and business structures (so-called "Level I control functions"), including through units dedicated solely to control duties reporting to the heads of the same structures or performed as part of the back office;

7.P.3. c)

- the second consists of the controls on risks and compliance, which are intended to ensure, among other things:
 - o correct implementation of the risk management process;
 - o compliance with the operating limits assigned to the various functions;
 - o compliance of business operations with the rules, including self-governance rules.

The functions assigned to such controls ("Level II control functions") are separate from the ones in charge of operations and contribute to the definition of the risk governance policies and the risk management process. In the Intesa Sanpaolo Group, Level II includes the following Parent Company structures and the equivalent ones of the Group companies, where established:

- Chief Compliance Officer Governance Area, to which the Anti-Money Laundering Head Office Department also reports;
- Chief Risk Officer Governance Area, to which the Internal Validation and Controls Head Office Department reports.

In accordance with the Bank of Italy's Supervisory Provisions, which require said functions to be independent from operating structures and separate from internal auditing, the Heads of the Chief Risk Officer Governance Area and the Chief Compliance Officer Governance Area report directly to the Managing Director and CEO and, as required by the regulations, have direct access to the Corporate Bodies, to which they report on the findings from the monitoring activities carried out without restrictions or intermediation;

7.P.3. b)

- the third consists of internal audit controls, aimed at identifying violations of procedures and regulations, as well as periodically assessing the completeness, adequacy, functionality (in terms of efficiency and effectiveness) and reliability of the organisational structure of the other components of the internal control system and information system (ICT audit) at Group level, at preset intervals depending on the nature and extent of the risks. In line with the Supervisory Provisions, the Head of the Auditing function reports directly to the Board of Directors and functionally to the Management Control Committee.

In Intesa Sanpaolo, in addition to the Corporate Control Functions, there are other Functions with control tasks, such as the business continuity function and the IT security function.

The internal control system envisages a detailed set of information flows for the benefit of the Bodies, the different structures concerned and the Group companies so as to allow full and proper governance of the risk factors.

For the purposes of additional oversight of the internal control system and in implementation of the regulations issued by the Bank of Italy, the "Group Rules on the internal systems for reporting violations (Whistleblowing)" have been formalised and made available to employees who may report, not anonymously, facts or conduct that may constitute a breach of the rules governing banking activities and any other irregular conduct of which they become aware.

The reporting system ensures the confidentiality of the whistle-blower, excluding the risk of retaliatory, unfair or discriminatory behaviours.

As mentioned above, Intesa Sanpaolo, within the scope of the so-called "Integrated Internal Control System Regulation", has specifically identified the procedures for coordination and collaboration among the Control Functions, adopted in order to pursue an efficiently integrated system of controls and ensure the adequate governance of all corporate risks.

The monitoring of these elements constituting the internal control system is carried out by the same Control Functions, within their respective powers and within the scope of the Group Control Coordination, Operational and Reputational Risk Managerial Committee, in the Integrated Internal Control System session, designed to strengthen coordination and interdepartmental cooperation mechanisms relating to the internal control system and to aid the integration of the risk management process.

In this regard, the Control Functions adopt appropriate coordination and collaboration mechanisms, based on specific “integration parameters”, which apply to all the phases of the risk management process:

- dissemination of a common language;
- adoption of detection and assessment methods and instruments;
- definition of risk reporting models;
- identification of formalised coordination occasions for the purposes of planning activities;
- provision of continuous information flows;
- sharing the identification of remedial actions.

In this context, the adequacy of essential system elements is assessed on an ongoing basis by the Corporate Bodies, and is taken into consideration in the report on operations attached to the Parent Company’s financial statements, in this Report and in the report pursuant to Article 153 of the Consolidated Law on Finance.

7.C.1. b)

Given the above, a description is provided below of the main elements of the internal control system, also indicating the breakdown of financial information controls (in reference to the duties of the Manager responsible for preparing the Company’s financial reports, the financial information control system and the independent audit), the Corporate Control Functions as defined in the Supervisory Provisions on the control system (risk control, compliance with regulations, internal auditing, anti-money laundering and validation) and crime prevention models.

7.C.1. d)

The role of the Corporate Bodies

The task of ensuring the completeness, adequacy, functionality and reliability of the internal control system at Group level falls within the remit of the Corporate Bodies of Intesa Sanpaolo as provided for by the Supervisory Provisions on the control system and by the Supervisory Provisions on corporate governance.

7.P.3. a)
7.C.1.

In particular, in order to ensure an integrated and consistent internal control system and adequate monitoring of the risks to which the Group is or may be exposed, the strategic decisions relating to the internal control and risk management system at the Group level fall within the remit of the Board of Directors of Intesa Sanpaolo, as the Parent Company. Therefore, in carrying out its functions, it not only considers the actual corporate situation of the Parent Company, but also assesses the Group’s overall operating activity and the overall risks to which it is exposed.

In the light of the one-tier governance model adopted by Intesa Sanpaolo, the Board of Directors, with the support of the Risks Committee and taking into account the proposals of the Managing Director and CEO, is called upon to define and approve the overall governance and organisational structure of the Bank and the Group, the guidelines of the internal control system, the risk appetite and the risk governance policies and processes. The Board is also responsible for addressing and monitoring the information system (including the supervision of the IT risk analysis) and business continuity.

The Board of Directors is also responsible for approving the establishment of the internal control functions, thereby outlining their tasks and responsibilities, and for appointing the Manager responsible for preparing the Company’s financial reports and, upon the proposal of the Risks Committee, the heads of the Corporate Control Functions (Head of Internal Auditing, Chief Risk Officer, Chief Compliance Officer, Head of the Validation Department, Head of the Anti-Money Laundering Department).

The Board examines the reports prepared, at least annually, by the Corporate Control Functions and approves the work plan prepared by the head of the internal auditing department, after examination by the Risks Committee and the Management Control Committee.

7.C.1. c)
7.C.5. a)

In addition, the Board evaluates the observations formulated by the independent auditor in the letter of recommendations, if any, and in the additional report on the independent audit, pursuant to Article 11 of (EU) Regulation 537/2014, after examination by the Management Control Committee and the Risks Committee.

7.C.1. e)

The Board of Directors, in the performance of its strategic supervision and guidance on the internal control system and risk matters, is supported by the Risks Committee. All the matters indicated above within the purview of the Board are previously submitted to the Risks Committee for examination.

7.P.3. a)-
ii)

7.P.3. d)

The Management Control Committee, as the Body in charge of the duties assigned by applicable regulations to the Control Body, is tasked with supervising the completeness, adequacy, functionality and reliability of the internal control system and risk appetite framework, as well as the business continuity plan.

Furthermore, the Committee ensures the effectiveness of all the structures and functions involved in the control system and the proper coordination thereof, promoting the corrective measures of any deficiencies and irregularities detected.

The Committee monitors the effectiveness of the control, internal auditing and risk management systems, as well as the financial reporting process, the audit of the annual or consolidated financial statements, and the independence of the independent auditors also in the capacity of Internal Control and Audit Committee pursuant to Italian Legislative Decree No. 39/2010, as novated by Italian Legislative Decree No. 135/2016. In that role, it is tasked with notifying the Board of Directors of the outcome of the independent audit and to send to said body the report pursuant to Article 11 of (EU) Regulation 537/2014.

To carry out its functions, the Committee receives adequate flows of information from the other Corporate Bodies and from the corporate functions, including control functions.

The Committee in particular receives from the control functions the activity plans, the periodic reports prepared, at least annually, as well as the flow of information relating to specific situations or company trends, with particular reference to any significant deficiencies or breaches detected.

The Committee exchanges information of mutual interest and, where appropriate, coordinates with the Risks Committee for the performance of the respective duties, including in relation to information and disclosure notices of mutual interest; it also operates in close liaison with the control bodies of the subsidiaries, thereby contributing to the timely exchange of all relevant information.

7.P.3. a)-i)
7.C.4.

The Managing Director and CEO has the power to submit proposals for resolutions concerning the internal control and risk system, without prejudice to the power of proposal reserved for individual Directors and Committees provided for by the Articles of Association. Furthermore, the Managing Director and CEO shall implement all the resolutions of the Board of Directors, with particular reference to the implementation of the strategic guidelines, the RAF and the risk governance policies defined by the Board of Directors.

The Managing Director shall ensure integrated management of all corporate risks, thereby evaluating the internal and external factors that may give rise to them and their mutual interrelations, and shall be responsible for the adoption of the necessary measures to make the organisation and internal control system compliant with the regulatory principles and provisions, monitoring compliance therewith within the Bank and the Group on an ongoing basis. The Managing Director is responsible for adopting the provisions aimed at ensuring that the various corporate functions implement the risk management and control process for the Bank and the Group, also taking care of the structure and operations of the risk measurement internal systems and the ICAAP and ILAAP process, in line with the Supervisory Provisions, the strategic guidelines, the RAF and the risk governance policies defined and approved by the Board of Directors.

The Manager responsible for preparing the Company's financial reports

Pursuant to the provisions of Article 154-bis of the Consolidated Law on Finance, Intesa Sanpaolo has provided for the appointment of the Manager responsible for preparing the Company's financial reports.

The Manager responsible for preparing the Company's financial reports meets specific professionalism requirements connected to adequate skills in financial accounting and management and control of the related administrative procedures, as laid down by the Articles of Association. The Manager responsible for preparing the Company's financial reports also meets integrity requirements for members of control bodies of listed companies envisaged under current regulations.

The Manager responsible for preparing the Company's financial reports was vested with adequate powers and means for the performance of his/her functions. For this purpose he/she relies on:

- a dedicated organisational structure capable of supporting him/her, which is adequate in terms of number and technical and professional skills;
- the Administration and Tax Head Office Department structures;
- the contribution:
 - from the corporate control functions and, in particular, the Internal Auditing Department, which is responsible for conducting overall assurance activities over the internal control system as

indicated in the “Integrated Internal Control System Regulation” and from which he/she acquires, in relation to the effects on the financial reporting process and on the reliability of corporate information, the outcomes of the activities carried out;

- from the other functions of the Parent Company and the Group companies.

Monitoring on the reliability of the company financial reports and on the financial reporting process is carried out in compliance with the provisions of Article 154-bis of the Consolidated Law on Finance and the related implementing provisions as well as the rules on the administration and accounting system to which the companies that control companies governed by the laws of non-EU countries (Article 15 of Consob Market Regulation No. 20249/2017 in force since 3 January 2018, former Article 36 of Consob Market Regulation No. 16191/2007) are bound.

For the purposes of the aforesaid legal and regulatory provisions, the Manager responsible for preparing the Company’s financial reports plays a steering and coordination role in Group companies with regard to administrative matters and in the supervision of internal control system functional to accounting and financial reporting and supervises the fulfilment of the legal obligations according to a shared approach at Group level, defined by specific internal regulations.

The financial reporting process monitoring

Within Intesa Sanpaolo, the monitoring of the accounting and financial reporting process performed by the Manager responsible for preparing the Company’s financial reports is based on the review of:

- the adequacy of the processes and procedures used for drafting the company financial reports and any other relevant financial disclosure pursuant to Article 154-bis of the Consolidated Law on Finance. The focus of the audits is represented by the work stages which, within business processes, entail the recording, processing, evaluation and presentation of data and information, as well as of the IT architecture and application monitoring rules, especially with reference to the management of operations and development interventions on the summary systems instrumental to the financial reporting;
- the completeness and consistency of the information disclosed to the market through a structured system of information flows coming from the functions of the Parent Company and companies on the significant events for the purposes of accounting and financial reporting, especially as regards the main risks and uncertainties to which they are exposed.

Art. 123-bis (2), (b)
CLF

Italian legislation does not make express reference to predefined standards in order to assess the adequacy of the administrative and accounting procedures and to ensure the effectiveness of the related internal control system and technology infrastructure. The international benchmarks – typically also used by independent auditors – are represented respectively by the *COSO Framework*¹ in relation to the internal control system and the *COBIT Framework*² with regard to information systems. They are also used as benchmarks by Intesa Sanpaolo insofar as they offer the opportunity for a convergence in the analysis and evaluation methodologies with reference to the more widespread consolidated practices at the international level, based on authoritative references and widely recognised, updated on an ongoing basis and accompanied by elements of interpretation that enable a smooth and straightforward dialogue with the regulators, the independent auditors, the relevant bodies and among the control functions.

In this regard, the “financial reporting risk” was included in the integrated classification of Group risks and a measurement metrics was defined in line with the principles of the “Integrated Internal Control System Regulation”.

In this context, it is noted, finally, that for the purposes of the assessment of the adequacy of the relevant processes for the financial reporting, the Manager responsible for preparing the Company’s financial reports uses the results of the controls carried out by the Structures reporting directly to him/her, by the Internal Auditing Department and the other Corporate Control Functions. To this end, within the scope of the Control Coordination, Operational and Reputational Risk Committee provided for by the Integrated Internal Control System, the Corporate Control Functions and the Manager responsible for preparing the Company’s financial reports share annual check plans and the related outcomes. Any critical issues arising from inspections conducted by external entities (Independent Auditors, Supervisory Authorities) are also gathered and evaluated in terms of financial reporting risk.

1 The COSO Framework was prepared by the Committee of Sponsoring Organizations of the Treadway Commission, the U.S. organisation dedicated to improving the quality of financial reporting through ethical standards and an effective system for corporate governance and organisation.
2 The COBIT Framework - Control Objectives for IT and related technology is a set of rules prepared by the IT Governance Institute, the U.S. organisation whose aim is to define and improve the standards of corporate IT.

The role of the Managerial Committees

During 2018, within the scope of the risk control and management system, a qualified role was performed by the Managerial Committees operating within the scope of the Bodies' prerogatives and the specific skills of the corporate control functions.

For a description of the Managerial Committees' duties, reference is made to the paragraph "Group's Managerial Committees" contained in the chapter "Operating structure".

With special reference to the internal control and risk management system, the activities carried out by the following Committees are noted below:

- the Group Control Coordination, Operational and Reputational Risk Committee, in the "Integrated Internal Control System" session, pursues the goal of stepping up coordination and interdepartmental cooperation mechanisms within the Group internal control system, thus promoting the integration of the risk management process.
On the other hand, within the "Operational and Reputational Risk" session, the Committee has the task of supervising the implementation of operational and reputational risk management guidelines and policies in accordance with indications formulated by the Board of Directors and periodically reviewing the overall operational risk profile of the Group (including IT risk), thereby authorising any corrective measures, coordinating and monitoring the effectiveness of the main mitigation activities and approving, in accordance with indications of the Board of Directors, operational risk transfer strategies.
The Committee sessions are attended by the Heads of the Corporate Control Functions as well as by the Manager responsible for preparing the Company's financial reports. The participation of the Manager responsible for preparing the Company's financial reports in the Committee's sessions as a permanent member contributes to the fulfilment of the legal obligations assigned to the same and the duties set out in the Corporate Regulations on the monitoring of the financial reporting process and also allows the promotion, as far as applicable, of the coordination and interdepartmental integration of the control activities.
- Within the scope of the Steering Committee, the "Group Risk Analysis" session is aimed at ensuring the monitoring and management of risks and the safeguarding of corporate value at Group level, including the internal control system, in implementation of the strategic guidelines and management policies defined by the Board of Directors. This session is assigned several responsibilities on the matter of risks, including the examination of the Group Risk Appetite Framework proposal, ICAAP and ILAAP report and risks Tableau de Bord.
Furthermore, within the scope of the "Credit Strategies" session, the Committee reviews the Credit Strategy proposal and periodically checks the correct implementation thereof, thereby evaluating any necessary corrective measures.
- The Group Financial Risks Committee's functions are set out in two sessions,
 - the "Risk Analysis and Assessment" session, responsible for evaluating, in advance of approval by the Board of Directors, the guidelines on undertaking and measuring financial risks and the liquidity risk and proposals for operational limits, in addition to defining, within the scope of the powers received, the distribution thereof amongst the Group's major units; in addition, the session verifies the financial risk profile and the exposure to the liquidity and rate risk of the Group and its main operational units;
 - the "Management Guidelines and Operating Choices" session, which provides operational guidelines in implementation of the strategic guidelines and risk management policies laid down by the Board in respect of management of the banking book, liquidity, interest rate and exchange risks and periodically verifies the Group's overall financial risk profile, as well as appropriate measures aimed at mitigating it.
- The Credit Risk and Pillar 2 Internal Models Committee assesses issues relating to the internal models for measuring and managing credit risk as well as the internal models relating to Pillar 2 risks (excluding Banking Book financial risks, already falling within the scope of the responsibilities of the Group Financial Risks Committee).

The Chief Risk Officer

The Chief Risk Officer, directly reporting to the Managing Director and CEO, has the responsibility of the relevant Governance Area – in charge of the risk management functions, including the controls on the risk management and internal validation process – that represents an important element of the “second line of defence” of the internal control system, separate and independent from the business functions.

The Chief Risk Officer Governance Area is set out in the following structures:

- Credit Risk Management Head Office Department
- Financial and Market Risks Head Office Department
- Enterprise Risk Management Head Office Department
- Internal Validation and Controls Head Office Department
- Foreign Banks Risk Governance
- Risk Management Initiatives Coordination.

The risk control functions of subsidiaries with decentralised management model and the delegates of the Parent Company's risk control function at subsidiaries with centralised management model functionally report to the Chief Risk Officer Governance Area.

The main duties entrusted to the Chief Risk Officer Governance Area are as follows:

- governing the macro-process of definition, approval, control and implementation of the Group's Risk Appetite Framework (RAF) with the support of the other corporate functions involved;
- consistent with corporate strategies and objectives, assisting the Bodies in defining guidelines and policies on risk management;
- coordinating the implementation of guidelines and policies on risk management by the relevant Group business units, also in the various corporate contexts;
- guaranteeing the measurement and control of Group exposure to the various types of risk, also verifying the implementation of guidelines and policies as above;
- performing II level monitoring and controls on credit quality, composition and evolution of the various loan portfolios and on proper classification and measurement of single positions (“single name” controls);
- performing II level monitoring and controls for monitoring risks other than credit risk;
- continuously and iteratively validating risk measurement and management systems – used both for the determination of capital requirements and for non-regulatory purposes – in order to assess their compliance with regulatory provisions, operational company and reference market demands, and to manage the internal validation process at Group level.

The Chief Risk Officer Governance Area structures are in charge of the actions implementing management and strategic guidelines along the Bank decision-making process, down to individual operating units. Furthermore, they develop and maintain risk measurement, management and control systems, in line with applicable regulations and international best practices, as described in the notes to the Financial Statements and the Pillar III – Basel III Disclosure.

The Chief Compliance Officer

The Chief Compliance Officer, to which the Anti-Money Laundering Head Office Department also reports, reports directly to the Managing Director and CEO, in a position that is independent from operating structures and separate from internal auditing; this function ensures the monitoring of the regulatory compliance risk at Group level, both in the operational and reputational risk component, including the risk of sanctions, losses or damage arising from improper conduct towards customers or such as to jeopardise the integrity and orderly functioning of the markets (so-called conduct risk).

The Chief Compliance Officer Governance Area is responsible for the following tasks:

- defining the guidelines and methodological rules for the monitoring and assessment of the compliance risk;
- identifying and assessing the compliance risks and the related controls, and planning the necessary mitigation measures;
- identifying the applicable regulations, assessing the impact thereof on corporate processes and procedures, and proposing the resulting organisational and procedural changes;

-
- providing support to the corporate structures in all matters in which the compliance risk becomes relevant and in the preliminary assessment of innovative projects, including the launching of new activities and the entry in new markets, of operations and new products and services to be introduced to the market;
 - verifying ex post the adequacy and effective application of internal processes and procedures and of the proposed organisational adjustments for the prevention of the compliance risk and, in general, checking the effective compliance with external and internal regulations by the corporate structures;
 - promoting the dissemination of a corporate culture founded on the principles of honesty, fairness, and respect for the spirit and the letter of the rules;
 - managing relations with the Authorities with regards to compliance issues and non-compliance events.

The Chief Compliance Officer reports directly to the Governing Bodies and has access to all activities within the Bank, as well as any information significant for the performance of his/her duties.

The regulatory scope and the procedures for monitoring regulatory areas subject to significant compliance risks for the Group are defined in the Group Compliance Guidelines. The Chief Compliance Officer ensures disclosure to the Corporate Bodies on the adequacy of compliance monitoring, with reference to all regulatory areas applicable to the bank showing compliance risks.

The Chief Compliance Officer plays a guidance, coordination and controlling role on behalf of Subsidiaries not in service and for International Branches, for which an internal compliance function is established and a local Compliance Officer is appointed; the Compliance Officers of Subsidiaries report to the relevant Chief Compliance Officer Governance Area structures in functional terms, whereas those of Branches report in hierarchical terms, save as for those cases where it is not permitted by the local regulations.

The Legal Affairs Head Office Department – Group General Counsel

The Legal Affairs Head Office Department, for the matters attributed to it by the organisational model, oversees the legal risk at Group level, provides legal advice and support, manages and coordinates disputes in and out of court, including through the issue of guidelines and instructions.

The Department, within the scope of its advisory activities, also looks after the evolution of the regulations and, in the management of disputes, evaluates the risk also for the purposes of allocating the provisions.

The Department, including through loss data collection activities, cooperates with the Chief Risk Officer to operational risk measurement and control, as well as the identification of the related mitigation actions.

The Department functionally coordinates the legal structures of the Group companies.

Internal Auditing

7.P.3. b)
7.C.5. b) Internal auditing activities are assigned to the Chief Audit Officer, a structure reporting directly to the Board of Directors (and, on its behalf, to the Chairman), which also reports functionally to the Management Control Committee, without prejudice to the appropriate sharing of information with the Managing Director and CEO.

Internal Auditing has a structure and a control model in line with the organisational structure of Intesa Sanpaolo and of the Group. The Internal Auditing Structures of the Group's Italian and international companies report to the Chief Audit Officer in terms of functions.

7.C.1.
7.C.5. c) The Head of Internal Auditing enjoys the due autonomy and independence from Operating Structures. Internal Auditing has access to all the activities carried out both at central offices and at peripheral structures. In the event whereby third parties are assigned activities inherent to the operation of the internal control system (e.g. data processing), the Internal Auditing must have access also to the activities carried out by said entities.

The structure performs overall level III assessment of the internal control system, reporting possible improvements to the Corporate Bodies, with specific regard to the RAF, the risk management process and the relevant measurement and control instruments.

7.C.5.
a) and g)

In particular, it assesses the completeness, adequacy, functionality and reliability of the components of the internal control system, the risk management process and the corporate processes, also with regard to their ability to identify and prevent errors and irregularities. In this context, amongst others, it audits the risk control and regulatory compliance corporate functions, also through participation in projects, so as to generate added value and improve the effectiveness of the control and corporate governance processes. The audit action directly concerns Intesa Sanpaolo and the Group companies.

Internal Auditing is also responsible for assessing the effectiveness of RAF definition process, the internal consistency of the overall framework and compliance of Bank operations with the RAF.

The structure uses personnel with the appropriate professional skills and expertise, and ensures that its activities are performed in accordance with international best practices and standards for internal auditing established by the Institute of Internal Auditors (IIA). Internal auditors conduct their activity in accordance with the principles laid down in the Internal Auditor's Code of Ethics, inspired by that proposed by the Institute of Internal Auditors. As required by international standards, Internal Auditing is subject to an external Quality Assurance Review at least every five years; the last assessment was carried out in 2016 and assigned it the maximum rating ("Generally Compliant"). At the end of 2018, the Management Control Committee requested that said activity be carried out every three years; therefore, a new assessment was started and will end in the first quarter of 2019.

In performing its duties, Internal Auditing uses structured risk assessment methods to identify situations of greatest interest and the main new risk factors. Based on the assessments emerging from risk assessment and the resulting priorities, as well as on any specific requests for further enquiry expressed by the top management and Corporate Bodies, it prepares and submits an Annual Intervention Plan for prior examination by the Management Control Committee, and subsequent approval by the Board of Directors, on the basis of which it conducts its activities during the year, in addition to a Long-Term Plan. The Plan may be subject to changes during the year as a result of extraordinary events, also deriving from potential development of risks and from new requests from the Corporate Bodies. The Chief Audit Officer ensures the proper conduct of the internal process for managing whistleblowing reports.

7.C.5.
d) and e)

The Chief Audit Officer supports corporate governance and ensures that Top Management, the Corporate Bodies and the competent Authorities promptly and systematically receive information on the status of the control system and on the outcome of activities performed.

Audit is performed directly for the Parent Company and network banks, as well as for subsidiaries under an outsourcing contract; for other Group entities vested with their own internal audit functions, on the other hand, indirect control is maintained.

In such cases, indirect audit is conducted via the steering and functional coordination of the Auditing structures of the Italian and international banks and subsidiaries, to guarantee control consistency and adequate attention to the different types of risks, also verifying the effectiveness and efficiency levels under both structural and operational profiles. Furthermore, direct audit and verification are also performed in the institutional capacity as Parent Company.

Any weaknesses are systematically reported to the Corporate Functions involved for prompt improvement action, with adequate follow-up activities suitable for checking its effectiveness.

7.C.5. f)

Summary internal control system assessments from the checks are periodically submitted to the Management Control Committee and the Board of Directors.

The outcomes of the checks completed with a negative opinion or which highlight major shortcomings were submitted in full to the Board, the Managing Director and CEO and to the Management Control Committee, as well as to the Boards of Directors and Statutory Auditors of the subsidiaries concerned. The main weaknesses detected and their development over time are included in the Audit Tableau de Bord (TdB), with evidence of the ongoing mitigation actions as well as of the related managers and expected deadlines, so that they may be systematically monitored.

The Chief Audit Officer coordinates the "Integrated Internal Control System" session of the Group Control Coordination, Operational and Reputational Risk Committee; he/she supports the 231 Surveillance Body in ensuring constant and independent auditing of the regular performance of

operations and processes, in order to prevent or identify the emergence of anomalous and risky conduct or events, and monitoring the compliance and adequacy of the rules contained in the 231 Model; finally he/she participates in the Plenary, Business Plan and Supervisory Remediation Plans sessions of the Steering Committee as well as, upon specific request, also in the Investments session.

Internal Auditing ensures constant self-assessment of its own efficacy and efficiency in line with the internal "quality assurance and improvement" plan drafted in accordance with the recommendations of international standards for professional audit practice. In this context, during 2018, an internal auditing evolution plan was launched, also in line with the strategies of the 2018-2021 Business Plan, referred to as Future Audit Solutions and Transformation (FAST).

The Surveillance Body and the Organisational, Management and Control Model pursuant to Legislative Decree 231/2001

The Surveillance Body – appointed by the Board of Directors – is tasked with duties of oversight on the effective and proper functioning, as well as on the updating, of the Organisational, Management and Control Model ("Model") pursuant to Italian Legislative Decree No. 231/2001 on the administrative liability of entities.

The Body is composed of three external members to Intesa Sanpaolo who meet the specific professionalism, integrity and independence requirements and is therefore able to ensure autonomy, independence, professionalism and integrity in the performance of the duties entrusted to it. Three alternate members were also appointed.

The activities, operations and duties of the Body, which met 11 times in 2018, in addition to being indicated in the Model, have also been specified in the "Regulations for the Surveillance Body, pursuant to Legislative Decree 231/2001".

Pursuant to these Regulations, according to which the Chairman may be appointed by annual rotation among the members, on 24 May 2018 the Body appointed Paolo Vernerio as Chairman, replacing Silvano Corbella who had held the office since the establishment of the same Body.

Surveillance Body as per Legislative Decree 231/2001

Members	Independent pursuant to Article 148 paragraph 3 of the CLF	Independent pursuant to the Code	Attendance percentage at meetings
Paolo Vernerio – Chairman	X	X	100%
Silvano Corbella	X	X	100%
Franco Dalla Sega	X		100%
Elena Brero (alternate)	X		N/A
Oreste Cagnasso (alternate)	X	X	N/A
Francesco D'Alessandro (alternate)	X	X	N/A

For each category of offences contemplated by Italian Legislative Decree 231/2001, the Model identifies "sensitive" company areas and, for each area, the company activities where there is a risk of the illicit offences being committed (so-called "sensitive activities"). For each sensitive activity, control principles and rules of conduct have been set forth, applicable to the people involved in such activities.

In particular, the Model outlines the reference legal context, the role and responsibility of the structures involved in its adoption, the efficient implementation and updating of the Model itself, the "sensitive" areas related to the type of illegal acts prevented, and the areas of company activity in which the risk of committing such offences may emerge, the behavioural principles and control rules for their prevention, related information flows and the disciplinary system.

The Model is fully and effectively implemented in daily operations through the connection between each sensitive area and the dynamic management of processes and the reference internal regulations. Being based on the control and behavioural principles stated for each activity, these regulations govern company operations at the various levels, thereby forming an integral part of the Model itself.

In 2018 the Board of Directors updated the Model, subject to the favourable opinion of the Body. Said update is mainly related to the development of external regulations. Specifically, the amendments to Italian Law No. 179/2017, which amended Italian Legislative Decree 231/2001 on whistleblowing, shall apply. To this end, the internal systems for reporting to the Body were integrated in accordance with the provisions laid down by Article 6, paragraph 2-bis of Italian Legislative Decree 231/2001 and were harmonised with the "Group Rules on the internal systems for reporting violations (Whistleblowing)".

The further adjustments concerned, among other things: the obligation for the Intesa Sanpaolo Group to draw up the Non-Financial Statement; the description of the training activities following the gradual introduction of the new "digital platform"; the adjustment to the "European and national legislation on the protection of personal data", issued following enactment of GDPR.

In the performance of its duties, the Body has as its delegates and stakeholders the heads of the Internal Auditing and Compliance Departments as well as the Manager responsible for preparing the Company's financial reports. Said delegates, each to the extent applicable, provide appropriate information and inquiry support to the same Body, thereby making available the resources required to perform the necessary duties.

Thus the Body ensures constant and independent supervision over the regular performance of Bank processes to prevent and/or identify the emergence of anomalous or risky conduct or events. It assesses the operation of the overall internal control system and its adequacy in guaranteeing the effectiveness and efficiency of the control processes identified, and ensures their compliance with policies established by the Corporate Governance Bodies and with internal and external regulations.

In order to pursue its functions with total independence, the Body has autonomous spending powers based on an annual budget, approved by the Board and subject to the favourable opinion of the same Body.

As regards the other specific activities carried out in 2018, the following is noted in particular:

- the monitoring over the implementation of the Code of Ethics and the social and environmental responsibility principles;
- the analysis of the periodic reports issued by the corporate control functions;
- the update on the integration process of the former Venetian Banks, with special reference to compliance and anti-money laundering profiles;
- the analysis of the update of the Guidelines for combating money laundering and the financing of terrorism and for managing embargoes;
- the monitoring on the progress of the afore-mentioned ENIF Project, launched with a view to the overall review and strengthening of anti-money laundering safeguards and embargoes at Group level;
- investigations into alleged irregularities perpetrated by employees.

With reference to the value of the Model, Intesa Sanpaolo pushed ahead with the roll-out of the internal communication and staff training plan to facilitate the dissemination of the provisions of the Decree and of the Organisation Model adopted, so that awareness of the subject and observance of the related rules become an integral part of the professional portfolio of each employee. In particular, the Body agreed on the expedience of further reinforcement, within the Model, of the compulsory nature of 231 training by establishing specific training activities for international branch personnel.

Furthermore, without prejudice to the separate responsibility of each Group company for the adoption and effective implementation of their own models under Italian Legislative Decree No. 231/2001, the Bank, in its capacity as Parent Company, has formalised a series of guidelines on this topic for its subsidiaries with regard, among other things, to the appointment of a Surveillance Body, the preparation of staff training plans, the adoption of suitable controls for sensitive processes, and periodic reports to the Parent Company's Compliance Department.

The Surveillance Bodies of the subsidiaries are responsible for monitoring the functioning of the model adopted by each of the subsidiaries and the fulfilment of the obligations laid down by the regulations and submit the respective reports on the activities carried out to the Management Control Committee.

The Organisational, Management and Control Models adopted by Intesa Sanpaolo and the Italian Group companies are available in the Governance section of the Bank's website.

Independent Auditing

In Intesa Sanpaolo, as a listed company (Public Interest Entity pursuant to the relevant regulations), auditing of the accounts may only be conducted by an independent auditing firm (Independent Auditor), responsible for verifying, during the year, the regular keeping of corporate accounts and the proper recognition of management operations in the books, and for expressing, through the appropriate reports, an opinion on the Parent Company's and consolidated financial statements, after ascertaining that they correspond to the accounting entries and related audits and that such records comply with the relevant regulations. The independent auditors are also entrusted, on a voluntary basis, with the limited audit of the consolidated half-yearly report and the consolidated interim reports.

In order to monitor compliance with laws governing independent auditing firms engaged for the auditing of the accounts of Group companies, by ensuring the conditions to protect the independence of independent auditors, Intesa Sanpaolo has adopted the "Group Regulation for the granting of assignments to independent auditors and their networks" whereby a supervision system was set up with the aim of monitoring the nature and eligibility of the proposed mandates for the provision of services by auditors and related parties.

The independent auditors are KPMG S.p.A., which the Ordinary Shareholders' Meeting of 10 May 2011 appointed for 2012-2020 financial years, as proposed by the Supervisory Board.

Treatment of corporate information

Inside information and Insiders List

The Bank has adopted the "Group Procedures for the management of the *inside information* of Intesa Sanpaolo " which govern the management of inside information regarding Intesa Sanpaolo and the Group Companies, thereby updating them in line with the regulations on the prevention of market abuse provided for by Regulation (EU) No. 596 of 16 April 2014 ("MAR") as well as the related implementing provisions adopted at European and national level.

1.C.1.j)

The Regulations are aimed at ensuring fairness, efficiency and promptness in the reporting transparency of the Group Companies issuing financial instruments traded on regulated markets, in multilateral trading systems and in organised markets.

The organisational safeguards put in place in implementation of the applicable regulations are therefore intended to govern, in the context of the Group, the methods for processing information that could have a significant effect on the prices of the financial instruments issued by Group companies and traded on relevant markets or even on the prices of related derivative financial instruments.

In order to monitor the circulation within the Group of information that may constitute inside information, Intesa Sanpaolo has put in place safeguards to monitor and segregate information that normally precede the entry of a record in the Insider List.

The Regulation also identifies the Managing Director and CEO, the Chairman of the Board of Directors, along with other Group employees and structures identified by the Managing Director and CEO and the Chairman, as the persons authorised to issue disclosures to the market regarding inside information on the Bank and the Group.

Internal Dealing

In line with EU regulations on market abuse, Intesa Sanpaolo has adopted Internal Dealing Regulations which govern the disclosure obligations and operating restrictions applicable to the Board Members and to the Company's key managers and the people closely associated with them, in relation to the completion of transactions involving the Company's listed financial instruments (or other associated instruments).

Any transactions carried out by relevant persons are also disclosed through the Bank's website.

Relations with shareholders and the financial community – The website

9.P.2.
1.C.1. j) Intesa Sanpaolo has a specific interest, as well as an obligation towards the market, in the management of on-going dialogue with shareholders, institutional investors and national and international market operators in compliance with rules and internal procedures governing the disclosure of inside information. In this respect, the Bank guarantees a regular and systematic disclosure of fair, complete and timely information on Group operations, also in the light of indications provided by Consob, the principles expressed in the Corporate Governance Code and in national and international best practices.

The Articles of Association assign to the Chairman of the Board of Directors the task of supervising relations with shareholders, and verifying that such relations are managed correctly, in agreement with the Managing Director.

9.C.1. Given the size of the Bank and the Group, Intesa Sanpaolo makes use of specialist Structures backed by appropriate tools and professional resources: Investor Relations and Price-Sensitive Communication, which is responsible for relations with institutional investors, and Corporate Duties and Shareholders Relations, which is responsible for relations with shareholders – or shareholder associations – and supports shareholders by providing them with corporate documentation disclosed pursuant to law. Press and media relations in general, in Italy and abroad, fall under the responsibility of Media and Public Association Relations, which in this respect is the main contact also for Group companies. Rating Agencies and Investor Coverage is dedicated to the management of relations with analysts of rating agencies and, in concert with Investor Relations and Price-Sensitive Communication, looks after relations with institutional investors.

In its relations with the market, Intesa Sanpaolo adopts a specifically transparent form of conduct, especially with regard to annual and interim financial results and to Group strategies. This also takes place via meetings with the national and international financial community, in a framework of constant dialogue with the market based on fair and timely communication.

Given this line of transparent communications and in order to make information available promptly and as accessible as possible, Intesa Sanpaolo also uses its website.

The Bank focuses special attention on this particular information channel, taking into consideration developments in international best practices in the sector. The institutional website is constantly developed and expanded, so as to highlight its role in showcasing the Group, its values and its distinctive characteristics, and comply with statutory obligations and transparency requirements for the institutional information published online, while satisfying the highest market communication standards in terms of the timeliness and adequacy of messages.

On the website, available in both Italian and English, stakeholders can use an internal search engine to find updated information on the structure and composition of the Corporate Bodies, the organisational structure of the Bank and the Group, the Shareholders' Meeting, the ownership structure and dividends, as well as share performance, regular financial reports and presentations of the results, ratings and prospectuses concerning securities issued by Intesa Sanpaolo. The website also publishes the Bank's press releases, the annual financial calendar showing major corporate events as well as information on significant or extraordinary transactions.

Also available on the website is the Intesa Sanpaolo "Shareholder's Guide". The Guide is designed to provide useful information on investing in the Bank's shares, to inform shareholders of the rights attaching to their shareholdings, and to enable shareholders to build a more active relationship with the Bank.

In this way the website becomes the place in which the financial community and stakeholders in general find numerous opportunities for information and dialogue with the Bank within the framework of constant, consistent and complete communication. Telephone contacts and an email address are provided on the website and there are specific links for requesting documentation of interest.

The Shareholders' Meeting: procedures and shareholders' rights

The Shareholders' Meeting of Intesa Sanpaolo

The Shareholders' Meeting is the Body deemed to represent all shareholders, and its resolutions, passed in accordance with the law and the Articles of Association, are binding on all shareholders, irrespective of their attendance or dissent.

For the Bank, Shareholders' Meetings are one of the main opportunities for contact and dialogue with shareholders, as well as important occasions for the disclosure of news, in accordance with the principle of non-selective disclosure and rules on price sensitive information. At the same time, the Shareholders' Meeting represents for shareholders an opportunity for active participation in the Bank's operations and a chance to express their opinions, through the methods and on the topics envisaged by law and by the Articles of Association.

Intesa Sanpaolo has always strived to encourage the broadest possible participation in the Shareholders' Meetings and to guarantee the best quality standards for the information provided in order to realise the full potential of the meeting.

Art. 123-bis (2),
(c) CLF

9.C.2.

9.P.1.

Duties of the Shareholders' Meeting

Under the one-tier governance model adopted by Intesa Sanpaolo, the Ordinary Shareholders' Meeting shall:

- 1) approve the financial statements and resolve upon the net income allocation;
- 2) appoint, subject to determination of the corresponding number, and remove Directors, determine their remuneration and elect the Chairman and one or more Deputy Chairpersons;
- 3) appoint and remove Directors who sit on the Management Control Committee and appoint its Chairman, determining their remuneration;
- 4) resolve upon the responsibility of Directors;
- 5) upon the reasoned proposal of the Management Control Committee, assign the the engagement for the audit of the accounts and determine the relevant fees and, upon consultation with the same Committee, revoke or amend the engagement granted, where necessary;
- 6) approve the remuneration policies for Board Directors and staff, as well as the plans based on financial instruments; in this context, it shall approve the criteria for determining the severance payments to be granted in the event of early termination of the employment contract or early termination of office, including the limits set for such payments as provided by applicable regulations, and shall also determine, with the qualified majority threshold defined by the supervisory regulations in force, a ratio between the variable and fixed individual remuneration of the personnel above the ratio of 1:1, but in any case not exceeding the maximum established by the same regulations;
- 7) approve the regulation, if any, of the Shareholders' Meeting proceedings;
- 8) resolve upon the other matters assigned to it by the applicable regulations and the Articles of Association;
- 9) authorise the most significant transactions with related parties in the cases and in the manner envisaged by the procedures adopted pursuant to the Articles of Association and in accordance with the relevant regulations.

The Extraordinary Shareholders' Meeting shall resolve upon the amendments of the Articles of Association (without prejudice to the powers of aligning the Articles of Association to the law recognised to the Board of Directors), the appointment, removal, replacement and powers of liquidators, and on any other matter within its purview pursuant to the law.

Calling and conduct of work

The Shareholders' Meeting is called by the Board of Directors whenever it is deemed appropriate or, according to the provisions of Article 2367 of the Italian Civil Code, upon request by Shareholders representing at least one twentieth of the share capital.

The Shareholders' Meeting may also be called by the Management Control Committee, where required for the fulfilment of its duties, subject to sending notice thereof to the Chairman.

The Ordinary Shareholders' Meeting must be called at least once a year, no later than a hundred and eighty days after the end of the financial year.

The Shareholders' Meeting is called at the registered office of the Bank or in another location in the municipality where Intesa Sanpaolo has its registered office, by notice published on the Bank's website at least thirty days prior to the date of the Shareholders' Meeting, as well as by abstract publication in daily newspapers (the abstract notice is normally published in "Il Sole 24 Ore" and in the major national

and international newspapers). If the Shareholders' Meeting is called to appoint Directors, an earlier deadline for publication of forty days prior to the date of the meeting is applied.

The Shareholders' Meeting is held on single call; the Board may establish a second call for the Ordinary Meeting and, limited to the Extraordinary Meeting, even a third call.

9.C.2. The Directors participate in the Shareholders' Meetings; also attending the Meetings are Bank executives and employees, as well as directors, statutory auditors, executives and employees of Group companies, and representatives of the independent auditors. In addition, other persons may participate if their presence is considered useful by the Chairman of the Meeting with reference to the topics for discussion or the work of the Meeting.

9.C.3. Intesa Sanpaolo has not adopted a Shareholders' Meeting regulation and the Board has not deemed it necessary to propose the approval thereof at the Shareholders' Meeting.

Also on the basis of the experience acquired so far, the lack of a specific regulation has not prevented the Bank from ensuring the orderly and effective conduct of the work of the Meetings and the participation of those entitled in related discussions.

In this regard, as already pointed out, the Articles of Association govern in detail the process that the Shareholders' Meeting is required to follow in order to resolve upon the appointment of the members of the Board of Directors.

Moreover, the Chairman of the Shareholders' Meeting, through the powers of management and coordination conferred upon him/her pursuant to the law and the Articles of Association, identifies, in the opening session, the main rules of conduct to be observed and in any event informs the attendees, including during the Meeting, with regard to the voting procedures, in order to allow them to express clear and well-informed opinions on the agenda items.

With regard to the right to speak on the agenda items, and with a view to guaranteeing everyone the opportunity to speak, the Chairman, also on the basis of the number of requests put forward, sets the maximum speaking and reply time for each speaker. Requests to speak are made via an automatic booking system at specific stations in the meeting hall.

9.C.4. The Bank has decided not to change the percentage capital thresholds provided for by applicable regulations with regard to the exercise of action and prerogatives to safeguard minority interests.

Additions to the agenda and submission of new proposed resolutions

Pursuant to the law and to the Articles of Association, shareholders severally or jointly representing at least one-fortieth of the share capital may, within ten days of publication of the notice of call, request the addition of items to the Meeting agenda or submit proposed resolutions on items already on the agenda, thereby specifying any further topics or proposals. The deadline is reduced to five days in the cases of shorter deadlines envisaged by law.

Those entitled to vote may individually, even without representing the quota referred to above, submit proposed resolutions on the agenda items directly at the Shareholders' Meeting.

Additional items are not permitted for topics which the Shareholders' Meeting addresses, by law, upon proposal by the Board or based on a project or report prepared by said Board, other than that usually drawn up for all items on the agenda pursuant to Article 125-ter, paragraph 1, of the Consolidated Law on Finance.

Notice of additions to the agenda or the submission of additional proposed resolutions on items already on the agenda is given in the forms prescribed for the publication of the notice of call.

Right to ask questions on items on the agenda

Those entitled to vote may ask questions concerning items on the agenda even prior to the Shareholders' Meeting. Answers to questions received prior to the Meeting are provided during the Meeting at the latest, with the Bank having the right to provide a single response to questions with the same content.

Questions may also be submitted through the appropriate section of the website or by email, according to the specific instructions outlined in the notice of call.

Participation and representation – The Appointed Representative

The right to participate in the Shareholders' Meeting is recognised for parties that are entitled to vote at the end of the accounting day of the seventh market trading day prior to the date set for the meeting on first or single call (the record date).

Voting by proxy is permitted: those entitled to vote but who do not intend to participate directly in the Shareholders' Meeting may be represented through proxy.

The Articles of Association envisage the possibility for electronic notification of voting proxies to the Bank through the appropriate section of the website or through email.

The notice of call contains specific instructions regarding the voting by proxy procedure, including the availability of a facsimile of a proxy form on the Bank's website, as well as the methods by which proxies can be electronically notified.

In addition, if specified in the notice of call, those who are entitled to vote may attend the Meeting through telecommunication means and exercise their right to vote electronically.

As an additional instrument to encourage more widespread participation in the decision-making processes of the Shareholders' Meeting, the Articles of Association allow the Bank to designate for each meeting, disclosing it in the notice of call, one or more "Appointed Representatives" on whom holders of voting rights can confer a proxy with instructions to vote on all or some of the items on the agenda. The power to appoint more than one representative, also in different locations, meets the need of increased proximity to shareholders, as well as differentiation by shareholder category.

However, the legal provisions on the requests for proxies by advisors or collective proxies by associations of shareholders remain in force.

Regarding the latter, again to achieve large involvement of shareholders, the Intesa Sanpaolo website also indicates contacts of Shareholder Associations in respect of whom the Bank received notice as of the last Shareholders' Meeting or by previous communications.

Intesa Sanpaolo's Articles of Association do not permit postal voting.

Voting rights

There are no restrictions on voting rights.

Contestation of shareholder resolutions

Resolutions adopted at Shareholders' Meetings in accordance with law and the Articles of Association are binding on all shareholders, including those who dissent or abstain from voting. Resolutions adopted not in accordance with law and the Articles of Association may be contested by absent, dissenting or abstaining shareholders.

The terms and procedures for contesting resolutions are determined by the provisions of law in force, contained in Articles 2377-2378 of the Italian Civil Code.

The right of withdrawal

The right of withdrawal may be exercised only in those cases exclusively provided for by Article 2437 of the Italian Civil Code. As permitted by Article 2437, paragraph 2, of the Italian Civil Code, the Articles of Association exclude the right of withdrawal for shareholders that did not take part in the approval of the resolutions concerning the extension of the duration of the Bank and the introduction or cancellation of restrictions on the trading of shares.

The terms and methods for the exercise of the right of withdrawal and the criteria for determining the value of the shares and related liquidation procedures are governed by law.

Gallerie d'Italia - Palazzo Zevallos Stigliano, Naples

Napoli, *Via Toledo: impressione di pioggia* / *Naples, Via Toledo: Rain Impression* by Carlo Brancaccio depicts an outdoor daily-life scene with a lively narrative style. The artist is particularly renowned for his radiant depictions of the most famous streets and sites in Naples, as well as for his seascapes and landscapes.

This picture is part of the permanent collection on display at Gallerie d'Italia - Palazzo Zevallos Stigliano, Intesa Sanpaolo's museum venue in Via Toledo, Naples. This collection of nineteenth-century paintings offers a remarkable overview of landscape painting, a genre that experienced an incredible season in Naples, on a par with the most advanced figurations developed in the rest of Europe.
