

Intesa Sanpaolo receives the "Diversity & Inclusion Award Diversitalavoro"

As part of the initiative "Diversity & Employability", the **award "Diversity & Inclusion Diversitalavoro"** was assigned to Intesa Sanpaolo.

Diversitalavoro (Diversity at Work) is a project promoted by UNAR (National Bureau against Racial Discrimination), Sodalitas Foundation, Synesis Career Services and Adecco Foundation for Equal Opportunity, which aims at promoting integration in the labour market of university and high school graduates with disabilities, members of protected categories and/or of foreign origin.

The award is given to companies that promote policies to provide work for disadvantaged people, aiming at enhancing talent and skills. In particular, the competition refers to companies which, in the last 18 months, have included candidates met during the *Diversitalavoro* career day, without discrimination on the type or duration of contract.
