FY24: the best year ever

ISP is fully equipped for further success

Appendix: 2022-2025 Business Plan proceeding at full speed

Italy's solid fundamentals support the resilience of the economy

The Italian economy is resilient thanks to solid fundamentals

Households

- **Strong Italian household gross wealth** at ~€12,300bn, of which €5,700bn in financial assets, coupled with low household debt and debt-service ratios
- **Household debt to gross disposable income** down to 56.3% in 2Q24, far lower than 84.5% in the Euro area
- **Less vulnerability to mortgage rate growth:** more than 70% of total mortgages at fixed rates (vs ~20% before the financial crisis)
- **Outstanding deposits** ~60% higher than 2008 and almost double the stock of loans

Corporates

- **Very resilient SMEs**, with historically-low default rates, high liquidity and improved financial leverage (33% in 2Q24 vs 49% in 2011)
- **Export-oriented companies** highly diversified in terms of industries and markets; Italian exports have outperformed Germany's by almost 14% over the past 5 years⁽²⁾
- **Lower dependence on bank credit**, down from 67% of total financial debt in 2011 to 47% in 2Q24

Italian Government/ EU support

- As part of the revised **Italian Recovery and Resilience Plan**, **total EU support** rises to **€194bn**, of which **€122bn already received** and partially invested. The Government has requested the payment of the seventh installment of **€18.2bn**. **A material acceleration in effective spending is expected in 2025-2026**

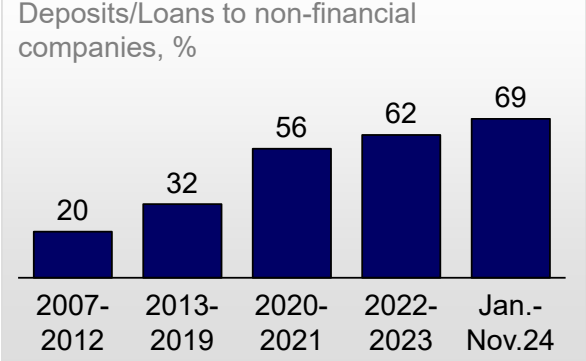

Banking system

- **The banking system is massively capitalised, highly liquid, strongly supporting households and companies, and heavily engaged in the twin transition** (digital and green) of the Italian economy

Italian GDP YoY evolution

Italian corporate liquidity

- Compared to the pre-pandemic situation (end of 2019), **Italian GDP grew by 5.6%** (up to the end of 2024), compared to **4.7%** for the **Eurozone**, **4.0%** for **France**, and **-0.1%** for **Germany**
- **In October and November, Italy's ratings were confirmed by S&P, Fitch and Morningstar DBRS, with Fitch and Morningstar DBRS revising the outlook to positive**
- **Inflation at 1.4% in December 2024**, vs 2.4% in the Eurozone; **unemployment rate at 6%** in 4Q24, the lowest level since 1981

(1) Source: Intesa Sanpaolo (January 2025). Data adjusted for the number of working days

(1) By Top Employers Institute

Massive upfront de-risking, slashing Cost of risk

Key highlights

Massive upfront de-risking, slashing Cost of risk

- Massive deleveraging with €5.5bn gross NPL stock reduction in 2022-2024, reducing Net NPL ratio to 1%⁽¹⁾ and anticipating Business Plan target
- Focus on modular approach and sectorial forward looking – factoring in the macroeconomic scenario – and on proactive credit management
- Focus on Banca dei Territori Division action plan, with strong management of underlying Cost of risk, NPL inflow from Performing loans and new solutions for new needs arising in the current scenario
- Enhanced risk management capabilities: comprehensive and robust Risk Appetite Framework encompasses all the key risk dimensions of the Group
- Introduction of a Sectorial Framework which assesses the forward-looking profile of each economic sector on a quarterly basis across different countries. The sectorial view, approved by a specific management committee, feeds all the credit processes in order to prioritise credit decisions and action plans
- Cybersecurity anti-fraud protection extended to new products and services for retail customers, including the use of Artificial Intelligence; adoption of Open Source Intelligence solutions to empower cyber threat intelligence capability
- Enhanced protection of both the remote access to company applications and the access to corporate workstations enabling multi-factor authentication, and at the same time improving user experiences through frictionless processes
- Enhanced protection from cyber-attacks in terms of detection/recovery and improved internal awareness of cyber-attacks (e.g. phishing)
- Increased customer login protection by leveraging biometric identification and by improving identification through electronic document verification (Passport, ID Card)
- In the EBA Clearing “Fraud Pattern and Anomaly Detection” (FPAD) project, ISP is among the first European banks to integrate the risk score provided by the EBA into its anti-fraud systems for corporate transactions (bank transfers and instant credit transfers)
- Further enhanced security levels of digital services also through the adoption of advanced solutions and technologies for the remote biometric recognition of users, improving the user experience
- Set up of the Anti Financial Crime (AFC) Digital Hub, aimed at becoming a national and international centre open to other financial institutions and intermediaries, with the goal of combating money laundering and terrorism through new technologies and Artificial Intelligence, based on a public-private collaboration model
- Set up of the new AFC model based on an international platform and competence centres specialised in Transaction Monitoring, Know Your Customers and Financial Sanctions
- The Balance Sheet Optimisation unit continued expanding the credit risk hedging schemes to optimise capital absorption. In 4Q24, two new synthetic securitisations were completed: the first with Simple, Transparent and Standardised (STS) on a ~€2.9bn corporate loan portfolio, the second on a ~€1.4bn portfolio of commercial real estate loans. As at 31.12.24, the outstanding securitised portfolio of synthetic securitisation transactions included in the GARC Program (Gestione Attiva Rischio di Credito - Active Credit Risk Management) was equal to ~€29bn
- Further strengthened the capital efficiency initiatives and extended the scope of Credit Strategy to ESG criteria, shifting ~€21bn new lending in 2024 (>€18bn in 2023) to more sustainable economic sectors with the best risk/return profile

(1) According to EBA definition

Growth in Commissions, driven by Wealth Management, Protection & Advisory (1/5)

Key highlights

Growth in Commissions, driven by Wealth Management, Protection & Advisory

- Direct Advisory as part of our  digital offering up and running, allowing customers to build investment portfolios with the advisory of direct bankers operating remotely and supported by BlackRock's Aladdin Robo4Advisory platform. Direct Advisory completes the existing offer which also includes "Advanced Trading" (operating in over 50 cash and derivatives markets), and "In-Self Investments" (to operate independently on a selected set of sustainable funds and wealth management products created by Fideuram Asset Management). Cash Deposits added to the offering to complement wealth management product solutions and expanded the "Advanced Trading" product offering. Fideuram Direct promoted to customers of the traditional networks, both for Advanced Trading and for Direct Advisory, based on customer preferences and operational characteristics
- Alpien – the first Swiss private digital Bank – is operational as a mobile-only platform providing multi-currency, wealth management and financial advisory services with experienced consultants; the offer has been enriched with In-Self configurable mandates and Apple Pay
- New dedicated service model for Exclusive clients fully implemented
- Enhancement of the product offering (new AM/Insurance products) and further growth of the advanced advisory service "Valore Insieme" for Affluent and Exclusive clients: ~58,000 new contracts and €18.4bn in Customer financial asset inflow in 2023, ~67,000 new contracts and €18.5bn in Customer financial asset inflow in 2024. Started in early March the marketing of Eurizon mutual funds dedicated to customers holding the Exclusive Package of Valore Insieme. Marketing campaign launched in September targeting potential customers through direct email and ATM messages
- Launched in March 2023 the first co-badge debit card in Italy (in eco-sustainable material), dedicated to business customers, equipped with a dual circuit (Bancomat®, PagoBancomat® and MasterCard or Visa) and Instant Issuing service that can be activated from the website and App. In June 2024, introduced the option to use Bancomat co-badge card on Apple Pay and Bancomat Pay for purchases on Amazon. In 2Q24, released Visa Business Solutions for Commercial Visa credit cards
- Intesa Sanpaolo was the first Bank in Italy to offer Nexi SoftPOS in 2023, a solution allowing contactless digital payments from smartphones/tablets without a card payment machine (POS terminal). In June 2024, extended the service to the iOS operating system and launched the evolved version SoftPOS Pro on Android for medium/large corporate clients. In November 2024, expanded the circuits available to merchants with the introduction of American Express
- Launched in 1Q24 the wearable ring payment service, in collaboration with Mastercard and Tapster (VISA available since November 2024), and in 4Q24 the new bracelet with the innovative "TAPSTER Share" function allowing the quick sharing of data and information customers choose to make visible
- Introduction of new functionalities of Robo4Advisory by BlackRock to generate investment advice on selected product to support relationship managers. Additional features to customise on-demand recommendations, released in 3Q24
- Adoption of the BlackRock Aladdin Wealth and Aladdin Risk platforms for investment services: Aladdin Wealth for BdT and Fideuram, Aladdin Risk and Aladdin Enterprise for the Asset Management Division and FAM/FAMI⁽¹⁾
- New features for UHNWI⁽²⁾ client advisory tools, strengthening of service model for family offices. Released the new We Add advanced advisory service for the Intesa Sanpaolo Private Banking network. Integrated the new Aladdin Robo4Advisory functions on the Fideuram network to support advisory activities, and in April launched the new  contract providing also the opportunity to include Assets under administration in the service. The integration of ESG principles into the current advisory models is progressively evolving
- Ongoing enrichment of the alternative funds offering from leading international players through partnerships with specialised platforms
- In 4Q24, listed on Borsa Italiana (Euronext) the first seven physical replication ETFs of the D-X platform launched by FAMI through the Sicav AILIS (AuM ~€3.5bn at end 4Q24)

- Launched an ESG value proposition initiative for the corporate and SME segments in Slovakia, Hungary, Croatia, Serbia and Egypt. Identified priority sectors for which the definition of a commercial strategy aimed at improving the ESG offer is underway, in markets where the International Banks Division operates. As part of the S-Loan offer, launched a financing (multi-country) product, dedicated to the achievement of green objectives, in Slovakia, Hungary and Serbia. Started a project to also extend the S-Loan offer to Croatia, Bosnia and Herzegovina, and Slovenia. Completed a new survey in the main Banks of the Division, to identify customer financial needs in the ESG area
- Ongoing development of synergies - in Global Market, Structured Finance and Investment Banking - between IMI C&IB and main International Banks with a significant increase in business since the start of the Business Plan. Expansion in progress of the IMI C&IB Synergy Project to other markets
- ESG advisory to corporates to steer the energy transition through a scalable approach, with a focus on energy, infrastructure and the automotive & industrial sectors, also through supply chain agreements with specialised partners and integrating working capital funding solutions
- Ongoing the commercial cooperation with a leading insurance group to distribute bancassurance products in Slovakia, Croatia, Hungary, Serbia and Slovenia
- Launched the factoring product "Confirming" in six markets (Slovakia, Serbia, Romania, Slovenia, Bosnia and Herzegovina, and Albania) and finalised the first deals. Extension is underway in Croatia and Czech Republic
- New Factoring Digital Platform: completed the selection for the external provider of the new IT platform and signed the contract. The project envisages the involvement of VUB as a pilot bank, with a gradual extension to other banks of the International Banks Division
- Started a project between the International Banks Division and the Banca dei Territori Division to further enhance cross-border business opportunities for customers operating in markets where foreign subsidiaries are present. In the first phase, the program involved the banks in Slovakia, Hungary, Romania, the Agribusiness Department and some Regional Governance Centres of Banca dei Territori. The perimeter was then extended to all Banca dei Territori Regional Governance Centres and to all the International Banks Division geographies. Launched a dedicated initiative in Romania with the involvement of Relationship Managers from both divisions. Ongoing joint commercial campaigns in the other countries involved, with new development actions in Serbia and Croatia
- In October 2023, signed the contract to acquire 99.98% of First Bank, a Romanian commercial bank focused on SME and retail customers. The acquisition, completed on 31.5.24, strengthened ISP's presence in Romania and offers new opportunities for Italian corporates

Disclaimer

“The manager responsible for preparing the company’s financial reports, Elisabetta Stegher, declares, pursuant to paragraph 2 of Article 154 bis of the Consolidated Law on Finance, that the accounting information contained in this presentation corresponds to the document results, books and accounting records”.

* * *

This presentation includes certain forward looking statements, projections, objectives and estimates reflecting the current views of the management of the Company with respect to future events. Forward looking statements, projections, objectives, estimates and forecasts are generally identifiable by the use of the words “may,” “will,” “should,” “plan,” “expect,” “anticipate,” “estimate,” “believe,” “intend,” “project,” “goal” or “target” or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements include, but are not limited to, all statements other than statements of historical facts, including, without limitation, those regarding the Company’s future financial position and results of operations, strategy, plans, objectives, goals and targets and future developments in the markets where the Company participates or is seeking to participate.

Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements as a prediction of actual results. The Group’s ability to achieve its projected objectives or results is dependent on many factors which are outside management’s control. Actual results may differ materially from (and be more negative than) those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and is based on certain key assumptions.

All forward-looking statements included herein are based on information available to the Company as of the date hereof. The Company undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law. All subsequent written and oral forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by these cautionary statements.
