

# Climate Change Action Plan (PDF)

In 2017, a multi-annual Environmental Sustainability Plan – Climate Change Action Plan – was prepared with targets for 2022 and 2037, which follows other plans launched since 2009. In the Plan, the Intesa Sanpaolo Group declines CO<sub>2</sub> emission reduction targets, linked to its activities, taking 2012 as the reference year. The following scheme only includes UBI from 2021.

The CCAP was replaced in 2022 by the Own Emissions Plan, but will be reported throughout 2022, the CCAP's first medium-term target.

## Intesa Sanpaolo group – GHG emissions

Group - tCO<sub>2</sub>eq emissions from Scope 1 (Direct) and Scope 2 (Indirect Market Based)  
Results compared to the 2008 reference year. UBI included only from 2021.

## The CCAP targets for 2022 and 2037 (including UBI Banca only from 2021)

Scope	Base year	% of emissions considered compared to the total scope	Base year emissions covered by target (tCO <sub>2</sub> eq)	Target year	Reduction target vs base year (*)	2021 result with unchanged emission factors
Scope 1+2 (Market based)**	2012	100%	113,533	2022	- 37%	- 33%
Scope 1+2 (Market based)**	2012	100%	113,533	2037	- 43%	- 33%
Scope 1+2 (Location based)**	2012	89% (Gas, Electricity)	249,171	2022	- 28%	- 16%
Scope 1+2 (Location based)**	2012	89% (Gas, Electricity)	249,171	2037	- 41%	- 16%
Scope 1+2 (Market based)**	2012	73% (Gas, Electricity)	82,675	2022	- 42%	- 32%
Scope 1+2 (Market based)**	2012	73% (Gas, Electricity)	82,675	2037	- 50%	- 32%
Scope 1	2012	21% (Fleet)	12,431	2022	- 27%	- 28%
Scope 3 Paper	2012	100%	16,608	2022	- 26%	- 37%
Scope 3 Business Travel	2012	67% (Trains, Flights)	9,920	2022	- 34%	- 87%
