*Turin - Milan, 3 November 2015 –* At its meeting today, the Management Board of Intesa Sanpaolo approved the consolidated interim statement as at 30 September 2015<sup>(5)</sup>.

In the first nine months of 2015, the Group achieved a **strong improvement in profitability** – **to above the 2014-2017 Business Plan targets** – despite prolonged market challenges, and **maintained a solid balance sheet**, as the figures below show:

• <u>net income well above the dividend commitment for 2015</u>, up to €2,726m in 9M 2015 from €1,203m in 9M 2014, **the highest nine-month result since 2008**. The net income for Q3 2015 declined to €722m from €940m in Q2 2015 due to the negative effects of financial market volatility.

<sup>(3)</sup> Estimated by applying the fully loaded parameters to the financial statements as at 30 September 2015, considering the total absorption of deferred tax assets (DTAs) related to the goodwill realignment, the expected absorption of DTAs on losses carried forward, the announced distribution of reserves of insurance companies and including the effect of the Danish compromise (under which insurance investments are risk weighted instead of being deducted from capital, with a benefit of six basis points).

<sup>(4)</sup> Includes the 9M 2015 net income after the deduction of accrued dividends.

<sup>(8)</sup> During the preparation of the interim statement at 30 September 2008, in the wake of the global financial crisis, certain amendments to international accounting standards were introduced and adopted by the European Commission. In short, in accordance with these amendments it is possible to reclassify - in specific circumstances considered to be rare - unquoted financial instruments, or no longer quoted, in an active market and no longer held for trading or available for sale: in particular, out of the category "fair value through profit and loss" into the categories "available-for-sale" or the "held-to-maturity" or "loans and receivables", and out of the category "available-for-sale" into the category "loans and receivables". The Group, largely basing on the prices at 1 July 2008, reclassified financial assets held for trading of €603m into loans and receivables; the Group also reclassified financial assets available for sale of €5,241m into loans and receivables. If these reclassifications had not been made, the profits/losses on trading for Q3 2015 would have recorded a negative pre-tax impact of €3m (a negative impact of €7m in 9M 2015, a positive impact of €60m in full-year 2014, a positive impact of €94m in full-year 2013, a positive impact of €125m in full-year 2012, a negative impact of €11m in full-year 2011, a positive impact of €92m in full-year 2010 and of €73m in full-year 2009, and a negative impact of €460m in full-year 2008) and the shareholders' equity as at 30 September 2015 would have included a negative pre-tax direct impact of €784m (with a positive impact of €129 in Q3 2015 and €286m in 9M 2015).

Trading and treasury activities reported a negative figure of €32m versus profits of €251m (this figure included the aforementioned €144m dividends). A loss of €3m was recorded on trading activities in structured credit products versus profits of €3m. For consistency purposes, the income statement and balance sheet figures for the first quarter of 2015 and the four quarters of 2014 were restated following the termination of the sale-and-purchase agreement signed in January 2014, concerning Ukrainian subsidiary Pravex-Bank. The related items were reconsolidated line by line while their contribution to the income statement and the balance sheet was previously recorded, respectively, under income/loss from discontinued operations and under relevant assets/liabilities referring to discontinued operations. Furthermore, following the consolidation of Risanamento, the income statement figures for the first and the second quarter of 2015 and the four quarters of 2014 were restated line by line, with the corresponding net income included under minority interests, and so were the balance sheet figures for the first quarter of 2015 and the four quarters of 2014.

The income statement and balance sheet figures for 2014 relating to the business areas were restated to take into account the new organisational structure, as defined in the last quarter of 2014, with the creation of three new divisions (Private Banking, Asset Management, and Insurance) and the Capital Light Bank business unit.
