Borrower: *CIDER SOLAR ACQUISITIONCO LLC*

Borrower`s Shareholder: *Greenbacker Renewable Energy Company*

Sector: *Power Generation*

Country: *USA*

Financial Product: *Project Finance*

Equator Principles category: *B*

Project description

The Project regards the construction and operation of Hecate Energy Cider Solar LLC (" Cider" or the "Project"), a 500 MW solar farm in Genesee County, New York. Once constructed the Project will be the largest solar project in New York State

Summary of Key Environmental Impacts and Risks

The project has been developing in a Designated Country. The Environmental and Social due diligence by the independent consultant assigns a Category B, since while the project has environmental impacts, they are largely contained to the project construction/phase, and the Borrower is required through its authorizations and other permits to implement mitigation measures, as indicated in the ESDD, to reduce the level of significance of these impacts to a relatively low level, and to report on the compliance to regulatory agencies.
