Milan, 15 April 2020 – **Intesa Sanpaolo** subscribed the entire **200 million euro circular tranche** of the **800 million euro sustainable loan** announced by Pirelli on 31 March.

The performance indicators to be measured will include those relating to Fossil Based Materials, i.e. a progressive reduction in the use of materials from fossil sources, and the Rolling Resistance, i.e. decreasing the rolling resistance of tyres.

Since 2015, **Intesa Sanpaolo has been the top Financial Services Global Partner of the Ellen MacArthur Foundation**, a global leader in promoting the circular model.

Mauro Micillo, Head of Intesa Sanpaolo’s Corporate & Investment Banking Division and CEO of Banca IMI, stated: “We are delighted to support Pirelli - a leading international group in its reference market - on the road to achieving the important milestones set out in its Business Plan, such as progressive reductions in the raw materials used and in CO₂ emissions in the production chain, as well as greater resistance and therefore lower tyre consumption. Specifically to support such initiatives, the Intesa Group has already disbursed 1.2 billion euro as part of the 5-billion-euro fund dedicated exclusively to investments in the circular economy, for a total of 95 transactions in Italy and abroad”.
