

INTESA SANPAOLO GROUP CONTRIBUTIONS

Intesa Sanpaolo plays a proactive role in regulatory processes, monitoring regulatory proposals (and, where appropriate, actively participating in related discussions through advocacy) for topics that may have a direct and indirect impact on the Group, particularly with regard to banking, financial and insurance legislation and the European ESG regulatory framework. In particular, advocacy work was carried out with regard to the initiatives reported in the metrics section on ESG issues (e.g., at the European level, some legislative initiatives related to the EU Green Deal strategy) and financial issues.
