Source: ISP Research Department
(1) International Banks Division banks and IMI C&IB Division branches/banks. Simple average
(2) Data as at 30.1.26 (source: Bloomberg)

Italy's strong fundamentals support the resilience of the economy

Low debt/high wealth households	Strong gross wealth (€13 trillion, of which €6 trillion in financial assets) paired with low private debt
	Outstanding deposits, with ~2% YoY growth over the Business Plan horizon, coupled with ~2% yearly loan growth
	Unemployment rate close to historical lows, with employment and activity rates at their highest levels
Resilient and adaptive corporates and banks	Export-oriented companies highly diversified in terms of sector and destination markets
	Very resilient companies with high liquidity buffers and solid financial leverage
	Strongly adaptive ecosystem with default rates expected to remain low
	Banking system massively capitalised, liquid and profitable, coupled with a low-risk profile (net NPL ratio at ~1.4% ⁽¹⁾)
Positive outlook	Italian GDP expected to grow 0.7% ⁽²⁾ per year over the Business Plan horizon
	Macroeconomic scenario with a “normalised” interest rate environment, in line with the current level at ~2%
	Strong track record of positive primary surpluses (0.9% in 2025)
	Italy's rating upgraded in 2025 by Fitch, S&P, Moody's and Morningstar DBRS

4A. Scale-up of international business

Lean and efficient international network...

31.12.25

● International Branches ● Corporate Banks ○ Representative Offices

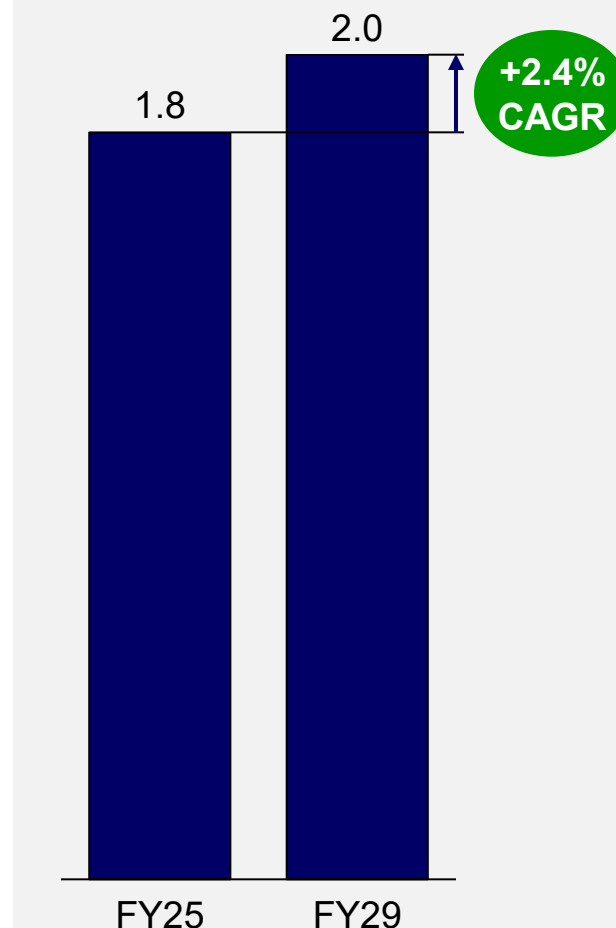

- ✓ Expanded business with international clients
- ✓ Focused efforts and presence in **high-potential markets** (e.g., US, Middle East), resulting in network simplification
- ✓ Specialised product expertise deployed in **key network hubs** (e.g., Project Finance)

... ready to grow the international business

- Further **strengthening of product capabilities** (e.g., project and infra finance), scaling up leadership across US, Middle East and EU
- Launch of a **dedicated coverage model** (in synergy between BdT⁽²⁾ and IMI C&IB Divisions) to support **Italian SME needs in core** (e.g., US, Middle East and EU) and **emerging markets**
- Growth in the **Group presence in trade finance** by supporting **Italian companies** in capturing trade flows with **emerging markets** (e.g., Tunisia and Ethiopia in Africa and India in APAC)
- Further strengthening of **Institutional client coverage in core geographies** (e.g., US, Middle East and EU)

Revenues from international clients

€ bn

(1) Not including ISP IMI Securities Corporation (broker-dealer)

(2) Banca dei Territori

4B. Strengthening of proposition in high-growth value chains

Main initiatives

Enhanced focus on selected high-growth areas

- Enhanced focus on selected **high-growth areas** (e.g., Space & Defence, Data centers, Health, Climate Transition, Blue Economy and seabeds) through:
 - Joint **coverage** and **product teams** (e.g., DCM and M&A) to best serve clients' sophisticated needs, while maximising cross-selling
 - Distinctive proposition** offered to both **Corporate clients** and **capital providers** (e.g., PE funds), in alignment with BdT⁽¹⁾ for SME clients

Boost in Institutional client franchise

- Boost in **Institutional client franchise** in selected segments (e.g., insurance, sovereign wealth funds, family offices, private capital providers) and geographies (e.g., US, Middle East and EU) through:
 - Strengthened specialised coverage** (e.g., dedicated capabilities for insurance and sovereign wealth funds and family offices)
 - Distinctive offer on **derivatives** (e.g., FX) and **high-value-added products** (e.g., DCM, private capital solutions)

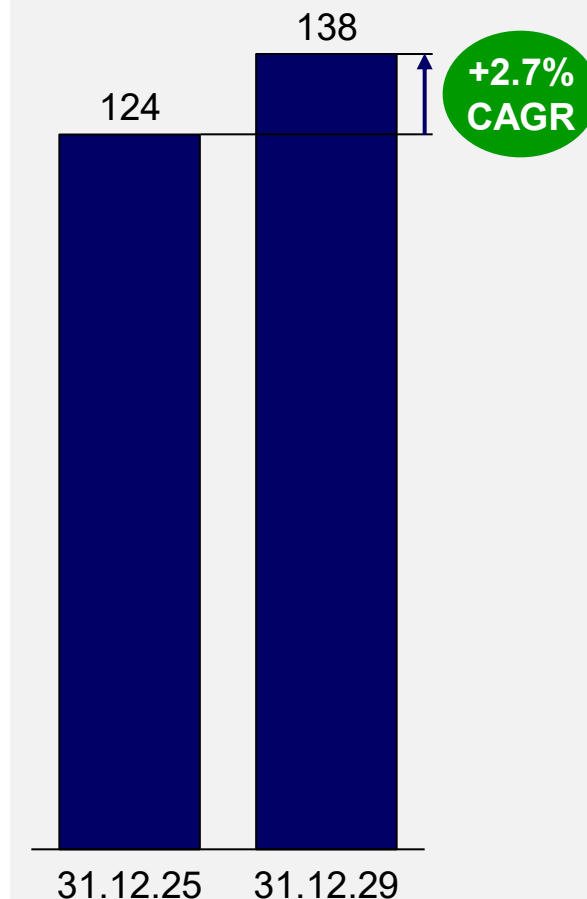

Increase in client value generation

- Delivering a **new analytics-driven platform to increase client EVA⁽²⁾**, optimising cross-selling and pricing, also leveraging new commercial processes
- Further strengthening of **capital light origination**

IMI C&IB Loans to customers

€ bn

(1) Banca dei Territori
(2) Economic Value Added

4C. Evolution of Global Markets platform

Main initiatives

Rewiring of the tech platform

- Rewiring of the tech platform, also leveraging strategic partnerships to embed “**best-of-breed**” **technology** and reach scale more effectively (e.g., broader span of currencies in FX)

Strengthening of coverage model

- Further strengthening of **client coverage model** through enhanced **capabilities** (e.g., specialised Sales & Traders), new **digital channels** and enhanced presence in **core geographies** (e.g., US, Middle East and EU)

Upgrade of product offering

- Upgrade of **product offering** with **focus on “flow” business** (e.g., Govies platform), **solutions** and **investment products** (e.g., Commodities, ETFs, Certificates), in synergy with the Group (e.g., international distribution networks)

Digital assets at scale

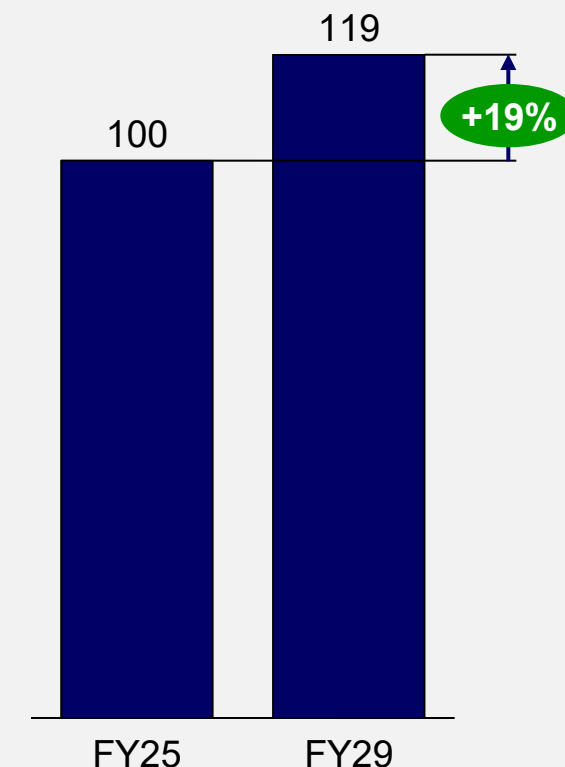

- Launch of a new **digital asset class proposition** at Group level:
 - **Stablecoin-based use cases**
 - Client access to **tokenised assets** (e.g., bonds, funds)
 - **Crypto-based solutions** only for Corporate and Institutional clients (e.g., brokerage, custody)

Global Markets client revenues

Indexed to 2025

Global Markets regional champion with leading tech solutions and a lean operating model

4D. Enhanced Transaction Banking by scaling up the new digital platform

Main initiatives

Scale-up of the new digital platform⁽¹⁾

- Evolution of the **digital offering** for:
 - **Corporate clients with sophisticated needs** (focus on FX, cross-border payments)
 - **Top SME clients** (focus on liquidity, cash management, derivatives)
 - **SME clients of other Divisions** (e.g., BdT⁽²⁾, IBD⁽³⁾)

Innovation of operating model

- Empowerment of the **omnichannel customer interaction model**, orchestrating app, web portal, RMs and Product Specialists according to client needs
- Centralisation of **administrative** and **repetitive activities** to achieve efficiencies and offer better services to clients
- Supporting the **frontline in providing advisory** through an analytics-driven platform

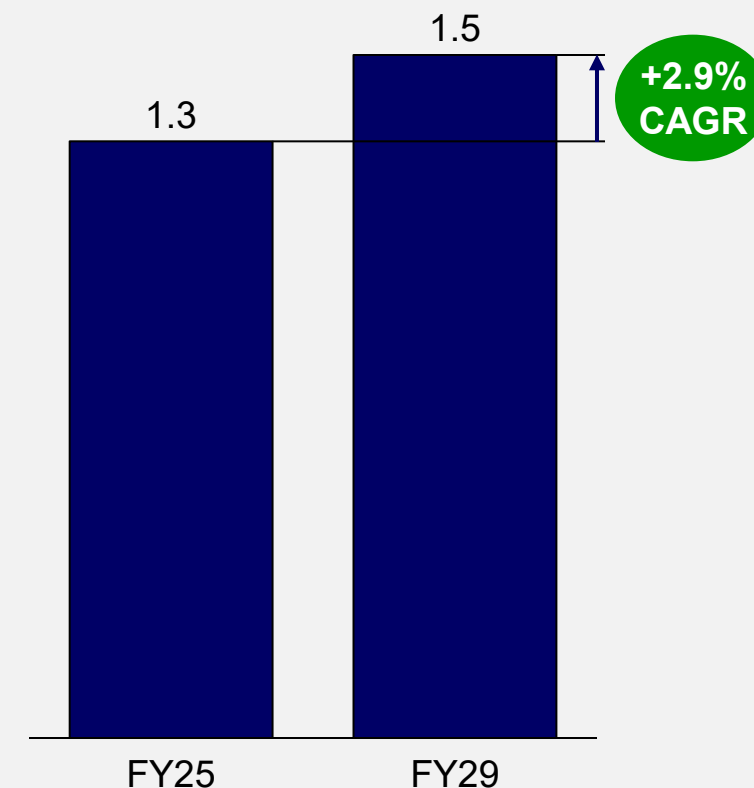

Build-up of strategic partnerships

- **Strategic partnerships to accelerate go-to-market** with a focus on high-potential **countries** (e.g., in Asia), and **new products/services** (e.g., cross-border payments)

investments already deployed

Revenue growth
fuelled by Wealth Management,
Protection & Advisory leadership

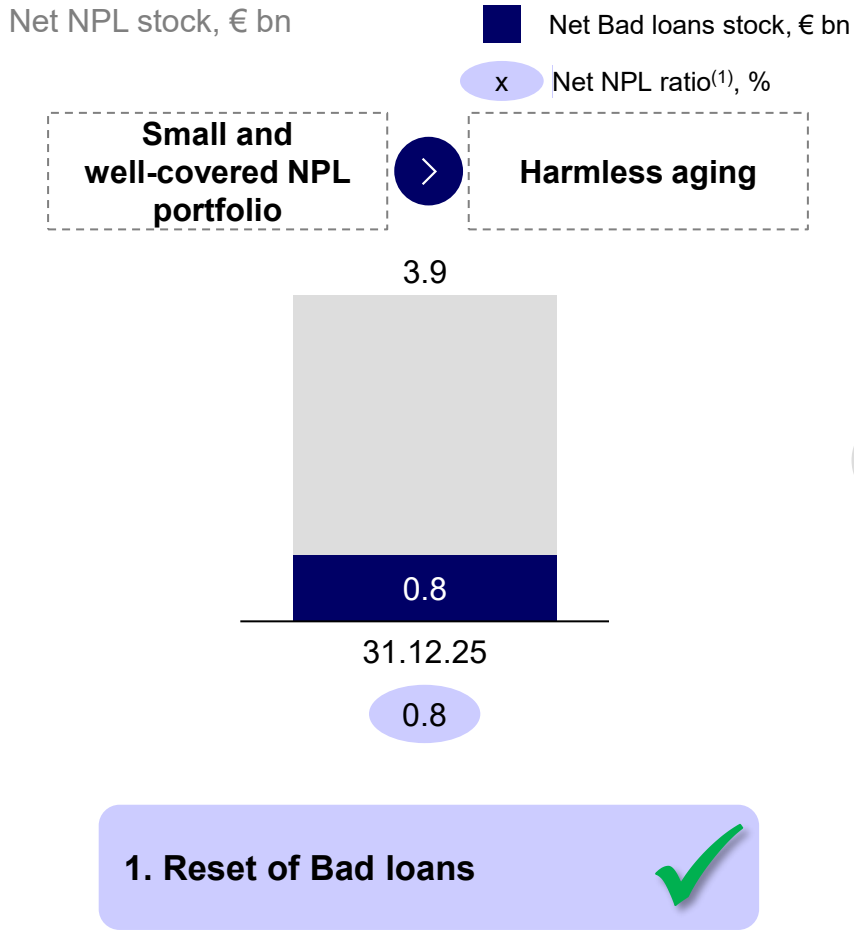

Low Cost of risk
thanks to Zero-NPL Bank status
and high-quality origination

Initiatives

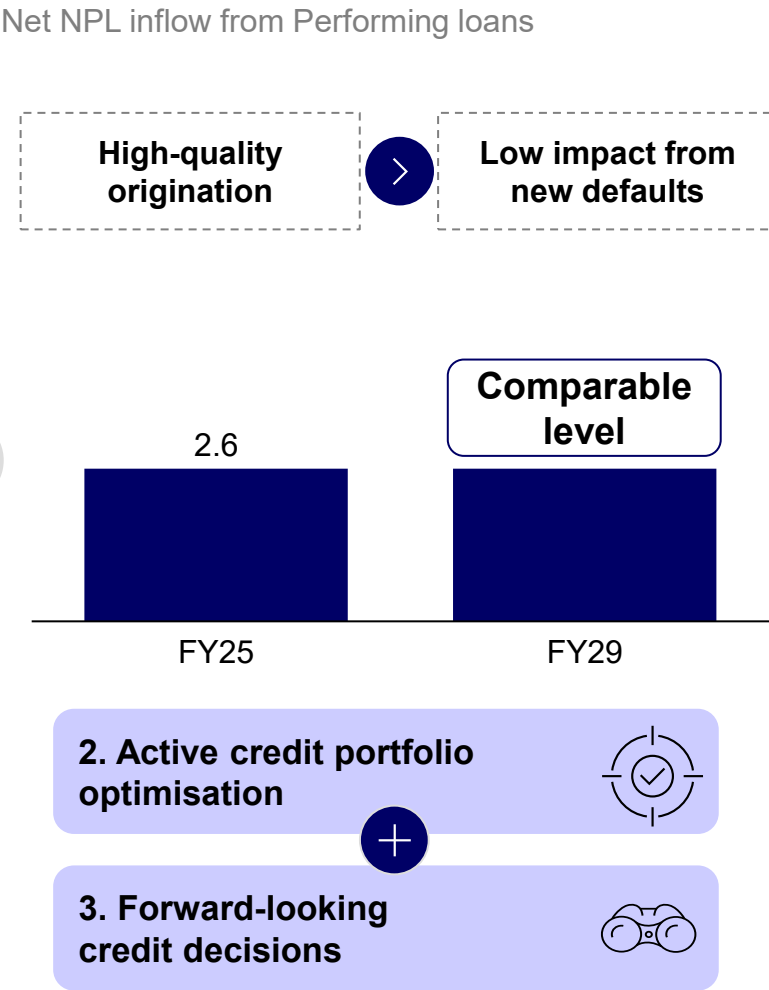

1 Reset of Bad loans	✓	2 Active credit portfolio management	🎯
3 Forward-looking credit decisions	🧐	4 Holistic management of all risks	⚠️

Zero-NPL Bank status enhanced also thanks to proactive risk management

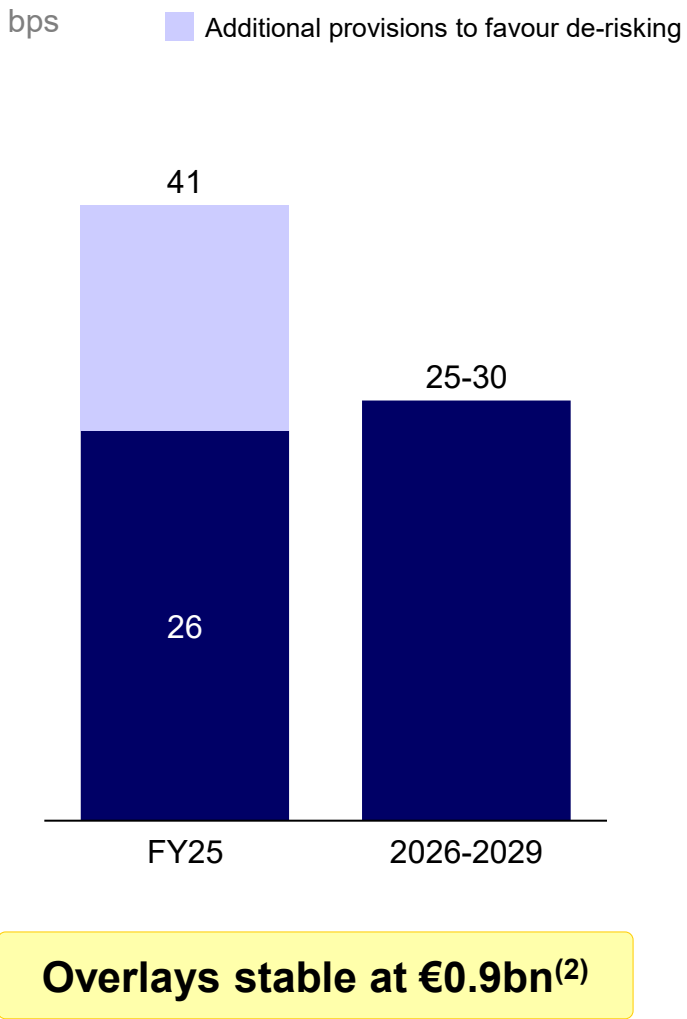

Zero-NPL Bank status...

... coupled with low NPL inflows...

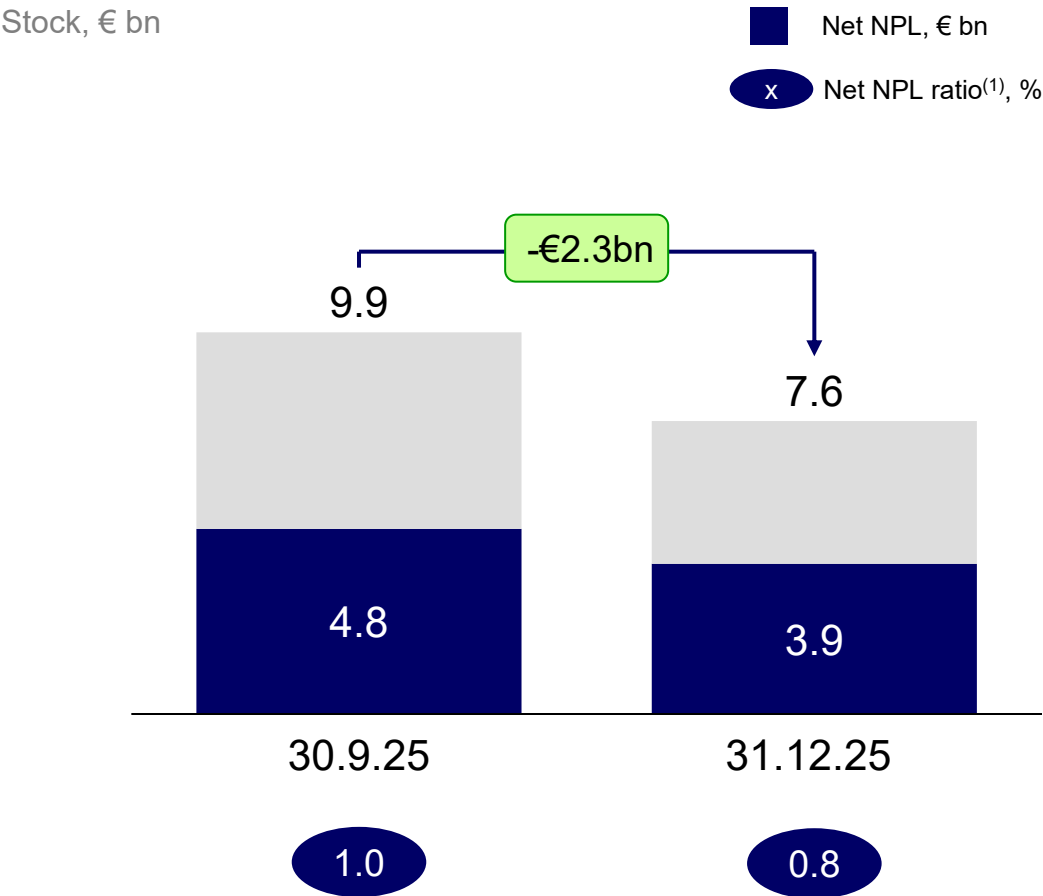

... driving structurally low Cost of risk

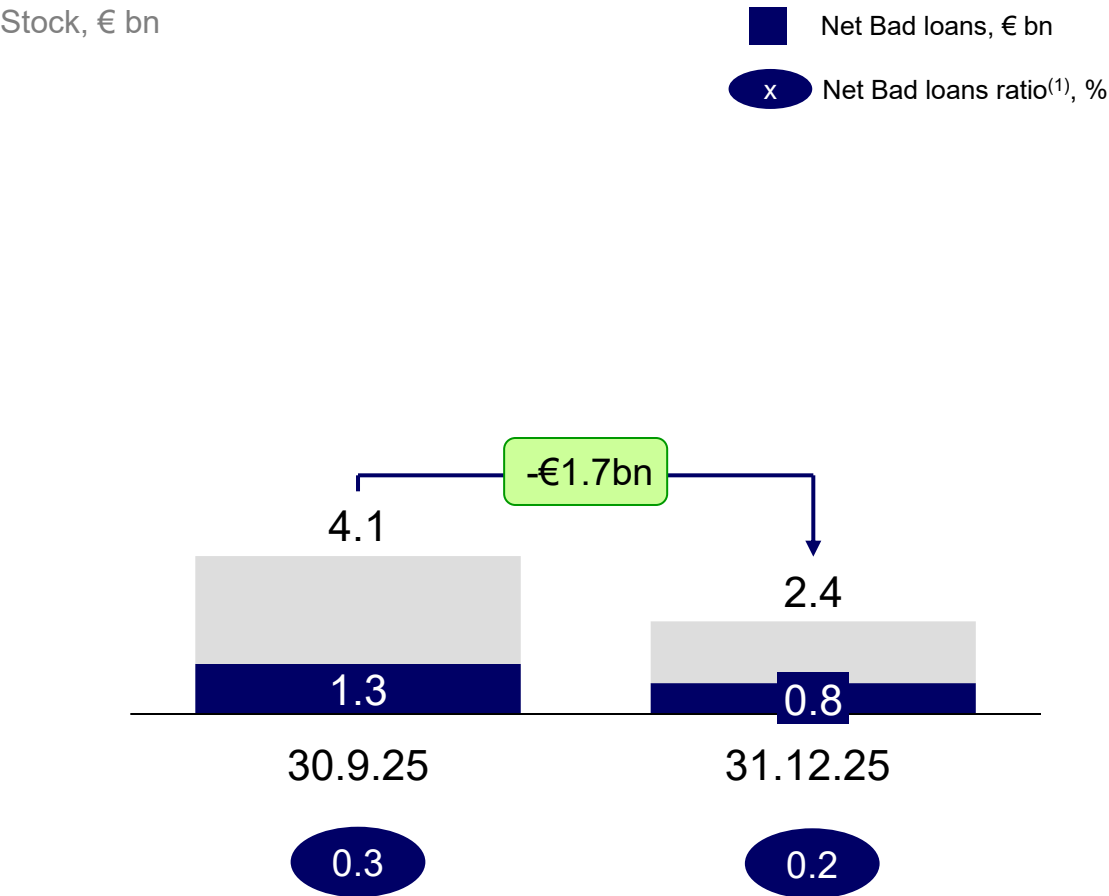

(1) According to EBA definition
(2) Throughout the entire Business Plan horizon

1. €2.3bn NPL reduction in 4Q25, with Bad loans reset to near zero

NPL evolution

Bad loans evolution

Zero-NPL Bank status enhanced with Bad loans reset, strengthening future profitability

(1) According to EBA definition

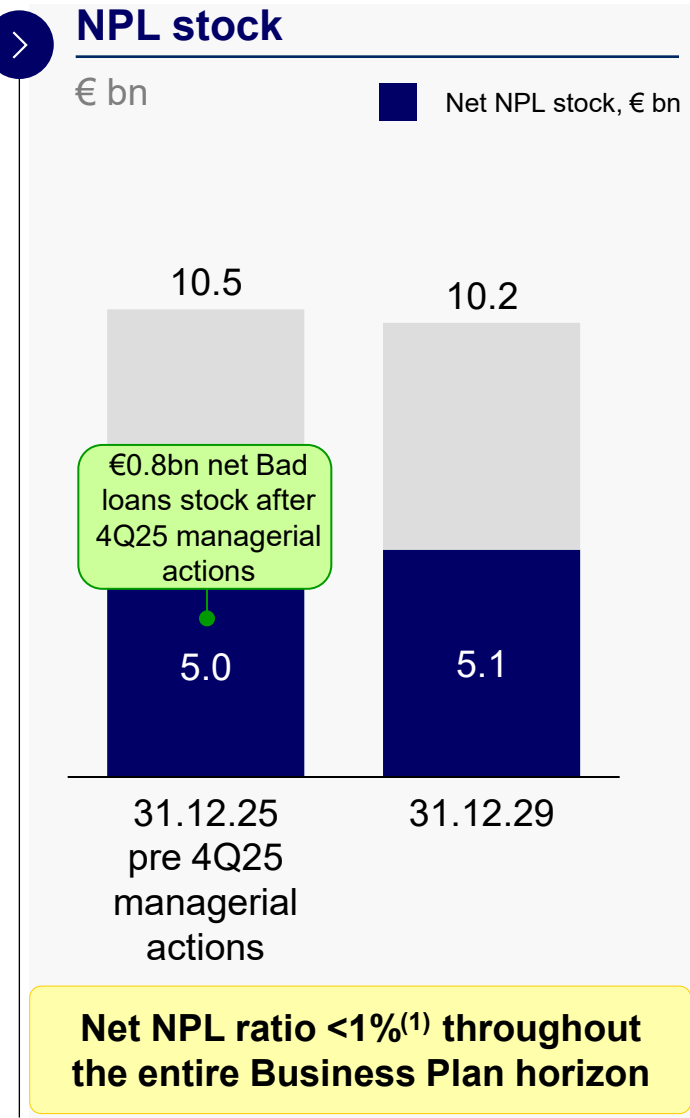

2. Active credit portfolio management

Main initiatives

Active credit portfolio management

- Enhancement of **strategic credit portfolio steering** through a **forward-looking approach** based on credit risk metrics, detailing target loan portfolios by sector, geography and risk cluster to **optimise the risk return profile**
- Strengthening of **forward-looking credit guidelines** for origination, differentiated across various dimensions (e.g., industry, geography) in line with the credit portfolio steering strategy
- Strong leverage of the recently upgraded **credit governance framework** through newly-established strategic and operational credit committees
- Further reinforcement of **prevention activities**, leveraging enhanced **early warning systems** based on sector-specific credit risk indicators
- **Development of new financing solutions**, structured through a dedicated platform, aimed at supporting industrial players in international supply chains, leveraging on a through-the-cycle perspective
- Upgrade of **Group de-risking solutions**, leveraging **data analytics** (e.g., systematic portfolio scanning) and the establishment of **strategic partnerships** with Tier 1 international investors
- Tactical **NPL disposals**
- Reframing of **servicing agreements** and further enhancement of **back-to-bonis** and **collection activities**

(1) According to EBA definition

3. Forward-looking credit decisions

Main initiatives

Forward-looking approach in underwriting and credit management decisions

- Underwriting process increasingly driven by **forward-looking credit guidelines** and **credit strategies**, with a strong focus on **lowering loan portfolio PD**
- Integrated **credit value chain** from **origination to distribution** and **monitoring** enabled by unitary data framework
- Enhancement of **forward-looking through-the-cycle approach** thanks to:
 - Enhancement of forward-looking **perspectives** across **industries** and **customer segments** based on **credit risk metrics**, leveraging our Research department
 - Enrichment and strengthening of the **catalogue** of **counterparty assessments** (e.g., credit scoring, business plans)
- Further integration of **risk return forward-looking** indicators (e.g., RAROC) and **RWA optimisation** approach in credit assessment

Data analytics for credit processes

- Full-integration of **data analytics** to streamline **credit processes**, with automatic affordability and digital decision-making engines

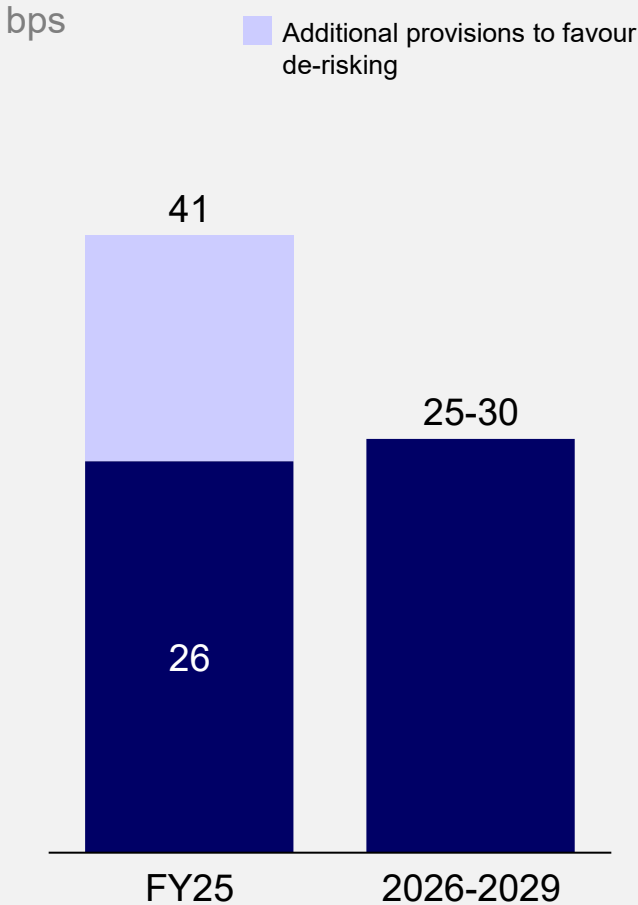

Build-up of thematic expertise

- Build-up of **thematic expertise** to ensure **comprehensive sector/counterparty knowledge** (e.g., Space, Data centers), through the hiring/up-skilling of credit data scientists, data engineers and sector specialists
- **New credit talent program** focusing on building a strong forward-looking and international perspective

Cost of risk

4. Holistic management of all risks

Main initiatives

Further enhancement of control and risk management framework

- Evolution of the **internal control framework** (isycontrols, enabled by ISYTECH), embedding LoD⁽¹⁾ 1 controls directly into commercial processes and customer journeys while enhancing LoD⁽¹⁾ 2 and 3 controls through AI to improve accuracy in risk identification
- Further strengthening of the Group’s **anti-financial crime solutions** through extensive adoption of AI and recourse to private and public partnerships
- Enhanced **risk management** approach with a reinforced attitude on non-financial risks (e.g., Cyber, ICT, third-parties) and extended use of risk models upgraded through AI to enable new business development with comprehensive risk control digital transformation of risk management processes

Focus on emerging risks

- Enhanced focus on **emerging risks** in the new economic and geo-political environment, in particular:
 - **Geopolitical risk**, through identification of threats arising from the evolution of macro-scenarios by geography and industry, assessment of the main implications on the Group’s multiple risk profiles and set-up of a Global Defense Center coordinating responses to Corporate security
 - **Cyber & physical risks**, through the reinforcement of the cybersecurity risk model with integrated reporting that combines intelligence with the analysis of cyber and physical threats
 - **Technology risks** through the enhancement of “Model and Data Risk” frameworks to manage the widespread and ethical use of AI/GenAI systems and the strengthening of security measures against fraud/scams and insider threats
 - **Climate risk**, shifting from a risk mitigation approach to a more comprehensive resilience strategy, including the models for physical and environmental risk adaptation
- Further enhancement of **Data Privacy & Protection** practices through empowered ex-ante and ex-post control systems to discipline employees’ right-to-know and enhanced supervision of suppliers (e.g., DORA requirements) to reduce third-party risk

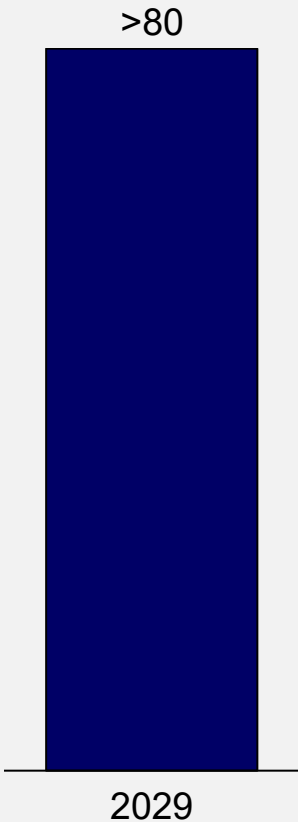

Reinforced risk and security culture

- Further strengthening of the **Group-wide risk and security culture**, including training and communication initiatives (e.g., fraud prevention), detection tools, partnerships with institutions, industry associations and universities, and customer awareness campaigns

Risk preemption/management digital use cases

#

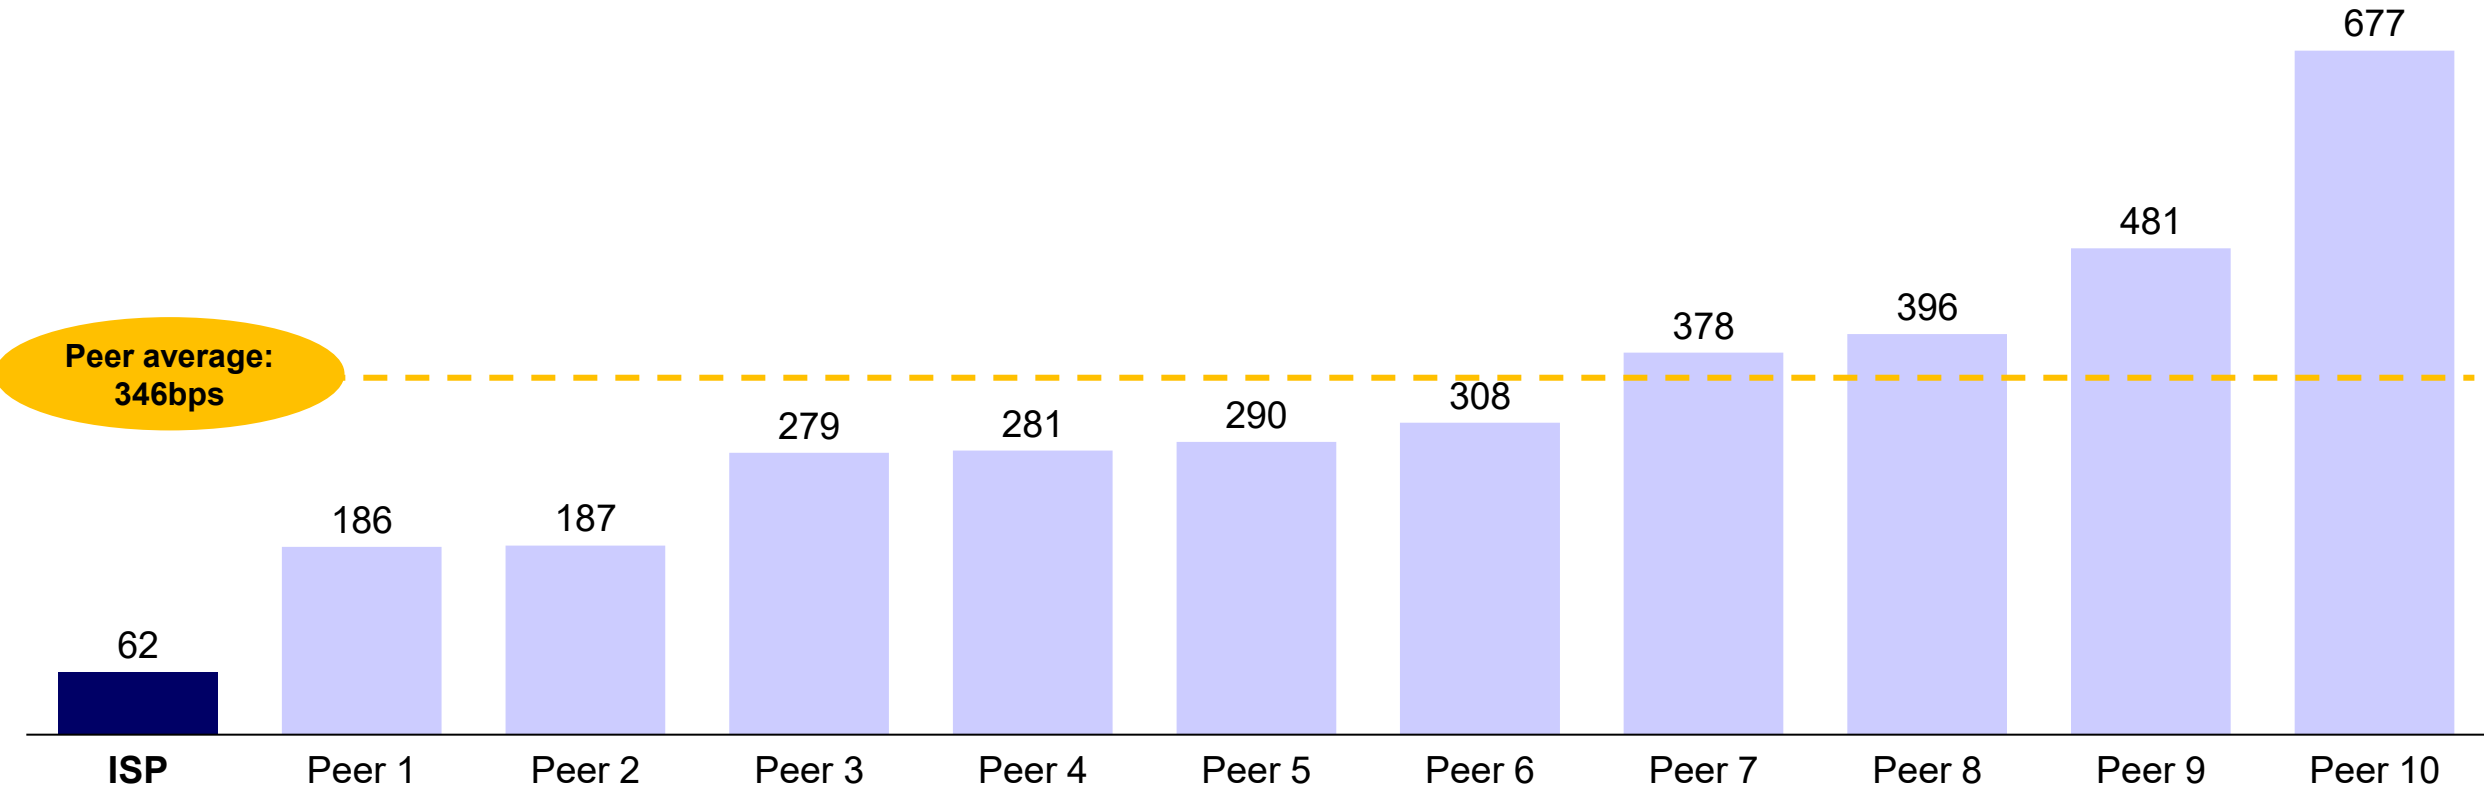

(1) Line of Defence

The resilience of our Bank against the main risks is clearly demonstrated by the 2025 EBA stress test

2027 adverse scenario impact on transitional CET1 ratio⁽¹⁾

bps

The adverse scenario applies severe macro-economic and financial shocks, including a cumulative GDP loss above 7pp for Italy and a decline of >40% in the European equity market

Initiatives

- 1** **Scale-up of capability building machine** 
- 2** **Full integration and connectivity within the Group** 
- 3** **Strengthening of Group culture** 
- 4** **Further enhancement of welfare at Group level** 

Investing significantly in our People, the most important asset (1/2)

Main initiatives

Scale-up of capability building machine

- **New Group Corporate Academy** (Academy4Future) at scale through:
 - Extension of the Open Learning Digital Platform to the international perimeter
 - Offering of **personalised training programs**
 - Launch of the new **Global Advisors Campus**
- Extension of **collaboration with top universities** and reinforcement of **partnerships with applied research labs** to further strengthen the Group's AI expertise
- Development of the new **International Graduate Program** and **Next Gen training programs**, enabling cross-functional job rotations, coupled with specific training programs to develop **specialised skills** (e.g., AI)

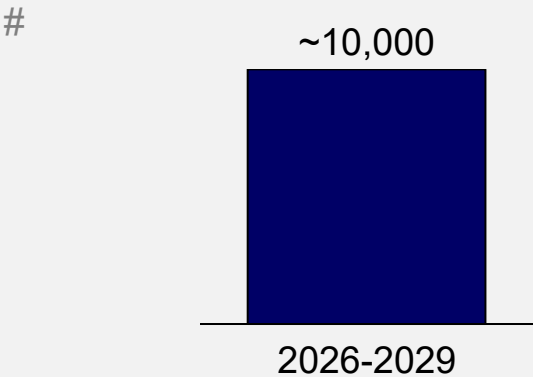

Full integration and connectivity within the Group

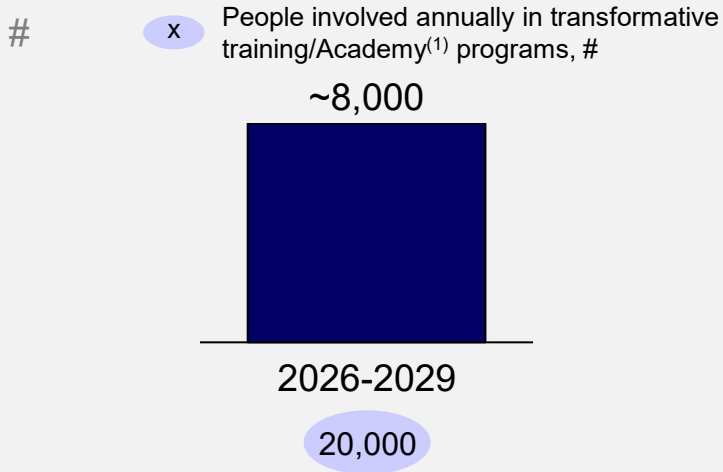

- **Global integration of HR models and processes** (e.g., onboarding, skill management, performance, compensation) to strengthen consistency and spread best practices
- Expansion of **Global Career program** (including new career website) to boost **global attraction strategy** at both the domestic and international level, strengthening our position as "employer of choice"

Reskilled/upskilled People

Young People enrolled in dedicated development programs

Top Employer Europe 2026⁽²⁾  and Top Employer Italy⁽²⁾  for the second and fifth consecutive year, respectively

(1) New Group Corporate Academy launched in 4Q25
(2) By Top Employers Institute

Investing significantly in our People, the most important asset (2/2)

Main initiatives

Strengthening of Group culture

- Promotion of a **Group Culture Code**, ensuring full alignment of internal processes with the Group’s values (e.g., performance management, continuous training and wellbeing)
- Further enhancement of **management role modeling**, with the objective of fostering motivation, cohesion and commitment to deliver targets
- **New incentive plans**⁽¹⁾

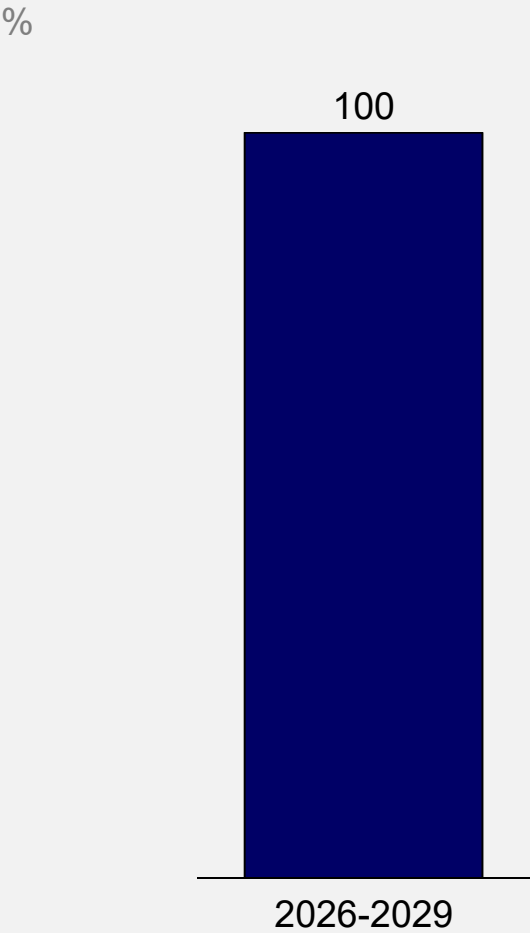

Further enhancement of welfare at Group level

- Further enhancement of **work-life balance** through innovative work organisation solutions (e.g., digital tools facilitating remote working) contributing to greater flexibility
- Upgrading of **welfare solutions at the international level**
- Extension of **CareLab Ecosystem** platform, for wellbeing solutions, to all geographies with **full integration of HR processes**

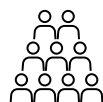

People involved in Group culture communication initiatives

(1) Including Long Term Incentives

World-class position in Social Impact while supporting clients in the sustainable transition

World-class position in Social Impact

~€1bn

Contribution to **fight poverty and reduce inequalities** during the 2026-2029 period⁽¹⁾

Supporting clients in the sustainable transition

Sustainable lending

30% of total MLT new lending over the Business Plan horizon with a strong focus on **social** and **environmental** activities⁽²⁾

Confirming commitments to decarbonisation

Net-Zero
by 2050

2030 targets confirmed for financed emissions, asset management, insurance and own emissions

Continuous commitment to preserve and promote our cultural heritage and to foster innovation

(1) €1bn already deployed in 2023-2025 as a cost for the Bank (including €0.35bn structure costs)
(2) Equal to ~€112bn assuming ~€374bn total MLT new lending, of which ~€25bn social lending and ~€87bn environmental/other sustainable activities

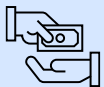

World-class position in Social Impact

Main initiatives

Addressing the key systemic social challenges in the countries where we operate

Strengthening financial inclusion through social lending

- **Addressing demographic complexities**, promoting education, engagement and guidance for young people, and supporting the elderly
 - **Contrasting growing inequalities**, promoting initiatives to fight material deprivation and housing/healthcare poverty
 - **Amplifying impact of social action**, through partnerships with local institutions and organisations, actively involving the Group's People and promoting social innovation
-
- **Lending to the third sector**, helping organisations to reinforce their own competencies and promote initiatives that benefit communities
 - **Financing affordable housing and essential infrastructure**, with a focus on key infrastructure
 - **Lending to vulnerable individuals**, supporting inclusion of individuals facing material poverty or difficulty in accessing financial resources, education, employment opportunities and healthcare services

Key output and outcome indicators

2026-2029

 **~100,000**
Young-aged beneficiaries

 **>1.5m**
Vulnerable people with improved socio-economic wellbeing

 **~3,000**
ISP People active in corporate and skills-based volunteering

 **~€25bn**
Social lending, cumulative flows

~€1bn contribution⁽¹⁾ to fight poverty and reduce inequalities during the 2026-2029 period

(1) As a cost for the Bank (including €0.35bn structure costs)

Supporting clients in the sustainable transition

Main initiatives

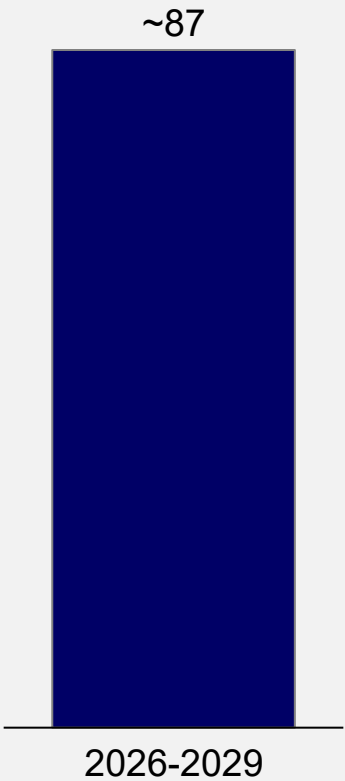

Leading role to favour the energy transition				
 Green buildings Enhanced lending offering (e.g., green mortgages) to support energy-saving solutions and enhance energy-efficient buildings	 Renewable energy Boost in renewable energy production through sustainable credit facilities	 Electrification New lending to support electricity grid systems, improving transmission, distribution and infrastructural electrification	 Clean tech Dedicated lending to clean tech solutions supporting the energy transition and efficiency (e.g., hydrogen, e-fuels)	 Hard-to-abate Dedicated lending to support decarbonisation of critical economic sectors, facilitating the transition to low-carbon business models
Support to environmental sustainability and transition				
 Green investments Expansion of green asset management offer for Private and Exclusive clients to further finance the green transition	 Adaptation Expansion of financing and insurance offerings, enabling climate-risk adaptation for rising physical hazards	 Circular economy Reinforcement of circular economy approach by evolving the offering of financial products for the circular transition	 Carbon offset Enhancement of carbon offset initiatives by offering new products and services (e.g., carbon farming and EU-ETS offering)	

Key enablers to support new initiatives

Growth enablers	ESG skills	Sustainable Steering
Offering of ESG advisory and blended-finance programs to unlock emerging technologies	Build ESG skills through dedicated training programs and institutional collaborations	Reinforce data governance, metrics and targets and evolve ESG integration into credit and risk processes

New MLT lending for the sustainable transition⁽¹⁾

Cumulative flows, € bn

(1) Including Environmental, Governance and other sustainable activities

Steady commitment to decarbonisation across all portfolios and for own emissions

Asset management portfolio	<p>Commitments reaffirmed following the relaunch of the NZAMI, with an emphasis on stewardship activities strategic for managing climate and sustainability risks in the long term:</p> <ul style="list-style-type: none"> Confirmed decarbonisation level of Reference Portfolio: ambition -50% by 2030⁽¹⁾ Enhancement of strategic levers for engagement and stewardship activities⁽²⁾ Evolution of Climate Solutions targets⁽³⁾ (investments in green/sustainability bonds)
Insurance portfolio	<ul style="list-style-type: none"> Confirmed 2030 targets set for Direct Investments (listed equity and publicly traded corporate bonds), with a 50% Carbon Intensity reduction⁽⁴⁾ Continuous engagement with the top 20 issuers in the Direct Investments portfolio⁽⁵⁾
Own emissions	<ul style="list-style-type: none"> Confirmed 2030 target with a 53% reduction in scope 1+2 absolute emissions⁽⁶⁾ 100% of electricity purchased directly from renewable sources at Group level in 2030, where available

Lending commitments

Sectorial targets	Metric	2030 Target ⁽⁹⁾ (% vs baseline)
Agriculture (Primary Farming)	tCO ₂ eq/€m	641 (-11%)
Aluminium	tCO ₂ eq/t	4.31 (-10%)
Automotive	gCO ₂ eq/vkm	100 (-48%)
Cement	tCO ₂ eq/t	0.50 (-23%)
Coal mining ⁽⁸⁾	Exposure in €bn	Already zeroed
Commercial RE	kgCO ₂ eq/m ²	22.11 (-49%)
Iron & Steel	tCO ₂ /t	0.81 (-23%)
Oil & Gas	gCO ₂ eq/MJ	52-58 (-14%)
Power Generation	kgCO ₂ eq/MWh	110 (-46%)
Residential RE	kgCO ₂ eq/m ²	19.26 (-36%)

SBTi⁽⁷⁾: confirmed SBTi Group targets as validated in January 2025

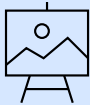

Note: further details on ISP transition plan available in the Climate Report (<https://group.intesasanpaolo.com/en/sustainability/sustainability-reporting/climate-report>)

(1) Scope 1 + Scope 2 reduction vs 2019 baseline
(2) Focus on climate change mitigation, biodiversity protection, human rights in supply chains, strengthening of governance practices. Targets: companies to be engaged covering 85% and 90% of financed emissions by 2029 and 2030, respectively, in the portfolio in scope. AGM participation: minimum 80% of votable AGM in the portfolio
(3) Evolution of Climate Solutions Targets (8% of the Asset Management Division AUM invested in Fixed income)
(4) Reduction vs 2021 baseline. Carbon Intensity: tons CO₂ e/\$M EVIC. (EVIC=Enterprise Value Including Cash)
(5) Accounting for about 70% of the relative emissions
(6) Reduction vs 2019 baseline. Validated 1.5°C aligned by SBTi. Carbon neutrality in 2030
(7) Science Based Targets initiative, reference entity for corporates and financial institutions decarbonisation efforts
(8) Phased out in 2025 as per exclusion policy
(9) Targets may be adjusted in relation to the shift in reference scenarios

Continuous commitment to culture and to promote innovation

Main initiatives

Continuous commitment to culture

- Renewal of “**Progetto Cultura**”, with **new cultural projects** and **editorial initiatives**, aimed at strengthening the collaboration with national and international museums, public entities and third-sector institutions
- Further technology enhancement of the Gallerie d'Italia (ISP's four museums), introducing **new digital experiences** for customers, including the implementation of a **dedicated app**
- Reinforcement of **Art Advisory services** for **Private Banking clients**, addressing evolving client needs

Promotion of innovation

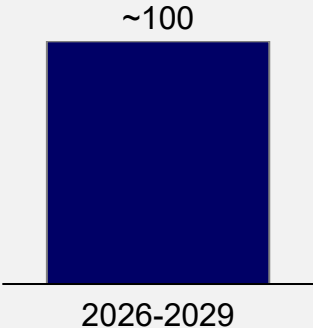

- Acceleration of **highly-innovative solutions**, by detecting **emerging trends** (e.g., health, demography), **applied research**, and promoting the transfer of technologies and know-how
- Further strengthening of **offering to startup and scaleup companies**, providing **innovation advisory** and **business transformation services**, enabling **ecosystem initiatives**
- Reinforcement of **Circular Economy positioning** by leveraging advisory and promoting circular adoption (within and beyond the Group)
- **Venture capital investments** through  **NEVA SGR** to innovative strategic sectors in the domestic and international markets

Final remarks

The 2026-2029 Business Plan formula leads to...

Our People are the most important asset

~60,000 ISP People contributed to defining the 2026-2029 Business Plan strategic priorities

Cost reduction
benefitting from strong tech
investments already
deployed

Revenue growth
fuelled by Wealth
Management, Protection &
Advisory leadership

Low Cost of risk
thanks to Zero-NPL Bank
status and high-quality
origination

**High and sustainable value creation and distribution,
rock-solid capital base and world-class position in Social Impact**

... a sustainable 20% ROE Bank, with a strong growth potential...

Best-in-class profitability	>€11.5bn 22%	Net income in 2029 ROE ⁽¹⁾ and 27% ROTE ⁽²⁾ in 2029
Cost reduction	-1.8% 36.8%	Absolute Cost reduction, benefitting from strong tech investments already deployed Cost/Income ratio down in 2029, while continuing to invest in technology and growth
Conservative Revenue growth	+3.0%	CAGR in revenues (in line with nominal GDP growth), mainly driven by Commissions, with Customer financial assets reaching ~€1.7tn
Zero-NPL Bank	<1% ⁽³⁾⁽⁴⁾	Net NPL ratio, coupled with low Cost of risk at 25-30bps and high-quality origination, with overlays stable at €0.9bn ⁽³⁾
Rock-solid capital position	>12.5% ⁽³⁾	CET1 ratio target
World-class position in Social Impact	~€1bn	Additional contribution ⁽⁵⁾ , to fight poverty and reduce inequalities
High value distribution	~€50bn	Capital return for 2025-2029 ⁽⁶⁾ , with additional distributions to be evaluated year-by-year ⁽⁷⁾ , considering 95% payout ⁽⁸⁾ (of which 75% cash and 20% buybacks ⁽⁷⁾)

(1) Ratio of Net income to end-of-period shareholders' equity. Shareholders' equity does not include AT1 and Net income

(2) Ratio of Net income to end-of-period tangible shareholders' equity (shareholders' equity after deduction of goodwill and other intangible assets net of relevant deferred tax liabilities). Shareholders' equity does not include AT1 and Net income

(3) Throughout the entire Business Plan horizon

(4) According to EBA definition

(5) Over the 2026-2029 period. As a cost for the Bank (including €0.35bn structure costs)

(6) Calculated on an accrual basis. Subject to ECB and shareholders' approvals and based on the achievement of 2026-2029 Business Plan stated Net income targets

(7) If CET1 ratio is >12.5% and no options for higher-ROI capital allocation to external growth are available (focusing on Wealth Management). Subject to ECB and shareholders' approvals

(8) In each year of the Business Plan. On stated Net income, subject to ECB and shareholders' approvals
